

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

At 2:55 o'clock Senator Achi moved to adjourn until 10 o'clock tomorrow. Seconded by Senator Baldwin and carried.

Clerk of the Senate.

Approved by the Senate:

President of the Senate.

THIRD DAY.

Friday, February 20th, 1903.

The Senate met, pursuant to adjournment, at 10 o'clock.

After prayer by the Chaplain the roll was called, showing Senators Baldwin, Nakapaahu (reported sick), Paris and Woods absent.

President Crabbe here swore in the Assistant Secretary.

The Journal of the second day was read and, upon motion of Senator J. T. Brown, seconded by Senator Isenberg, approved as read.

Senator C. Brown, for the Special Committee on Rules, reported that the same had been ordered printed.

Senator C. Brown for the special committee to whom was referred the report of the Committee appointed at the Special Session of the Senate in relation to the expenses incurred reported as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—Your Special Committee, to whom was referred the report of the Committee appointed at the Special Session of the Senate held in 1902 in relation to the expenses incurred by

reason of such session, as well as to provide funds to defray the expenses of the present session, beg leave to report:

That they have, in accordance with the instruction of this Honorable Body, prepared a Bill making appropriations for that purpose, which is introduced and made a part of this report, and have asked for the sum of Twenty-five Thousand Dollars, deeming that sum sufficient.

The total expense of the Special Session so far made known to this Committee is \$3,849.25, which includes the payment of \$200 to each member, but does not include the mileage.

The mileage will amount to the neighborhood of \$250. Taking the above figures as a basis, the expenses of the Special Session may amount to between \$4,100 or \$4,200; this will leave some \$20,000 or more with which to defray the expenses of this session of the Senate, which this Committee thinks is ample funds for such purpose.

Heretofore it has been the custom to appropriate money to defray the expenses of the Legislature in gross, that is, one sum to pay the expenses of both of its branches; by so doing it has almost been impossible for the public to know how much money has been spent by each branch. Your Committee have made an innovation in that respect, and the Bill as introduced makes only an appropriation specially for the Senate, and of which the House of Representatives will have no control.

The last Regular Session and the extra session spent of money actually appropriated \$92,000 and it is understood that there are yet a considerable number of bills outstanding and unpaid.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
H. P. BALDWIN.

Honolulu, February 20th, 1903.

Senator C. Brown here introduced a Bill entitled "An Act to appropriate money for the purpose of paying the expenses of the Special Session of the Senate of the Legislature of the Territory of Hawaii of the year 1902, and of defraying the expenses of the regular session of the Senate of the Legislature of the Territory of Hawaii of the year 1903, from the Public Treasury."

Senator McCandless moved that the report of the Committee be adopted. Seconded by Senator Paris and carried.

At 10:45 o'clock the Governor's message was received and read by the Secretary.

A MESSAGE
TO THE LEGISLATURE OF THE TERRITORY OF HAWAII.
HAWAII.
1903.

The present fiscal period has been one of large needs and small means. Much has been done in the way of public improvements and emergency demands outside of the appropriation bills. Rights-of-way for road development have been acquired through the provisions of the laws authorizing land exchanges between the Government and private parties. Public improvements have been made by private parties under agreement with the Government in the confidence that the Legislature, recognizing the pressing need thereof, would make due appropriation therefor. Important emergency work has been done under a similar understanding.

There is still much to be done in the way of public improvements for lack of which there is prejudice to the public interests which will increase as time goes on unless action is taken. Much of this work cannot be paid for from the current revenues.

Estimates for expenditures from a fund to be obtained by a public loan will be submitted to you with recommendations for appropriate legislation on the subject.

The following is the cash statement of the first year of the present fiscal period,—July 1st, 1901, to June 30th, 1902, current account.

From this statement the following appears:

| | |
|--|----------------|
| Actual current revenues for the year ending June 30th, 1902 | \$2,473,172 81 |
| Actual current expenses, including outstanding warrants of the same year | 2,382,968 90 |

The following statement is made from the Treasurer's report for the last six months of 1902:

| | |
|--|----------------|
| Revenues | \$2,255,298 56 |
| Cash on hand July 1, 1902 | \$ 287,131 30 |
| Interest on Bonds returned by United States Government | 140,000 00 |
| Hawaiian Treasury Note | 105,000 00 |
| Loan Fund balance transferred to current account | 86 95 |
| | \$ 532,218 25 |
| Actual current revenues | \$1,723,080 31 |

For the first six months of the present year the probable actual current revenue as estimated by the Auditor will be \$606,430 and for the last six months of 1903, \$1,729,430, making a total estimated current revenue for the present year of \$2,335,860.

From these various statements it is safe to estimate our actual current revenues for the coming biennial period upon the basis of our present revenue laws, at not over \$5,000,000.

Although from this showing the expenditures for the first year of the present biennial period have been within the actual

current revenues, the revenues for the period will be insufficient for fully carrying out the appropriations for current expenses amounting in the aggregate to \$5,732,463.69. Estimating the actual current revenues for the last six months of the present biennial period at \$606,430, the revenues for the entire present biennial period will be \$4,802,683.12, which is \$929,780.57 less than the aggregate appropriations for current expenses.

The past year has not been a very prosperous one for the producers of the main staple of the Territory. Our general prosperity is so intimately connected with that of the sugar plantations that every opportunity of success not inconsistent with other and more paramount interests of the body politic, should be afforded them.

The recent depression, however, in sugar production, should forcibly remind us of the vital importance to the Territory of the development of productive enterprises on other lines. It is not to be doubted that the phenomenal profit of sugar production in these islands in the past, has had a powerfully repressive influence upon all other productive enterprises. The lessening of such profit will therefore have its compensation in the inevitable tendency toward a revival of such other enterprises; and the Government should stimulate such tendency whenever it may legitimately do so.

The ways are many in which this may be done. By promoting agricultural education and the work of experiment stations; by promoting the settlement of the public lands by men who will make their permanent homes on their farms and by making it possible for such farmers to get their products to good markets; and by giving every reasonable assistance to new operations that are still in the experimental stage, which may be done in one way by exempting them from taxes for a definite period.

The production, for instance, of fiber in the Territory has reached a promising and, it is to be hoped, a successful stage. It is important in the public interest that we should not be satisfied to ship away the raw material to be manufactured elsewhere, and the Government should encourage its home manufacture and other new manufacturing schemes, whenever private enterprise shall be ready to take the initiative.

In connection with the plans of the business men of the Territory for the exploitation of its resources and attractions, I would call your attention to the experience of the older Territories, where it has been found advisable to maintain a bureau for the information of tourists and settlers, and I would suggest that provision be made for such a bureau, or that assistance be given to the citizens in their conduct of such an undertaking.

The great World's Fair which is to be held at St. Louis next year will give an opportunity for disseminating information about the Territory which cannot well be surpassed. If the Territory takes up this matter, it is worth while to do it thoroughly. I would recommend a liberal appropriation for this object.

One of the most important duties of the Legislature in the present session will be for the consideration of legislation for the creation of counties, and provision for their government. The adjustment of the relation of such subordinate governments to the Government of the Territory in the matter of the collection and division of taxes, the powers of the respective governments and their officials, the police, public works, public instruction and the public health, require earnest study into present conditions and the probable effect upon them of contemplated changes.

Certain ideals of government requiring a municipality of officials and considerable elaborateness of detail might become a burden upon the small populations which must compose the majority of our future counties; on the other hand, an extreme of simplicity of county organization would probably result in governments entirely inadequate for the work which of necessity they ought to perform.

The question of the apportionment of county boundaries on the Island of Hawaii is a perplexing one. In the discussions of this subject there appear to be three alternative propositions; to form the districts of Kohala, Kona and Kau into one county, and the districts of Hamakua, Hilo and Puna into another; to form the districts of Kohala, Hamakua and Kona into one county and the districts of Hilo, Puna and Kau into another and to have the whole Island of Hawaii form but one county.

The first proposition would create two counties out of all proportion to each other in the matter of wealth, with the weaker county carrying a vastly heavier burden in the matter of the maintenance of roads in view of its smaller revenues. The second proposition improves the situation slightly as regards revenues and very much geographically. Setting apart the whole Island of Hawaii as one county has much to recommend it in the direction of economy.

There is still another suggestion on this subject, which may be worthy of consideration—the combining of Kohala, Hamakua, Kona and Kau as one county and Hilo and Puna as another. This arrangement would form two counties of nearly equal tax revenues and fairly convenient geographically.

It is most important that legislation on this subject should be disposed of early in the session, in order that there shall be time to consider the changes in appropriations and other legislation which such a measure, if enacted, will require.

In June, 1902, the Government gave public notice of its reservation for forest purposes of a tract of 74,000 acres lying be-

tween Maunakea and Hualalai on the Island of Hawaii and northwesterly to the ocean. This reservation is of old and recent lava formations and is partly covered with a thin growth of forest which is infested with large numbers of wild sheep. These are rapidly destroying the undergrowth and threaten the existence of the larger trees. A few wild cattle are also in the tract. Both sheep and cattle will be destroyed or removed elsewhere.

At the last meeting of the Sugar Planters' Association a committee was appointed by that body to confer with the Government on the subject of forestry. As a result of such conferences measures were mutually adopted to establish lines of forest limits on all the larger islands of the Territory. Agents have been appointed by the Government for this purpose and the work has been begun. A very earnest feeling among sugar planters and other land holders upon this subject is evident. The Executive desires that the Government shall act with these men promptly and effectively and to that end I recommend the enactment of legislation that shall promote measures for the protection and extension of our forests more fully than is possible under our present laws, and the appropriation of public moneys to assist in carrying out such policy.

In July, August and September of 1901, extensive and destructive forest fires occurred in the District of Hamakua on the Island of Hawaii. A long drought had exposed that locality to such calamity. The area burned over consisting of public and private lands is estimated at about 30,000 acres. The Government had no funds with which to check these fires, but effected an arrangement with the neighboring planters by which a number of their laborers were available for this purpose. With this force and with the assistance of the early fall rains the fires were, after a long struggle, gradually extinguished. Appropriations should be made for the prompt payment of the expenses incurred, with interest.

There is a prospect that the Forestry Bureau of the United States will furnish the Territory with an expert forester, who will organize a forestry bureau here. Reasonable appropriations for the pay and expenses of such an officer should be made.

It is important for forest protection from insects that the destruction of certain forest birds should be prevented; to this end I would recommend the enactment of a law for the protection of all forest birds and all birds not game birds.

The Commissioner of Public Lands has been somewhat crippled in the work of his office, especially in the proceedings for land settlement, through insufficient appropriations. The moderate increase placed in the estimates will, if adopted, materially strengthen this important department.

In view of the importance of the Territory of having American farmers settle on our public lands, I recommend that an

additional item be placed to the credit of this department in the appropriation bill, for disseminating information on the Mainland in regard to lands that may, from time to time, be opened for settlement.

The Special Agent in charge of the Hawaii Experiment Station has suggested that the Territorial Government assist the station according to the following schedule:

| | |
|---|--------------|
| Permanent fireproof library, office and laboratory building | \$ 3,000 00 |
| Equipment of Chemical laboratory | 1,500 00 |
| Dairy herd, feeding cattle, stables, etc. | 2,000 00 |
| Salary of one chemist | 2,000 00 |
| Salary of one horticulturist | 1,500 00 |
| Residence for chemist | 1,500 00 |
| Labor and supplies | 3,500 00 |
| <hr/> | |
| Total | \$ 12,000 00 |

I have placed the items of equipment of chemical laboratory and chemist's salary in the estimate for current expenses, and shall recommend the items for library, office and laboratory building and residence for chemist in the loan estimates. In view of the limited income of the Territory I have not recommended the other items, yet I feel that the assistance asked for in the third item, i. e. dairy herd, etc., \$2,000, would, if granted, result in such benefit to the dairy interests of the Territory, that I recommend the same to your consideration.

The project of establishing an agricultural college in the Territory has interested many citizens since the inauguration of the Territory. It is understood that the Federal Government provides a substantial subsidy for such colleges in the Territories, which, however, cannot be used for buildings. This leaves to the Territory the work of construction and relieves it substantially, at any rate, for the period of outlay for necessary buildings and possibly land for the inception of the enterprise, from further expenditure.

I believe it is important for the Territory to have as immediately as possible the opportunities of education and the stimulus to a varied agricultural development which such an institution would confer. I propose to refer again to this subject in connection with the loan estimates.

The report of the Superintendent of Public Works calls for extensive appropriations for many much needed public improvements, but much larger in the aggregate than can be met under our present limited resources. A large proportion of my recommendations in this department will be given in the loan estimates.

The work of selecting the objects of expenditure which are most essential, and discarding those which can be put off with the least injury to the public welfare, requires careful investigation and a deep patriotic sentiment which will not sacrifice the interests of the whole public to those of a part of it.

The report of the Superintendent of Public Instruction calls for a large increase of appropriations for teachers' salaries and building school houses. The population of school children in the Territory is increasing more rapidly than the Government has been able to build school houses. New school houses require an increase in the teaching force. I believe the recommendations referred to are as conservative as they should be and should be adopted. The estimates for new school buildings will be reported to you in the loan estimates.

I submit for your consideration the question of introducing kindergarten instruction into our school system. There is no doubt that with children whose race language is other than English and those whose surroundings are not civilizing, a kindergarten course is a very valuable preparation for the lower grades of our system. The Territory, however, at the present time is unable to take up such an undertaking upon a general scale for financial reasons.

I would recommend that provision be made for establishing a kindergarten in connection with the Normal School, thus giving normal pupils an opportunity of acquiring the principles of kindergarten instruction. In this way a teaching force will be acquired which may, in the future, make the introduction of such instruction into the public schools a practical scheme.

I would call your attention to the sad case of a number of children who are ineligible for admission into the public schools on account of their inability to pass the required medical examinations. Some provision should be made for the education of these children. As their number is small in any one locality, it may be impracticable to provide instruction for them at their homes. There does not seem to be any insurmountable objection to legislation that would gather them at some place or places according to their numbers, and provide them with instruction and careful medical attendance as well as food, clothing and lodging. Such a plan would be in their own and public interests.

I have recommended in the estimates an increase of appropriation for the Queen's Hospital. This institution now maintains a free ward for the poor of all nationalities, beside furnishing free treatment of Government patients. Public patronage is constantly increasing.

I feel justified in expressing my conviction that the disease of leprosy is on the decline in the Territory from the following showing, derived from the reports of the Board of Health:

The settlement on Molokai was established in 1886 during which year 141 patients were admitted. The policy of segregation was loosely carried out for a number of years after the establishment of the settlement. During the first seven years the patients admitted averaged 114 per annum, and the largest number admitted in any one year was 183. In 1873 a stricter enforcement of the law was carried out, and 487 patients were sent to the settlement. Thereafter until 1887 the law of segregation was only partially enforced and the number of admissions during those years averaged 141 per annum, and the largest number admitted in any one year was 301.

Since 1887 the law has been vigilantly carried out. The number of admissions in 1888 was 579; in 1889, 308; and in 1890, 202; and from that year to the present time the admissions have decreased in number, though not regularly from year to year; but taking the twelve years beginning with 1890 and ending with 1901, in sections of three years each we find the number of admissions to be as follows:

| | |
|------------------------------|-----|
| 1890 to 1892 inclusive | 454 |
| 1893 to 1895. " | 445 |
| 1896 to 1898 " | 350 |
| 1899 to 1901 " | 254 |

From these figures it would appear that with strict segregation the disease has steadily diminished, while, without strict segregation, it shows a tendency to spread.

The following table gives the average number of patients at the settlement for three periods of ten years each, with the average death rate for the same period:

| | Average Number of Patients. | Average Number of Deaths. | Death Rate. |
|------------------------------|-----------------------------------|---------------------------------|----------------|
| 1871 to 1880 inclusive | 648 | 135.4 | 20.9 |
| 1881 to 1890 " | 823.5 | 144 | 17.5 |
| 1891 to 1900 " | 1,096 | 134.5 | 12.3 |

These figures show a marked decrease of the death rate for the last decade, which is undoubtedly largely due to a general improvement of conditions at the settlement pertaining to comforts of life and care of the sick.

The large average of patients from 1891 to 1900 is due to the more vigorous execution of the law of segregation since 1887 and to the diminishing death rate.

The number of patients at the settlement at the end of 1901 was 942, and on the 30th of June, 1902, 915.

The British Government is still pressing for payment of the claims of several of its citizens based upon their treatment by the Republic of Hawaii under martial law in 1895. Correspondence in this matter is with the Secretary of State, who has expressed a desire that the Government of the Territory should create a commission to finally determine these questions.

These claims were first presented by the British Government against the Republic of Hawaii, which, recognizing the justice of one of these claims—that of a person who had been subjected to improper treatment as a witness, paid it, but refused all of the rest. Negotiations for their reference to arbitration were broken off by the annexation of the Hawaiian Islands to the United States.

There are several other claims by citizens of other powers whose attitude in relation thereto is similar to that of the British Government.

I recommend that legislation be enacted by the Legislature providing for a commission of three persons who shall have authority to hear and determine all political claims of citizens of foreign powers arising under the status of martial law in the year 1895; and who shall accept as evidence the affidavits already filed in such cases; the decisions of a majority of such commission to be final and obligatory on the parties.

I further recommend that appropriations for the pay and expenses of such commission be placed in the proper appropriation bills.

Pursuant to the Fire Claims Act of the last regular session of the Legislature, \$140,000.00 received from the Federal Government for interest advanced on bonds payable by the Federal Government with additional funds from the Treasury to bring the payments up to 10 per cent. has been paid to those holding awards from the Fire Claims Commission. Under the law recently enacted by Congress appropriating one million dollars toward the payment of such awards and authorizing the Territorial Government to borrow enough money to pay the balance, it is probable that this obligation will be settled without further delay.

I invite your attention to the Torrens system of registration of instruments, a law to substitute such system for that at present in use, having been prepared for submission to you. With the prospect of the early establishment of county government and the creation of registration offices in each county the time is most opportune for the introduction of this improved and well-tested system of registration.

I recommend legislation for the following objects:

Giving local option in questions relating to the sale of liquors, to county districts and city precincts, and qualifying women as voters on such questions, who are citizens of the Territory of Hawaii.

Providing limited liquor licenses for bona fide hotels at lower rates than are required for saloon licenses; such licenses to confer the right to sell liquors to guests only, and without the right of conducting a saloon or bar.

Amendment to the law against lotteries, whereby the prosecution may not be required to prove that a paper produced as a lottery ticket depends as such upon the event of any lottery.

Amendment to the law against gambling, whereby gambling shall be punished by both fine and imprisonment.

Amendment to the law against vagrancy, whereby the limit of punishment shall be increased to one year.

Restricting the sale and use of opium, and repealing the existing laws relating to opium.

Carrying out the recommendations of the report of the Chief Justice in relation to the reduction of penalties in order to bring certain offences under the jurisdiction of District Magistrates.

The inspection, disinfecting and destruction of plants, vegetables, fruits and seeds brought to the Territory.

Protection of forest and other birds.

Election of Delegate to Congress.

Provisions for the appointment of Commissioners of Deeds for Hawaii, in other parts of the world.

Providing a salary for the President of the Board of Health and requiring him to give his whole time to the duties of the office.

Requiring building permits within certain limits in Honolulu and Hilo to be passed upon by an officer of the Board of Health as to the sanitary condition of the ground on which it is proposed to erect the building, and as to the sanitary character of the building plans.

Provision for the selection of grand and petit juries.

Provisions for appeals from the District Magistrates at Kalaupapa and Kalawao. Such appeals except upon points of law should be tried in the settlement.

Amendment of the pure food law, increasing its stringency.

Creating building fire limits in the town of Hilo, and extending the building fire limits of Honolulu.

Repealing part 4, chapter 95, relating to forest roads.

Revising the military law to bring it more in touch with Federal military legislation.

Creating a statistical bureau under the Secretary of the Territory.

Provision for the protection of Hawaiian food fish.

To authorize the Governor to execute a land patent to J. Mokuaikai, for two homestead lots, the law providing for but one except as to wet land.

I would call your attention to the provision for the reapportionment of the membership of the Legislature, contained in section 55 of the Organic Act, which is as follows:

"The Legislature at its first regular session after the census enumeration shall be ascertained, and from time to time thereafter, shall reapportion the membership in the Senate and House of Representatives among the Senatorial and Representative districts on the basis of the population in each of said districts who are citizens of the Territory."

The results of the census of the year 1900, so far as they are published, are in the Governor's office and will be available for the use of the Committees of the Senate and House.

Estimates for appropriations for emergency demands and unpaid bills as well as for loan appropriations will be submitted shortly.

During the past year Mr. W. H. Wright, then Treasurer, committed a serious defalcation of a part of the Chinese fund and escaped from the Territory to the Mainland. A corresponding amount has been placed in the estimates for return to the Chinese fund.

Subsequent to this Mr. H. C. Austin was suspended from the office of Auditor for conduct inconsistent with the position, and Mr. J. H. Boyd was suspended from the office of the Superintendent of Public Works for irregularities in his accounts. Before this occurred and during Mr. Boyd's absence from the Territory, serious defalcations of public moneys in the Public Works Office were discovered, and Mr. B. H. Wright, the Chief Clerk, was put under arrest. After Mr. Boyd's suspension, he also was placed under arrest and both cases are now pending before the First Circuit Court.

Both Mr. Austin and Mr. Boyd refusing to accept my action in suspending them and having applied to the courts to be reinstated in their respective offices, I deemed it for the public interests to call the Senate together to act upon my further recommendation for their removal from office. An extended report of this Special Session of the Senate and their action approving of the recommendations of the executive in these cases has been published and will be laid before you.

Mr. J. H. Fisher was thereupon appointed to the office of Auditor, Mr. Henry E. Cooper to that of Superintendent of Public Works, and Mr. A. N. Kepoikai to that of Treasurer.

Information on any subject not herein given and within the executive province will, if desired, be supplied. I commend the reports of the departments to your consideration.

In conclusion I wish you speed and success in your responsible duties, and that the results may be for the happiness and prosperity of the people of the Territory.

SANFORD B. DOLE.

Executive Chamber, February 18th, 1903.

Honolulu, February 21, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—The Special Committee appointed at the Extra Session to examine matters pertaining to the Board of Health report as follows:

We have been unable to find any serious charges against the Board of Health based on their actions during the past biennial period.

The problem of insuring the public against epidemics and insanitary conditions, without entailing serious expense and hardship on the part of the people, is a very difficult one, and while the Board of Health may have made some errors of judgment in attempting to solve the problem we feel that they have acted to the best of their ability in the matter and are entitled to the appreciation of the public.

Your committee would recommend that the regulations in regard to plumbing and sewerage be made as much as practicable matter of law instead of remaining simply regulations of the Board under general powers granted them, and that this be done in a manner to conserve the public health at as small an expense to individuals as possible.

We recommend that in such laws no charge be made for connecting premises with the sewers but that such expense be borne by the County or City and that there be no yearly rates for use of sewer.

Respectfully submitted,

C. H. DICKEY, Chairman.

C. L. Garvin, M.D.
E. C. Waterhouse, M.D.

BOARD OF DENTAL EXAMINERS.

W. E. Taylor, M.D.

Senator C. Brown for the Printing Committee reported Senate Bills Nos. 9 and 11 printed and ready for distribution.

Senator J. T. Brown introduced a resolution with reference to placing the schools under County Supervisors as follows:

RESOLUTION.

Whereas education is the most certain road to the highest civilization and betterment of a community, and

Whereas to insure this the youth of the community should be under the best training, and

Whereas the Board of Education as it now exists cannot from its central position exercise the necessary supervision and control of the schools of distant and separated districts;

Therefore, be it resolved by the Republican Precinct Club of the 7th Precinct, 2nd District, believing that we act for the best interests of the people, and after due and careful consideration, that we request that the County Bill as it now exists in the draft before us be so amended or changed that all schools and matters pertaining to Education shall be under the control of the several Counties, feeling assured that only in this manner can the best results be attained. The parents are by far the best judges of when and where to erect school buildings, the competency of instructors and character of instruction, and all other matters relating to the education of their children, and this control should not be taken from them. Only in this way can complete supervision and attention to the numerous questions of importance constantly arising, be assured. No good, in our opinion, can be obtained from the periodical visits of members of the Board as now constituted. These visits are expensive and the money could be much better expended in other ways.

We believe that members of the School Board should be chosen by the voters of the community, and should be com-

posed of residents and be an institution of the County alone; the parents of the children being the best judges of their welfare.

Be it further Resolved, That a copy of these resolutions be forwarded to the several members of the Legislature from this Island of Hawaii, requesting their attention and assistance, and one copy to the Secretary of the Republican Territorial Executive Committee at Honolulu, it being the sense of the members of the Republican Precinct Club of the 7th Precinct, 2nd District, that County Government should be so in fact as well as in name.

And be it further Resolved by this Club that the District Magistrates should be selected by the voters of the County at the regular elections, the same as other elected officers; and that the County in all matters where it is alone concerned shall have the chance to decide by vote who shall fill these very important offices. No one person can be so good a judge of the qualifications of a citizen as his fellow residents of the County.

ELEVENTH DAY.

Monday, March 2nd, 1903.

The Senate met, pursuant to adjournment, at 10 o'clock.

After prayer by the Chaplain, the roll was called showing Senator McCandless absent.

The Journal of the Tenth Day was read and, upon motion of Senator J. T. Brown, seconded by Senator Woods, approved as read.

A communication from the Attorney General asking for an increased appropriation was read by the Secretary as follows:

Honolulu, H. I., February 28th, 1903.

HON. CLARENCE L. CRABBE, President,
and Members of the Senate of
the Territory of Hawaii.

Gentlemen:—The Appropriation of \$30,000 for Civil and Criminal Incidentals appropriated for the period ending June 30, 1903, will not, in all probability, be sufficient to meet all expenses under this head for the balance of this period.

This Appropriation instead of being increased to meet the demands of a growing Territory and to insure adequate police protection therefor was by the last Legislature reduced from \$40,000 which was the amount for the preceding period, to \$30,000, which amount, in view of the large demands made upon it for civil and criminal expenses throughout the Territory, has proved insufficient, although the utmost economy has been observed and police work greatly hampered by lack of money.

An amount of \$1,200, in addition to the balance of this Appropriation now remaining, is needed to meet the expenses under this head for the remaining five months of the period; and I would, therefore, ask that such an amount be inserted in the emergency estimates for appropriations already submitted by the Governor of this Territory.

I beg to remain,

Very respectfully,

LORRIN ANDREWS,
Attorney General, Territory of Hawaii.

Senator C. Brown for the Judiciary Committee reported on Senate Bill No. 5 as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee to whom was referred Senate Bill No. 5, being to repeal an Act relating to the appointing of Bailiffs for certain courts in the Territory, beg leave to report that they have had the same under consideration.

The bill sought to be repealed was introduced in and passed by the Territorial Legislature of 1901, and caused considerable comment after its passage, and when its provisions were understood and enforced. The Act was not a necessity, nor does it in any manner facilitate, in the opinion of this Committee, the practice of drawing juries. It places too much power, it is submitted, in the hands of the Judges, not that this power has ever been exerted or made use of.

The Chief Justice of the Supreme Court in his report to the Legislature has commented upon the law relating to the drawing of juries, and has suggested certain legislation on that subject, and your Committee are informed that an Act on that subject is being prepared for the present Legislature to pass upon.

We recommend the passage of the Act.

Dated, Honolulu, March 4th, 1903.

Respectfully submitted,

CECIL BROWN.

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee to whom was referred Senate Bill No. 14, being an Act to amend Section 1 of Act 66 of the Session Laws of 1896, relating to public or Government holidays, beg leave to report that the bill makes changes in the days to be observed as such. Under existing law, there are seven days observed—the 1st and 17th days of January, June 11th, July 4th, the 3rd Saturday in September, commonly called "Regatta Day"; November 28th, and December 25th. The bill under consideration makes two changes, eliminating January 17th and November 28th, and inserting in their place February the 22nd, Washington's Birthday, and May 30th, known as "Decoration Day."

The Committee thinks the changes suggested are good, and therefore recommends the passage of the Act.

AUTHORIZATION OF LOANS.

Honolulu, T. H., March 4, 1903.

HON. C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 29, entitled "An Act to provide for Public Loans," begs leave to report that we have had the same under careful consideration.

This bill is a general Act authorizing Loans, and provides the general terms and conditions under which they may be issued under the Organic Act. The bill provides for Loans to the amount of Five Million Dollars (\$5,000,000.00) that may be passed by this Legislature and succeeding Legislatures. Section 3 reads: "All bonds issued under authority of this Act shall bear interest, payable semi-annually, at the rate of not more than five per cent. per annum, and be made redeemable in five years and payable in fifteen years from the date of issue thereof."

The above terms are in accordance with the provisions of the Organic Act, and cannot be changed.

The object of the bill is to raise the Property Tax from one per cent. (1%) as at present, to two per cent. (2%).

All taxation matters for the Territory and County are fully provided for in the County Bill that has been introduced. We would therefore recommend that this bill be laid on the table. Senator C. Brown for the Judiciary Committee reported on Senate Bill No. 40 as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 40, report that the object of the bill is to amend Section 132 of the Penal Laws relating to larceny, and the only change proposed is in the punishment of larceny in the second degree, making the same one year instead of two, and leaving the money penalty the same. The reason for this change as in many other bills introduced and pending in the Senate for action, is our changed conditions, and that infamous crimes or felonies must be found by indictment against persons charged with them by a grand jury, and also to reduce the penalties so that minor cases can be heard and tried before District Magistrates. The last Session of the Territorial Legislature limited the criminal jurisdiction of District Magistrates to cases punishable by fine or imprisonment with or without fine for not over one year, and as there are a number of offences which were formerly within the jurisdiction of District Magistrates and that still should be within such jurisdiction they cannot be unless the penalties are reduced. If not reduced, the cost and inconvenience of having the cases heard by the Grand Jury must still continue.

As Senate Bills Nos. 41 and 42 are in the same line and have the same object in view, this Committee recommends to the Senate that all three bills named pass, and that all further bills having the same object in view pass when they come up on their second reading without referring same to this Committee.

The Committee further state that the bills of this nature and having similar amendments, are all recommended by the Chief Justice in his very able report to the Legislature, and were drafted under the supervision of a committee of the Bar Association of this Territory.

Honolulu, March 4th, 1903.

Respectfully submitted,

Honolulu, T. H., March 6, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Standing Committee on "Public Lands, Internal Improvements, Agriculture, etc.," to which was referred Senate Bill No. 30, being "An Act to authorize and regulate the placing of electric wires in the streets of Honolulu," begs leave to report:

That we find that there is considerable sentiment in favor of placing not only the electric wires of corporations supplying light and power, but also the electric wires of the Territory, of telephone companies and, if practicable, trolley wires, all within the business portions of Honolulu and all cities of the Territory, underground. There are recommendations on the subject by the Electrical Inspector in the service of the Territory. In the estimates of the Superintendent of Public Works we find an item of \$150,000 to be used for the construction in Honolulu of an underground wire conduit, the same to carry such wires as enumerated above, to be under the exclusive control of the Territory and to pay to the Territory a fair revenue. This appears to be sound public policy and we therefore recommend:

That Senate Bill No. 30 be laid on the table to be considered with this item of \$150,000 proposed to be appropriated for the construction of a conduit for the placing of present overhead wires now in use in the city of Honolulu and wires to be hereafter introduced.

Sir:—The Judiciary Committee to whom was referred Senate Bill 62, beg leave to report that this Act amends the

law relating to the giving of notice by publication in legal matters pending and where publication is necessary or becomes necessary by reason of absence or out of the jurisdiction of the Court or Territory.

Under existing law in some cases publication had to be made in a newspaper designated by name; some of these newspapers had ceased to be published, and the statutory publication necessary could not be made. This Act amends the existing law so as to permit publication in any appropriate newspaper of general circulation.

The Act amends all existing laws, and recommends the insertion of the words "in a newspaper or newspapers suitable for the advertisement of notices of judicial proceedings"; we recommend adding thereto the following words, "or in such other newspapers as may be declared by the Supreme Court to be of general circulation and suitable for such purpose."

With this amendment we recommend the passage of the Bill.

Senator C. Brown for the same committee reported on Senate Bill No. 32 as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 32, authorizing the appointment of a Commission to compile the Statute Laws of the Territory, report that in their opinion this Act is as important as any that is now or may come before this Legislature at this session. The Chief Justice on pages 2, 3 and 4 of his report comments on the state of the laws, and that no compilation has been made since 1859 and 1869; the former date being the compilation of the Civil Laws, the latter that of the Penal Laws. Great changes have taken place since those years, and in the opinion of this Committee it is about time that a new compilation should be authorized and made in order that same be submitted to the next Legislature.

The report of the Chief Justice is exhaustive on this subject, and we beg to refer the Senate to that report. The Act

is explicit and prescribes the duties of the Commissioners, and that they be appointed by the Governor with the consent of the Senate. In Section 18 of the Act must be inserted an amount of money to defray all expenses of the Commission.

We recommend that the Bill pass.

Section 257, repeals Sections 2 and 3 of Chapter 42 of the Session Laws of 1888, and adds a new section to Chapter 29 covering constructive contempt, and providing that the particular circumstances of the offense of contempt shall be fully set forth in the judgment, so that everything may appear in case of appeal, review, etc., etc.

The amendment reduces the term of imprisonment that may be inflicted by the Supreme and Circuit Courts as follows:

In the Supreme Court from three months to sixty days.

In the Circuit Court not exceeding thirty days; under existing law it might be sixty days.

As amended it also limits the term of imprisonment to not later than the expiration of the time for which the Court or Judge or other person or tribunal imposing the fine could have sentenced such person to imprisonment under the provisions of the Section. This Act carries out one of the recommendations of the Chief Justice and was prepared by the Bar Association.

Sir:—The Judiciary Committee, to whom was referred Senate Bills Nos. 39, 60 and 61, beg leave to report that they have had same under consideration.

These Bills are some of those introduced to carry out the suggestions of the Chief Justice in his report to the Legislature, and are all necessary to carry out.

Under existing law the terms "felony" and "crime" are synonymous, and include all offenses punishable with death or more than two years' imprisonment and offenses where the penalty is two years' imprisonment or under a misdemeanor.

Act 39 uses the word or term "felony" and defines it to be an offense punishable with death or imprisonment for a longer period of one year, and makes every offense not a felony a misdemeanor. This amendment will relieve the Grand Jury of a lot of unnecessary work and expense as offenses where the imprisonment is less than one year can be heard before the District Magistrates.

We recommend Act 39 pass.

Act 60 pertains to the waiver of jury in criminal cases other than capital cases. Under existing law such right is conferred in criminal cases on appeal from District Magistrates. The Chief Justice says the law now on the Statute Books is of doubtful constitutionality, and recommends that the waiver of jury should be limited to cases other than felony, and not be confined to cases appealed from the District Court. The Act introduced carries out the recommendation, and repeals the law thought to be unconstitutional.

We recommend Act 60 pass.

Act 61 pertains to criminal jurisdiction of District Magistrates, and was introduced in consequence of the recommendations of the Chief Justice and Bar Association of this Territory. The object of the Bill cannot be better explained than by referring this Honorable Body to page 22 of the Report of the Chief Justice of the Supreme Court to this Legislature.

We recommend that the Act pass with this amendment: that that portion thereof that amends Section 463 of the Penal Laws be stricken out of the Bill. The reason of this recommendation being that this Committee introduced a substitute Bill to that introduced by Senator Kalaokalani repealing this

section, which substitute Bill has been passed or is now before the Senate for consideration.

With this amendment we recommend the Bill pass.

Honolulu, March 6th, 1903.

Respectfully submitted,

The Journal of the Fifteenth Day was read and, upon motion of Senator J. T. Brown, seconded by Senator Nakapaahu, approved as read.

Senator Dickey for the Committee on Miscellaneous Petitions to whom was referred Senate Bill No. 57 reported as follows:

Honolulu, March 7th, 1903.

HON. CLARENCE CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions and Joint Resolutions, to which was referred Bill No. 57, entitled "An Act to repeal certain laws relating to the desertion of married persons from one another," begs leave to report:

The bill is a good one, as its purpose is to repeal laws which are a blot on the statute books of an advanced and civilized community. The laws as they now stand give District Magistrates equity powers unheard of in the jurisprudence of the civilized world and are considered by many to be of doubtful constitutionality.

Your committee recommends that the bill pass with the following amendments:

Erase the number "XXXIV" in line 1, Section 1, and insert the number "XXXVI" and to strike out the words "Chapter LXIX of the Laws of 1888" in line 2 of same section.

The latter Chapter is already repealed by the session laws of 1890.

Respectfully submitted,

C. H. DICKEY, Chairman.
D. PAUL R. ISENBERG,
S. E. KAIUE.

Senator McCandless for the Committee on Public Lands, Internal Improvements, Agriculture, etc., to whom was referred Senate Bill No. 49, reported as follows:

Honolulu, T. H., March 7, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Standing Committee on "Public Lands, Internal Improvements, Agriculture, etc.," to whom was referred Senate Bill No. 49, the same being "An Act dedicating and granting to the County of East Hawaii, the use of certain lands in the District of Hilo, Island of Hawaii, for park and other public purposes," begs leave to report upon the bill en-

dorsing in general the setting aside of lands for parks and recreation places, but to recommend that as the County of East Hawaii has not yet been created and that on that account said Act is perhaps premature under this date, consideration of the said Act be postponed until after disposition of proposed legislation to create counties and city municipalities and that said Senate Bill No. 49 be laid upon the table to be considered with county and municipal bills to come before this body later.

Very respectfully,

L. L. McCANDLESS,
J. D. PARIS.
J. B. KAOHI,
Committee.

Senator Dickey moved that the report be laid on the table to be considered with the County Bill. Seconded by Senator C. Brown and carried.

Senator Dickey for the Committee on Miscellaneous Petitions to whom was referred the resolution introduced by Senator Achi relating to the Occidental Hotel's application for a liquor license reported as follows:

Honolulu, March 7, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions and Joint Resolutions, to which was referred a resolution providing for inquiry into the reasons why a license to sell intoxicating liquors had not been granted to the Occidental Hotel have had the same under consideration, and beg leave to report:

Licenses are issued at the discretion of the Treasurer according to the present law and there is no appeal from his decision. The Occidental Hotel has applied for a license several times, as we learn from the proprietor, but your committee have found but one regular application having been made during the past two years. This was on July 1st, 1901. A license was refused by the Treasurer by the advice of the Governor and the heads of departments on the ground that the Occidental Hotel was outside of the limits established by the Treasurer within which liquor licenses should be issued.

We find that liquor licenses have been issued to hotels outside of the said limits, but in all cases to those having their bars at a point not readily accessible from the street and therefore patronized principally by guests of the hotel.

Licenses have been refused to small hotels abutting directly upon the street on the ground that such saloons would be patronized by the general public and the risk of disturbance of the peace and quiet of the neighborhood thereby increased.

Your committee recommends that the resolution be laid on the table to be taken up later if a bill granting hotels a license to sell intoxicating liquors shall be introduced.

Respectfully submitted,

C. H. DICKEY,
D. PAUL R. ISENBERG,
S. E. KAIUE.

Senator McCandless offered the following resolution asking that appropriations be inserted in the Appropriation or Loan Bills for the Districts of Ewa and Waianae:

SENATE RESOLUTION.

Honolulu, T. H., March 7, 1903.

Be it Resolved, by the Senate of the Second Legislative Assembly of the Territory of Hawaii:

That provision be made in the Current Appropriation and Loan Act Appropriation Bills for necessary public improvements in the Districts of Ewa and Waianae as recommended in the attached report of the Road Board for the Districts of Ewa and Waianae.

Respectfully,
L. L. McCANDLESS.

Your Road Board recommend that these bridges be replaced by stone and concrete bridges. Throughout the district we have unlimited quantities of material in the way of stone which will be suitable for this work. We call your especial at-

tention to the following streams, which, for necessity's sake, require that new bridges be installed within the period of eighteen months. None of these bridges would be extensive in their construction. We ask that all of the bridges be constructed to a uniform width of eighteen or twenty feet. We refer especially to the bridges crossing Halawa Stream, Alea, Kalauao, Waimalu, Waiawa, two bridges in Honouliuli, and one in Waianae. We advocate stone bridges because of the unlimited quantity of material we have at hand in these streams and because of the permanency of the construction and also because of there being sufficient labor in the district that is desirous of work which could perform this class of work, and further because we believe a stone and concrete bridge to be a cheaper bridge than a steel bridge, all things considered. The two steel bridges erected in this district by means of special appropriations at Waipahu and Kipapa are in good condition, but they require constant attention.

We estimate the following sums of money for the several bridges as an outlay for the complete construction of the same:

| | |
|-----------------------------|--------------|
| Halawa No. 1 | \$ 960 18 |
| Halawa No. 2 | 1,086 75 |
| Alea | 2,448 00 |
| Kalauao | 1,907 70 |
| Waimalu | 1,942 00 |
| Waiawa | 3,426 20 |
| Honouliuli No. 1 | 972 25 |
| Honouliuli No. 2 | 998 10 |
| Waianae | 1,950 12 |
| <hr/> | |
| Total for bridges | \$ 15,691 30 |

In addition to this we beg further to request a special appropriation to assist in the macadamizing of the road throughout the district. We would advise you that the present work of macadamizing is necessarily slow work on account of the limited funds to the credit of the Road Board. We believe, in addition to the sum requested as an appropriation for the reconstruction of our bridges to that of stone and concrete we should have at least an appropriation of \$50,000 for macadamizing of roads.

We also need a steam roller for the macadam work and ask a special appropriation for the purchase of a seven or eight-ton steam roller.

We further ask a special appropriation of \$2,500 for macadamizing the Puuloa road from the beach to the railroad depot. Also a special appropriation of \$800.00 for a road from Alea to the Alea railroad depot, also a special appropriation of \$400.00 for the construction of a road from the

Government road to the railroad depot at Kalauao. We beg further to ask for an appropriation of \$2,000.00 for the clearing out and building up of the Makua Trail. This is not a wagon road, but owing to the want of funds the Road Board have during the past two years been unable to expend much money in its repair. Consequently through heavy winters and falling of rocks the road has been washed and at times filled with debris and considerable work is necessary to re-define and improve it even as a horse trail. The far end of same your Road Board do not recommend improving, as it is so difficult to care for on account of falling rocks, and is unnecessary to the Waianae and Waialua travelers, they having the trail through the pass at Mikilua.

Respectfully submitted,

EWA AND WAIANAE ROAD BOARD.

Your attention is called to the urgent necessity of an appropriation for the construction of a Government school house at Kalauao.

Third Reading of Senate Bill No. 44, entitled "An Act to prevent the Wanton Destruction of the Food Fishes living in the waters of the Territory."

Senator Achi moved to amend Section 4 by striking out the words "before any District Magistrate." Seconded by Senator C. Brown and carried.

Senator Kalauokalani moved to postpone consideration until next Wednesday. Seconded by Senator Woods and carried.

Under suspension of the rules, Senator C. Brown for the Judiciary Committee reported on Senate Bill No. 47 as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee to whom was referred Senate Bill No. 47, report that the object of the Bill is to take away from the Governor and place with the Senate the approval required by Section 11 of Act 50 of the Laws of 1896, and being Section 962 of the Penal Laws, to the rules and regulations made by the Board of Health, which rules and regulations after their approval and publication have the force and effect of law.

We do not think that Bill should pass, for the reason that at some time when the Senate was not in session exigencies might arise that required immediate action and the promul-

gation of new rules and regulations, these rules and regulations, if this Act should pass, would be useless and of no force and effect, not having had the approval of the Senate.

It would be too expensive and impracticable to call a special session for the purpose solely of approval.

We therefore recommend that the Bill be laid on the table.
Honolulu, March 7th, 1903.

Respectfully submitted,

CECIL BROWN,
W. C. ACHI,
PALMER P. WOODS.

Senator Dickey moved that the report of the committee be adopted. Seconded by Senator Paris and carried.

Senator C. Brown for the same committee reported on Senate Bill No. 54, as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee to whom was referred Senate Bill No. 54, being an Act relating to embezzlement amending Sections 2 and 3 of Chapter 18 of the Penal Code, they being Sections 158 and 159 of the Penal Laws, beg leave to report as follows:

The law now fixes the punishment for embezzlement from the Territory at hard labor for life or any number of years, and in effect by its wording applied only to Territorial officers, the amendment to Section 159 makes any officer or employee of any political or municipal corporation or subdivision of the Territory amenable as well, and reduces the punishment to not more than ten years' imprisonment or by fine not exceeding five times the value of the thing or property embezzled. The amendment to Section 159 reduces the term of imprisonment where the value of the property or thing embezzled is of the amount of \$20 and less than \$100 from imprisonment for not more than five years to not more than one year with a fine increased from Three Hundred to Five Hundred Dollars; and if less than twenty dollars from imprisonment for not more than one year to not more than six months, or a money penalty increased from \$50 to not exceeding \$100. We think the amendments should be made, and therefore recommend the passage of the Act.

Honolulu, March 7th, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI,

Senator C. Brown for the same committee reported as follows on Senate Bills Nos. 43 and 55:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 43, being an Act relating to malicious injuries, report that the only object of the Act is to amend the law from what it now is, so that the imprisonment shall not exceed one instead of two years. We recommend that it pass.

Senate Bill No. 55 is to amend Section 5 of Act 38 of the Laws of 1896, being Section 106 of the Penal Laws and relates to the punishment for burglary in the first and second degrees. Under existing law the punishment in the first degree is for life, or any number of years; the amendment proposed makes the punishment for not longer than twenty years. In the second degree the punishment now is for a term not more than twenty years; the amendment makes the punishment not to exceed ten years.

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 58, which is an Act to amend Sections 1398 and

1399 of the Penal Laws, and being Sections 5 and 6 of Chapter 41 of the Laws of 1870, report that the Act relates to the Industrial and Reformatory Schools and the object is to permit the Circuit Court and Circuit Judges to commit juvenile offenders to the Reformatory School. It is reported that at a recent term of the Circuit Court on this Island, that there were some 16 cases in which the offenders were under 14 years of age, and under the law as it now stands on the Statute Book, if the offenders had been convicted in the Circuit Court, they would have been sent to jail, or the sentence suspended. The law now only gives the District Magistrate the power of committal. This Act adds the Circuit Court and its Judges. We think the amendment necessary and proper, and therefore recommend the passage of the Bill.

Honolulu, March 7th, 1903.

Respectfully submitted,

CECIL BROWN,

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 66, beg leave to report that they have had the same under consideration.

This Act relates to criminal procedure and amends the law so as to apply to cases which must be tried by jury in the first instance. The amendments set forth in the Act are made necessary by reason of our changed conditions, and also provide for other necessary amendments carrying out the same object. The amendment to Sections 652 and 662 of the Penal Laws alters the procedure should the prisoner be insane or thought so to be, or is proved to be.

We recommend the passage of the Act.

Honolulu, March 7th, 1903.

Respectfully submitted,

CECIL BROWN,
W. C. ACHI,

President of the Senate.

Sir.—The Judiciary Committee, to whom was referred Senate Bill No. 53, being an Act to amend Section 1426 of the Civil Code, and Section 2009 of the Civil Laws, report:

That the Act in question proposes to amend the existing corporation law by inserting in the section named the power of corporations to hold stock in other corporations, as well as to mortgage its property to secure any debt it may owe. Our corporation law has not these provisions in it, but every Charter granted has had them as a rule inserted, and it is deemed better and to settle any question that might possibly arise on this subject, that the amendment should be made. We therefore recommend the passage of the Bill.

Honolulu, March 7th, 1903.

Senator Wilcox for the Committee on Health and Education reported as follows on the matter of an appropriation for a teacher for lace-making:

Honolulu, T. H., March 9, 1903.

HON. C. L. CRABBE,
President of the Senate.

Your Committee on Health and Education, to whom was referred a petition asking for an additional appropriation of \$1,000.00 for rent and equipment of a room to carry on instruction in lace-making, has had the petition under consideration. Your Committee finds that the Superintendent of Public Instruction in his Report concerning the Reform School for Girls has recommended the appropriation of \$3,000.00. \$2,000.00 of which is for teacher's pay, and \$1,000.00 for supplying material needed for teaching this industry. The \$1,000.00 requested in the petition is in addition to this amount asked for in the Report, and is for the rent and equipment of a room in town, in order to allow the same teacher to teach other classes in the city. Your committee finds that this request is approved of by the Superintendent of Public Instruction, and at a minimum cost will secure a great advantage to pupils residing in this city, and therefore would recommend that the amount asked for in the petition be appropriated.

Respectfully submitted,

S. W. WILCOX,
PALMER P. WOODS,
H. P. BALDWIN.

Senator Wilcox moved that the report of the committee be laid on the table to be considered with the Appropriation Bill. Seconded by Senator C. Brown and carried.

Senator Wilcox for the same committee reported as follows on the appropriation asked for a new school-house at Lawai, Kauai:

Honolulu, T. H., March 9, 1903.

HON. C. L. CRABBE,
President of the Senate.

Your Committee on Health and Education, to whom was referred a Resolution asking that the Committee on Health and Education look into the matter of a new school house and

teachers' cottage at Lawai, Island of Kauai, beg leave to report that they find that the Superintendent of Public Instruction, in his Report to the present Legislature, has recommended the appropriation of \$1,600.00 for the building of a school house and teachers' cottage at Lawai. As a school is much needed in that locality, your committee would recommend the appropriation of the above amount as asked for by the Superintendent of Public Instruction.

Respectfully submitted,

S. W. WILCOX,
PALMER P. WOODS,
H. P. BALDWIN.

Senator Kalaauokalani moved that the report of the committee be laid on the table to be considered with the Appropriation Bill. Seconded by Senator Kaohi and carried.

Senator Wilcox for the same committee reported on the appropriation asked for a new school at Aiea, Oahu, as follows:

Honolulu, T. H., March 9, 1903.

HON. C. L. CRABBE,
President of the Senate.

Your Committee on Health and Education, to whom was referred a Resolution asking that the sum of \$5,000.00 be inserted in the Loan Bill for a school house at Aiea, Ewa, Oahu, has had the same under consideration, and finds that the Superintendent of Public Instruction, in his Report to the present Legislature, has an item, \$4,000.00, for the building of a school house at Halawa, Ewa, Oahu. As the majority of the school children live at Aiea, it seems more expedient that the school house should be there. The Superintendent of Public Instruction approves of this change. Your Committee would therefore recommend that the sum of \$4,000.00, asked for by the Superintendent of Public Instruction, be appropriated for the Aiea school, instead of for the Halawa school.

Respectfully submitted,

S. W. WILCOX,
PALMER P. WOODS,
H. P. BALDWIN.

Senator C. Brown for the Judiciary Committee reported as follows on Senate Bill No. 71:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 71, report that this Act was introduced for the purpose of amending the existing law relating to the admission of attorneys to practice law in the several Courts of the Territory. The amendments should be made in order to conform to our changed conditions. As the law now is, parties applying for admission to the bar, have to do so while the Court is in term; previous to the year 1901 this might have been the cause of annoyance and delay, but at present as the term commences in October and is continuously in session, it makes but slight difference. Under the proposed amendment any Justice of the Supreme Court can admit a person. The amendment to Section 1206 of the Civil Laws places the admission of practitioners in the District Court with the Supreme Court or any Justice thereof. Under existing law the Circuit Judges have that power. It is thought best to place the admission of all attorneys and practitioners in the several Courts with the Supreme Court and its Justices.

We recommend the passage of the Bill.

Honolulu, March 9th, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator C. Brown moved that the report be laid on the table to be taken up with the bill. Seconded by Senator Paris and carried.

Senator C. Brown for the same committee reported on Senate Bill No. 72 as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 72, being an Act to amend the law relating to divorce, separation and annulment of marriage, report:

That this Act makes entire change in the procedure with the exception as to the annulment of marriage. Under existing law, cases of divorce and separation were term cases and had to be heard during the sessions of court and could not be heard at Chambers. The Act now under consideration confers jurisdiction on the Judges of the Circuit Court, and makes the cases triable at any time after service, as is the case on the equity side of the Court. The amendments recommended by Section 2 and 3 of the Act are all necessary to carry out the provisions and intentions of the Act referred to this Committee. The recommendations made by the Chief Justice in his Report to the Legislature on the subject matter of this Act are all carried out by this Act. The Committee recommends its passage.

Office of the Secretary,

SENATOR C. L. CRABBE,
President of the Senate.

Sir:—The honor falls upon me to notify you that the Governor signed the following Act on the 11th instant:

Senator C. Brown reported for the Printing Committee that Senate Bills Nos. 84, 85, 86 and 87 had been printed and were ready for distribution.

Senator Baldwin for the Committee on Ways and Means reported on Senate Bill No. 38 as follows:

Honolulu, T. H., March 11, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 38, entitled "An Act to authorize licenses for sales of wine, ale, beer, cider and spirits by retail grocers," begs leave to report as follows:

This Bill proposes to grant to grocers who do an annual business of not less than \$100,000.00 a license to sell wines, beers and spirits, etc., in quantities of not less than one bottle. The license fee is \$250.00, and is to be granted only to grocers in the towns of Honolulu and Hilo.

It seems to your Committee unfair to the retail dealers who pay \$1,000 for a license, to allow grocers to retail alcoholic

liquors under a license for which they pay only \$250, one-fourth the amount. Then again, if grocers whose annual trade amounts to \$100,000.00 are allowed a license to retail alcoholic liquors, why should not grocers whose annual trade is less than \$100,000.00 be allowed the same privilege?

Your Committee is of the opinion that there are good reasons why the retail trade in spirituous liquors should be kept separate and distinct from the grocery trade.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator C. Brown moved that the report of the committee be received and laid on the table to be considered with the bill. Seconded by Senator Paris and carried.

Senator Baldwin for the same committee reported on Senate Bill No. 79 as follows:

Honolulu, T. H., March 11, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 79, entitled "An Act to amend Section 1280 of the Civil Code amended by Chapter 24 of the Session Laws of 1882," beg leave to report that we have had said Bill under careful consideration.

The Bill proposes to amend the law fixing the pay of Jurors, so that they shall receive "travelling expenses, verified by vouchers in lieu of mileage." The present law provides that jurors shall receive five (5) cents a mile for travelling expenses. This rate is far from being sufficient to pay for actual travelling expenses in this country, but your Committee consider the provision in the Bill that Jurors receive "travelling expenses, verified by vouchers in lieu of mileage" is too indefinite.

We would therefore recommend that the words "verified by vouchers in lieu of mileage," at the end of line 5, Section 1, printed copy, be stricken out, and that the words "at the rate of ten (10) cents a mile each way," be inserted in the place thereof.

With this amendment, we recommend the passage of the Bill.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator McCandless moved that the report be received and laid on the table to be considered with the bill. Seconded by Senator Isenberg.

Senator C. Brown for the Judiciary Committee reported on Senate Bill No. 70 as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 70 relating to the garnishee of Government employees and repealing existing but inoperative law on the subject, report that they have had the Act referred under consideration and recommend its passage with the following amendment to Section 2: insert after the word "Government" on the second and fourth lines of said Section, the words "or municipal or political subdivision." The object of the amendment is, that should the County Bill go into effect and become law, the law will also cover the garnishee of County as well as Territorial beneficiaries.

Honolulu, March 11th, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 75, being an Act to provide for the redemption of property sold under foreclosure of mortgage, report:

That they have had the same under consideration, and that they favor the object for which the Act is drawn, that is, to provide a time in which real property sold under foreclosure of mortgage may be redeemed by the mortgagor. Legislation of a like nature exists in many, if not all, of the Western

States, and in many of the Eastern. The Islands have never had such a law; we think our changed conditions warrant the passing of an Act of this character.

We have prepared a new Act which we recommend the Senate to pass instead of the one referred.

Honolulu, March 11, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator C. Brown for the same committee reported on Senate Bill No. 33 as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 33, being an Act to provide for the payment by the Territory of additional salaries for the Judges of the several Circuit Courts, report that they have had the same under consideration.

The salaries of the Judges are now paid by the Federal Government, and are \$3,000 a year each. The Bill under consideration gives the Judges of the First and Fourth Circuits an increase of \$1,000.00 a year each, and to the Judges of the other circuits an increase of \$500.00 each. This matter was under consideration by the Bar Association and this legislation is recommended by that body.

We think the salaries now paid are inadequate, and recommend the passage of the Bill.

Honolulu, March 11th, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator Kalaauokalani moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator McCandless and carried.

Senator C. Brown for the same committee reported on Senate Bill No. 73 as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 73, report that this Act is one made necessary by our changed conditions, and is recommended by the Chief Justice and the Bar Association.

The amendments noted below are all to the Judiciary Act passed in 1892, and which reorganized the Judiciary Department.

The amendment to Section 1104, Civil Laws, substitutes the word "Governor" for "President."

To Section 1109, Civil Laws, adds the laws and constitution of the United States to that of this Territory.

The amendment to Section 1110, Civil Laws, removed surplusage and powers obsolete by reason of annexation.

The amendment to Section 1210, Civil Laws, is to the proviso of that Section, and the object is to obtain speedy trial and damages should the attachment be wrongfully, oppressively or maliciously obtained.

The amendment to Section 22 of this Act is Section 610 of the Penal Laws, and is in that compilation, as it relates to the commitment of parties arrested for crimes, etc., is made necessary by reason of indictments having to be found by a Grand Jury.

The amendment to Section 1128, Civil Laws, provides for the appointment of an Acting District Magistrate to take the place of one disqualified for any cause or reason, and also provides that this power shall not conflict or be implied or directly construed to repeal another law providing also for the appointment of Acting District Magistrates for certain reasons or causes.

The amendment to Section 1137, Civil Laws, as amended by Act 19 of 1901, provides that all three Judges of the First Circuit may sit and hear cases at one and the same time, and all be in session at the same time, and is necessary in order to expedite business and clear the calendar of its long list of cases pending.

The amendment to Sections 1138 and 1140, Civil Laws, relate to the time of holding the terms of the several Circuit Courts and the length or time of such terms; at present the First Circuit, which is the Island of Oahu, has four terms a year. The terms of Court continue twenty-four days, and can be continued for twelve days longer. The amendments propose to change the time of holding the terms of all Courts, and also

on the Island of Maui, leaves Lahaina out, and makes both terms of Court held at Walluku, a necessary change in the opinion of this Committee.

The amendment also makes four terms held at Hilo, the Fourth Circuit, and leaves out Honokaa. We recommend but three terms of Court for that Circuit, and suggest that the August Term be done away with and stricken out of this Act. The amendment also provides for but three terms of Court for the First Circuit, and a continuous session, say, for nine months.

The amendments to Sections 1144, 1146 and 1145, Civil Laws, make necessary changes (caused by annexation) to the jurisdiction of the Circuit Courts and the Judges in Chambers over proceedings at law or in equity, etc.

The amendments to Section 1162, Civil Laws, relate to the Justices of the Supreme Court, and strike out a portion of that Section, now unnecessary and out of place. The amendments remaining cover practice, the appointment of clerks, the hearing of cases before the Supreme Court, appeals, exceptions, and the repeal of other laws and parts of law made necessary by our present condition and the Organic Act.

We recommend the passage of this Act.

Honolulu, March 11, 1903.

Respectfully submitted,

CECIL BROWN,
W. C. ACHI.

I concur with the report, except the removal of Honokaa Court.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 69, beg leave to report that they have had the same under consideration, and as there is or might arise a

question of the constitutionality of the Act that No. 69 seeks to amend, it has been thought safer to draw a new Act to carry out the intentions of the Bill referred and to repeal in toto the Act intended to be amended. President of the Senate.

Your Committee on Health and Education, to which was referred the item in the Appropriation Bill, "Registrar General, \$900.00," report as follows:

This officer takes the duties of the one for which \$2,400.00 was appropriated during the first period as "Registrar of Deaths." One-fourth of the salary of \$2,400.00 would be \$600.00 for the six months ending December 31st, 1903. Your Committee sees no reason why the pay should be increased and recommend that the item be amended to read

Registrar General \$600 00

The petition was referred to the Committee on Public Lands, Internal Improvements, Agriculture, etc.

Senator C. Brown, arising to a question of privilege, called attention to an editorial in the Advertiser which insinuated that his action in moving to strike out the item of the Electrical Inspector was instigated by the Mutual Telephone Company. He wished to state on the floor of the Senate that the Mutual Telephone Company had nothing to do with the position he took. His motion was made for the reason that he believed that the work could be done by the Superintendent of Government Electric Lights.

Senator Baldwin for the Committee on Ways and Means, to which was referred Senate Bill No. 2, reported as follows:

Honolulu, T. H., March 16, 1903.

HON. C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 2, entitled: An Act to repeal Act 29 of the session laws of 1901 relating to income tax, beg leave to report that we have had the same under careful consideration.

This Bill proposed to repeal the law that imposes a tax on incomes of two per cent. (2%).

We are about to pass a County Bill, providing for a division of the Territory into counties. To carry on the government affairs of the country under the proposed county system of government, will call for more funds than the present Territorial system of Government requires. Hence your Committee deem it unwise to repeal, or in any way amend any of the tax laws so as to diminish the receipts from this source of revenue. We therefore recommend that the Act be indefinitely postponed.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator Achi moved that the report of the committee laid on the table to be considered with the bill. Seconded by Senator C. Brown and carried.

Senator C. Brown for the Judiciary Committee reported Senate Bill No. 22 as follows:

HONORABLE C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 22, being an Act to regulate the manner of electing Directors and Trustees of corporations, report that they have had same under consideration.

The main object of the Act is to give stockholders the right to cumulate their votes and thus a minority to obtain representation upon the Board of Directors. This, as a rule, is directly in conflict or in opposition to what has been the practice and law in such matters. The object of incorporating is as a rule to relieve individuals from personal liability, to have continuous succession or life for the purpose of carrying on business, and that the majority should rule, and being a majority control the business affairs of the corporation, and as long as such control and conduct is done with due regard to everybody's legal rights in the premises, no one can say nay. There are often differences as to management and conducting of a business of a corporation where the stock is widely distributed and held, and we think the practice heretofore had that those who control the majority of the stock should control as long as no waste, fraud or improper methods are used by such majority, should continue. The Committee believe that there are but few States in the Union that have provisions of this kind on their Statutes. We think that in certain cases this

provision might be hurtful to the best interests of corporations no matter for what purpose incorporated; take, for instance, a corporation that has five Directors, should this Act pass, it would be possible for the minority where the holdings of stock were very close, to have two directors out of the five, and should at any time one of the three that represents the majority on the Board, be absent, the two representing the minority could block and stop all business required to be carried on, should there be a difference on that question among the majority and minority stockholders.

We believe that no change is necessary in our existing law on the matter, and that it is better for the interests of all stockholders in corporations that the law remain as it is.

We therefore recommend that the Bill be indefinitely postponed.

Honolulu, March 16, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator C. Brown moved that the bill be laid on the table to be considered when House Bill No. 34 is taken up. Seconded by Senator Dickey and carried.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 87 as follows:

Honolulu, T. H., March 16, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions and Joint Resolutions, to which Senate Bill No. 87, an Act to regulate the manner of giving notices of Boards of Registration, was referred, has had the same under consideration, and report:

Many complaints have been made in all parts of the Islands that Boards of Registration have not given the people sufficient notice to insure their being able to appear for registration. The present law only compels them to give due notice of meetings and some boards have construed this to allow a notice of a few hours sent ahead by a policeman to be sufficient. The bill under consideration compels the publication of all notices for three weeks in Hawaiian and English in newspapers of general circulation in the District which will give ample notice to all.

Your Committee recommends that the Bill pass.

C. H. DICKEY,
Chairman.
S. E. KAIUE.
D. PAUL R. ISENBERG,

Senator Paris moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator McCandless and carried.

Senator Dickey presented a petition from public teachers of Hawaii against any change in the school system.

The petition was referred to the Committee on County Bill.

Senator Woods presented a resolution asking the Governor of the Territory of Hawaii for certain information relating to claims against the Republic of Hawaii for ill-treatment in 1895 as follows:

RESOLUTION.

Whereas, the Governor, in his first Message to the Legislature, has asked for an appropriation to pay the expenses of a Commission to inquire into, and decide upon the validity and magnitude of certain claims heretofore lodged against the late Republic of Hawaii, by certain persons of foreign citizenship, for alleged ill-treatment by the Government of said Republic, during the year 1895, in connection with a riot which occurred in or near Honolulu on January 6-7, of said year; and,

Whereas, it has long been understood that the Governments of said claimants respectively have ever since been, and are now pressing said claims for settlement, before the Government of the said late Republic, and the Government of the United States, in succession thereto; and,

Whereas, it is the sense of the Senate of this Territory that such claims should be promptly adjusted, and if found to rest in justice and equity, that they should be paid, without further unnecessary delay;

Now, Therefore, It Is Hereby Resolved, by the Senate of the Territory of Hawaii, That the Governor be, and he is hereby requested to furnish the Senate, as promptly as may be, with all the information at his command, upon the following points, viz:—

1. Was it, or was it not, either tacitly or expressly agreed or understood between the Government of the late Republic and that of the United States, at or about the time of the annexation of these Islands by the United States, that the United States would undertake to, or would adjust said claims with the Governments who were pressing for settlement of the same, and would pay or otherwise settle the same with such said foreign governments?

2. If the Government of the United States did not so agree, or give it to be understood by the Government of the said late Republic, what was the understanding, if any, reached between said two Governments concerning said claims, and the manner of their proposed adjustment and payment?

3. Had the Governor in mind, at the time of sending his said Message to this Legislature, the kind of character of a Commission to which he proposes or desires that the adjustment of said claims be referred to? And, if so, is it proposed or desired by the Governor, that such Commission shall be appointed by said Governor, or by the President of the United States, or by some other person or official? And, if by some other person or official, then by what other person or official?

4. Has the Governor any definite views or intentions as to the nationality or the personnel of which such Commission should be composed? And, if the appointment thereof should be left to said Governor, by this Legislature, what general principle would said Governor follow, in the selection and appointment of such Commission, and of how many persons does the Governor think the same should be composed?

5. Does not the Governor believe that the better and more equitable method of such adjustment of said Claims would be to refer the same either to The Hague Tribunal, or to the arbitration of some foreign Sovereign or Jurist,—and if he does not so believe, what reasons has the Governor for a contrary opinion?

6. What special advantage does the Governor claim, in favor of a submission of said Claims upon the evidence contained in the affidavits already submitted, pro and con? And can the Governor assure this Legislature that such submission would be agreeable to said foreign Governments, so pressing said Claims?

7. Is it not true that the several sums mentioned by the Governor, in a later communication to the Senate, as being the several amounts for which said Claimants or their respective Governments made claims in the premises, were merely tentatively put forth by said Governments, or by the representative of the British Government, as sums for which said British Government would be willing to adjust said Claims, if the same should be then immediately paid, and the principle involved in said Claims should be frankly and promptly acknowledged by the Government of said Republic? And that said figures in no sense represented, or now represent, the sum for which said Claims of foreign claimants (other than citizens of the United States) could or can now be settled?

AND THE GOVERNOR IS HEREBY FURTHER REQUESTED to attach to his reply to this Resolution a copy and copies of all correspondence with the Government of the United States, as touching the character or nationality or personnel of such proposed Commission, the willingness or otherwise of the Government of the United States to settle and pay

said Claims, and any other feature which will serve to enlighten or advise the Senate in its action upon said recommendation of the Governor.

Very respectfully,

SOLOMON MEHEULA,

HOUSE CONCURRENT RESOLUTION NO. 3.

Introduced by Mr. Pulaa.

Whereas, by the annexation of the Republic of Hawaii to the United States as a Territory, we entered into a new era; therefore

Be it Resolved, by the House of Representatives, the Senate concurring, That it is the sense of the Legislature of the Territory of Hawaii that it would be for the benefit of all that the Governor may pardon all those who were convicted, and discharged from jails, of criminal cases, giving them the benefit of voting hereafter.

Senator Wilcox for the Committee on Health and Education reported on various petitions relating to changes in the school system of this Territory as follows:

Honolulu, March 17, 1903.

HON. C. L. CRABBE,
President of the Senate.

Sir:—Your Committee upon Health and Education, to which has been referred thirteen petitions concerning a proposed change in the present system of Public School Administration, begs leave to report as follows:

Of the thirteen petitions, one, containing twenty-nine names, is in favor of a change, the remaining twelve, containing three

hundred and forty-six names, desire no change in the present public school system. There is also a resolution from the Maui Teachers' Association expressing confidence in the present method of conducting educational affairs within the Territory and recommending that the school system be continued as at present.

Your committee has very carefully considered this matter, which it deems one of the most important in the Territory. It has held several meetings and has consulted with a number of people. Your committee finds that the present public school system is not an experiment but has been evolved gradually as the result of the experience of two generations, and has been built up to suit local conditions by some of the most intelligent, well-trained and public-spirited men on these Islands.

Visitors from the Mainland, who have given special attention to school matters, speak in the highest terms of the school system and the results obtained. They consider that it is the present centralized system which enables the country schools to be carried on in the efficient manner in which they have been. The present system has attracted a considerable body of skilled instructors from the Mainland, and most of these speak in the highest terms of the present system, as giving them an assurance of employment and a freedom from the corrupting influences of political control, which, unfortunately, have produced such evil results elsewhere.

The quality of the instruction imparted can be shown not only by the success of many of our sons and daughters in the large institutions on the Mainland and in Europe, but can also be gauged by the success of our educational exhibits at various International and other expositions. At the last Paris Exposition only three first prizes for educational exhibits were awarded to the American States and Territories. These were to Massachusetts, New York and Hawaii.

Among the petitions which have come into the hands of your committee some cogent arguments are set forth, from which it may not be amiss to quote. It is pointed out that the majority of the people of various races are unfamiliar with education matters, and by a large proportion the aims, the methods, the conduct and the needs of education are not appreciated. It should likewise be taken into consideration that apart from the native Hawaiian, large numbers of the population are either actively hostile or totally indifferent to education. The localizing of the schools would inevitably bring them under these influences and into the political fields. Here, as elsewhere, political reasons and influences would govern the appointment and dismissal of teachers, fixing the length of terms, etc., and the amount of salaries. The policy of education would vary with the policy of the county and no clear-cut policy and uniformity of administration could be carried out for long.

At the present time the schools in every part of the Islands are kept open for a full uniform school year and the teachers earn a full year's pay. They can count upon employment for a full year, dependent of course upon ability and good behavior. That such is not the case upon the Mainland is well known. A recent educational journal commenting upon this matter quotes a county in Indiana where the term lasts but 82 days, and another where the term is but 122 days, instead of 200 days, as here in Hawaii. In the first county the average salary for the term is \$114. In this Territory the lowest salary paid to uncertificated teachers is \$300 and certificated teachers who have passed through the Normal School commence with a salary of \$50 a month, paid regularly throughout the year. This salary gradually increases.

Another point which it is well to dwell on is that the salaries of teachers are paid without regard to sex. In many parts of the mainland there is a different rate for male teachers and for female teachers. Here female teachers occupying responsible positions receive exactly the same salary as men do who perform similar work. Again teachers of equal standard receive the same salary whether they are in Honolulu, on Kauai, or in Kau. Of the teachers who completed their course in the Normal School last year, your committee finds that one went to Kau, one to Lahaina, three to Kauai, two to Koolauloa, and one to Koolaupoko, and each started with the same initial salary. Of these teachers two were Hawaiians, three were part Hawaiians, two were German, and one Japanese. Your committee gathered a considerable amount of information upon this point but the above will suffice.

The counties have not yet been organized and they will have much to do in the way of organization. The present system of education is well organized and has proved very satisfactory. To disorganize the educational system at the present time would be to throw back the education of the Territory for twenty-five or thirty years. Your committee would therefore strongly recommend that the present school system of the Territory be kept as it is, and that it should not be put under county control.

In conclusion your committee would quote the following "Contrast the Hawaiian system with that prevailing in many locally-managed districts in the States, where, through mistaken ideas of economy, teachers' positions are practically auctioned off to the lowest bidder. This course has banished teachers of ability from thousands of American schools and has put incapable and inexperienced persons in their places. This danger we court when we localize our schools, and avoid if we leave them as they are.

As a part of the United States, the conditions of life in Hawaii will undoubtedly grow increasingly strenuous. The day

of sentiment in business—the time when Hawaiians are given positions solely because they are Hawaiians,—is rapidly passing away. The time is approaching when the Hawaiian must compete for employment on equal terms with other nationalities. Since the public schools afford almost the only preparation for business life, to diminish their efficiency at this critical period would inflict untold and irreparable injury upon the rising generations, who will be dependent upon their own unaided exertions for a livelihood.

In addition to the above quotation it may be said that the Territory of Hawaii has a sound educational policy. This policy has produced schools which can be measured by results. It has fitted Hawaiians, and those of other nationalities to fill positions of trust, honor and emolument. Some of the Senators and Representatives in this Legislature have attained their present positions in life owing to the Hawaiian School System. If it has done well in the past it certainly should do well in the future and your honorable body, in the estimation of your committee, should hesitate in pulling down an admirable and tried system, which has grand results to point to, in order to commence an experiment, when everything else will be experimental. It would be wisdom to be sure of all other systems before we begin to do away with a school system which has done us the best of service in the past, and looks as if it will give us the best of service and success in the future.

Senator Crabbe moved that the report of the committee be laid on the table to be considered with the County Bill. Seconded by Senator C. Brown and carried.

Senator Wilcox for the same committee reported on the petition praying for the establishment of Kindergarten instruction as follows:

Honolulu, T. H., March 17, 1903.

HON. C. L. CRABBE,
President of the Senate.

Your Committee on Health and Education, to whom was referred a Petition for establishing Kindergarten instruction in connection with the Normal School, and asking that the Legislature appropriate sufficient funds therefor, have had the same under consideration. We find that the Governor in his Message recommends the establishment of the same; in this way a teaching force will be acquired which may in the future make the introduction of such instruction into the schools a

practical scheme. The Sup't. of Public Instruction, in his Report to the present Legislature, estimated the cost of same as follows: For the first year, \$1,900.00; for the second year, \$1,400.00; a total of \$3,300.00.

Your committee recommends the appropriation of the above amount.

Respectfully submitted,

PALMER P. WOODS.

Senator Kalaauokalani moved that the report of the committee be laid on the table to be considered with the Appropriation Bill. Seconded by Senator J. T. Brown and carried.

Senator Wilcox for the same committee reported on Senate Bill No. 37 as follows:

Honolulu, T. H., March 17, 1903.

HON. C. L. CRABBE,
President of the Senate.

Your Committee on Health and Education, to whom was referred Senate Bill No. 37, entitled an Act to amend Section 868 of the Penal Laws relating to the Board of Health, has had the same under consideration and find that it is the same as Section 868, except for the insertion of the word "advice" in Section 1, line 6. Your committee would recommend the following amendment: In Section 1, line 8, after the word "pay," insert "Except the President, who shall receive an adequate salary, and shall control and be responsible for the conduct of the Department of Health."

The Acts of the President to be subject to the approval of a majority vote of the Board.

The other members of the Board shall be an advisory body, to be called in conference at the request of the President. Such meeting shall be called not less than twice a month.

With this amendment your committee recommend that the Bill pass.

Respectfully submitted,

S. W. WILCOX,
H. P. BALDWIN,
PALMER P. WOODS.

Senator Kalaauokalani moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator Paris and carried.

Senator Paris for the special committee, to which was referred several items under the head of Board of Health salaries and expenses, reported for a majority of the committee as follows:

Honolulu, T. H., March 17, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—The majority of your Special Committee to which was referred the following items proposed for the Board of Health appropriation:

| | |
|--|-------------|
| Maintenance of Hospitals..... | \$ 6,000.00 |
| Government Physicians | 40,560.00 |
| Superintendent and Assistants, Insane Asylum | 32,000.00 |

has carefully considered these estimates made by His Excellency the Governor to cover the coming biennial period and begs leave to report upon the same.

The \$6,000, Maintenance of Hospitals, is to be expended as follows: A dispenser of medicines at the Government dispensary at Honolulu at a salary of \$75 per month, a nurse at the dispensary to assist the physician in operations and the dressing of sores and wounds at a salary of \$60 per month, also a janitor at \$10 per month. The balance is contemplated to be used at the Kalihi quarantine hospital. There are times when female patients are taken there, and female nurses are required; also times when the sanitary inspectors are not available for this duty. The committee finds that this item is a proper and necessary one and recommends that it be placed in the act without change.

The Board of Health asked for \$45,560 for pay roll of Government Physicians. His Excellency the Governor reduced the amount to \$40,560 and the majority of your special committee recommend this latter figure as the proper and necessary amount.

We do not believe that it is just or is in the interest of public policy or public health to tamper with the system of Government physicians as it now exists. The salaries allowed these professional men are small and amongst their duties may be enumerated the following: Attending and prescribing for indigent poor in large territories and at all hours. Acting as general sanitary and statistical agents of the Board of Health, furnishing complete monthly reports on births, deaths, marriages, etc. Vaccinating throughout their districts free of charge. Inspection of schools, with responsibility for the general health of all pupils and teachers. Inspecting lodging

houses within their districts. Performing post mortems for which there would otherwise be heavy charges. We believe that as a rule these government physicians, considering their valuable services are really underpaid and we feel that crippling this service in any manner would be serious neglect of a large element of our population and an invitation to such disaster as would be consequent on permitting any contagious or infectious disease securing a foothold and headway through absence of expert supervision and inspection in the interests of the general health. The financial proposal is for a lump sum of \$40,560 to be apportioned equitably by the Board of Health and we endorse this and recommend that it be provided.

The Board of Health asked for \$36,000 for "Superintendent and Assistants, Insane Asylum," being at the rate of \$1,500 per month for twenty-four months. Your committee submits an amended schedule, making two changes in the items of figures and in the total per month as follows:

| | |
|--|------------|
| Medical Superintendent, incumbent to maintain horse and buggy, if same is used by him, at his own expense..... | \$ 185.00 |
| Two Captains, \$75 per month each..... | 150.00 |
| One foreman | 70.00 |
| Twelve Guards at \$50 per month each..... | 600.00 |
| Four female nurses at \$50 per month each... | 200.00 |
| Taro Man | 35.00 |
| Cook | 25.00 |
| Assistant Cook | 20.00 |
| Laundryman | 15.00 |
| Gardener | 15.00 |
| Yardman | 25.00 |
| Extra Help | 50.00 |
| | <hr/> |
| | \$1,390.00 |

This makes a total for the period of \$33,360.00, which your committee recommends as proper and reasonable amount, being considerably less than asked for by the Board of Health and but a slight increase over the reduction to \$32,000 made in the message of His Excellency the Governor.

All of which is respectfully submitted.

J. D. PARIS,
PALMER P. WOODS,
S. W. WILCOX.

Senator Kalauokalani moved that the report be laid on the table to be considered with the minority report. Seconded by Senator Achi and carried.

Senator McCandless for the special committee, to which was referred several items under the head of Board of Health salaries and expenses, reported for the minority of the committee as follows:

Honolulu, T. H., March 17, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—The minority of your special committee to which was referred three items for the Board of Health appropriation, begs leave to report concurrence with the majority on the two items "Maintenance of Hospitals" and "Pay Roll Superintendent and Assistants, Insane Asylum," excepting to divide the totals by four, thus providing at this time for the six months ending Dec. 31, 1903.

We cannot agree with the majority on the item (third): "Pay of Government Physicians," \$10,140.

The plan of paying doctors to care for the "indigent poor" was adopted some thirty years ago for the benefit, as then set out, of the poorer Hawaiians. The Hawaiians as a whole have never cared for this help or assistance thus provided. They prefer to minister to themselves and seldom send for a Government physician until at the point of death and then it is too late. Your committee believes that if the matter were left to the Hawaiians today they would decide to abolish the system.

The "indigent poor" in the Hawaiian Islands are few and far between and the doctors cannot tell who are poor enough to be charged and who are not. Their rule seems to be to charge everyone they think will pay, no matter how small their pay may be.

Your committee believes that the Board of Health should have a fund with which to defray, in the several districts, such necessary expenses as vaccination, sanitary measures, registration, etc. The minority of your Special Committee therefore recommends that the item "Government Physicians, \$10,140" be stricken out and that there be inserted in lieu thereof the item: "Board of Health Agents, all districts, for the six months ending Dec. 31, 1903, \$5,000."

Respectfully submitted,

C. H. DICKEY,
L. L. M'CANDLESS.

Senator C. Brown moved that both reports be laid on the table to be considered with the bill. Seconded by Senator Kalauokalani and carried.

Senator C. Brown for the special committee on County Bill reported on Senate Bill No. 1 as follows:

HON. CLARENCE L. CRABBE.

President of the Senate.

Sir:—The Special Committee to whom was referred Senate Bill No. 1, being an Act entitled "An Act concerning Counties, and the organization and government thereof, and the management and control of public works and institutions," report that they have had same under consideration.

There is no need for this Committee to enter into a discussion upon the question, or advisability of the object of the Act, as it was the prominent plank in the platform of the Republican Party, and was also a part of the platform of the other political party of the Territory. The Bill as drawn and submitted to the Senate is the work of the Republican County and Municipal Commission appointed by the Chairman of the Republican Convention held in August of last year at Honolulu. The Act speaks for itself and shows that great labor and thought were bestowed upon the subject.

The Committee have made few, if any, amendments, and then only such as it deemed necessary to carry out fully the plan or foundation laid and suggested by the Act; there have however been considerable changes made in matters of form for the purpose only however of avoiding superfluous words and repetitions. The amendments we recommend will be taken up seriatim, commencing with the title and following through to the end in regular line.

We recommend that the title be changed to read as follows:

"An Act providing for the Organization and Government of Counties." This would compare favorably with that portion or Section of the Organic Act which authorizes the Legislature of the Territory to do what it is now attempting to do in this line.

At the end of Sub-division "a" of Section 1, we offer the following amendment: "Inter-Island and also outside Territorial waters within the jurisdiction of Territorial Courts, including the Federal Court, shall be deemed to be a part of the several Counties to which such Inter-Island or outside waters are adjacent. The Courts of the Counties between which are Inter-Island Territorial waters shall have concurrent jurisdiction over the same. Bird Island and Laysan Island and the Territorial waters around the same respectively, shall be part of the County of Oahu within the First Judicial Circuit of the Territory and first taxation division thereof."

The reason being that the Act omits Bird Island and Laysan Island from being a part of any County (this we understand was intentional) the committee, however, have deemed it wise that

those islands should be made a part of the County of Oahu. The Act also omitted Inter-Island and outside Territorial waters outside of the old rule, limit of three nautical miles, the amendment offered it is submitted covers both questions.

At the end of Sub-division "b" of Section 1, we offer the following amendment: "Provided, however, that all that portion of the Island of Molokai known as Kalaupapa, Kalawao and Waikolu, and commonly known or designated as the Leper Settlement, shall not be nor form a part or portion of the County of Maui, but shall be and is hereby constituted a County in itself, and shall be a body corporate and politic, and as such shall have only the powers especially conferred and given by this Section, and shall be known as the County of Kalawao. Except as provided in this Section, none of the provisions of this Act or of any other Act relating to Counties, shall be deemed to refer or apply to or shall be applicable to the said County of Kalawao.

The said County shall be under the direct jurisdiction and control of the Board of Health, and be governed by the rules, regulations and laws now in force relating to said Board of Health and the care and segregation of lepers, except as herein limited. There shall be no County officers in said County other than the District Magistrate and Sheriff who shall be residents of and elected in said County at the first general election to be held under the provisions of this Act and thereafter as provided by law, and who shall each hold office for two years.

The salaries of the District Magistrate and Sheriff shall be fixed and paid by the Board of Health out of the appropriation allowed by the Legislature for the care and segregation of the lepers.

The Sheriff of the County of Kalawao shall preserve the public peace, arrest and take before the Magistrate for examination all persons who attempt to commit or who have committed a public offence, and shall prosecute same to the best of his ability;

Shall have the power to appoint and dismiss and re-appoint at his discretion not more than five policemen for the County, who, for the services rendered as policemen shall receive such pay as the Board of Health shall determine, and which pay shall be taken out of and from the appropriation made by the Legislature for the care and segregation of the lepers;

Shall prevent and suppress affrays, breaches of the peace, riots and insurrections;

Demand the aid of as many male inhabitants of his County as he may think necessary in the execution of his duties;

Take charge of and keep the County jail and the prisoners therein;

Serve all processes and notices prescribed by law, and be ex-officio County Coroner.

The District Magistrate of the County of Kalawao shall have power to hear and determine cases within the limits of the County, and have the same jurisdiction to hear and determine cases as District Magistrates have under the laws of the Territory;

He shall collect the same fees as are collected by other District Magistrates under the laws of the Territory, and shall pay the same over to the Board of Health as a County realization.

In the event of the death, resignation or other disqualification of either the District Magistrate or the Sheriff during his term of office, the Board of Health shall appoint the successor of the one so dying, resigning or disqualifying, and such appointment shall hold good until the next general election and the election of his successor, as the case may be."

The object being to place that portion of Molokai known generally as the Leper Settlement alone, so that its inmates should have no voice nor control in the affairs of the County of Maui, but to a certain extent should have County powers that the inmates of the settlement can avail themselves of only however as specially limited by the proposed amendment.

We recommend the striking out of Section 4 and offer in its place the following amendment:

"Section 4. Each of the several Counties shall be a body corporate and politic, and have the powers specified in this Act and such other powers as are necessarily implied."

The reason being that in Section 1 after each sub-division defining the Counties, we recommend and have stricken out that part thereof defining the corporate and politic powers of each County, thinking it would come more in line under the Chapter declaring the general powers of the Counties.

We recommend striking out sub-division 10 of Section 22; this sub-division gives the Board of Supervisors of each County the power to issue bonds and incur a bonded indebtedness; we think that power should remain for the present with the Legislature.

We recommend inserting in sub-division 16 of section 22 at the commencement of that sub-division after the words "Health Officer," the following "approved by the Territorial Board of Health," and in the same sub-division after the words "Board of Supervisors" on the next line, the same words "approved by the Territorial Board of Health," and by inserting in the next sub-division of the same Section after the words "shall adopt all" the words "made or recommended by the Territorial Board of Health."

The reason being that the Organic Act, Section 97, explicitly and specially places the health laws of the Territory in the jurisdiction of the Government of the Territory, subject, however, to the quarantine laws and regulations of the United States,

and as the Territorial Board of Health works with and subject to the Federal Board of Health, it is thought that in making the amendments above recommended, it may tend to prevent any conflict of authority between the Territorial and County Officers of the Board of Health.

We recommend striking out Section 44, it being unnecessary as the County has by Section 5 the power of holding real and personal property, no matter from whom or how obtained.

We recommend inserting in Section 46 after the word "exercised" the words "and a resident therein for three years immediately preceding such election," the object being to make all County officers eligible for election only after three years residence in the County or District in which the duties of the office they seek to be elected to are to be performed.

We recommend in Section 47 which names the County Officers, some changes; we suggest that the Sheriff be ex-officio the Coroner; that the County Clerk be ex-officio the County Recorder; that the Assessor and Tax Collector be one Officer, and that the Treasurer be also the License Collector; this makes fewer officers, less salaries, and we think the duties can be easily performed by one person holding each office.

These recommendations or suggestions have necessitated amendments in several of the Sections designating the duties of the respective officers, and we have amended those sections accordingly.

We recommend inserting at the end of Chapter 17 which defines the duties of the District Attorney, a new Section as follows, to be numbered 122:

We recommend inserting at the end of Chapter 17 which defines the duties of the District Attorney, a new Section as follows, to be numbered 122:

"Section 122. The District Attorneys of the several Counties shall be deputies of the Attorney General and removable by him for cause shown to the satisfaction of the Justices of the Supreme Court, who are hereby given jurisdiction to hear any cause presented to them by the Attorney General, after notice, on hearing from the District Attorney complained of, to determine whether in their judgment sufficient cause is shown for such removal."

Section 11 of the Organic Act requires all prosecutions to be carried on in the name and by the authority of the Territory; it also provides (Section 71) for an Attorney General to be appointed by the Governor, who shall have the powers and duties that the Attorney General formerly had under the laws of Hawaii, except where such laws had been changed by that Act or modified by the Legislature of the Territory. Under this Chapter, the District Attorney is given authority to conduct all prosecutions on behalf of the people, as well as to defend suits against the Territory, but does not make him

the representative or deputy of the Attorney General. There may be some question, whether, under the provisions of the Organic Act the Legislature can so modify the powers and duties of the Attorney General as to permit him to attend to no public prosecutions or offences, and whether the Counties can themselves either in their own name or in the name of the Territory and by its authority conduct any prosecution for public offences, and to save any complications on this question, we suggest the amendment.

We recommend inserting in Chapter 18, defining the duties of County Recorders, a new Section to be numbered 154.

"Section 154. The County Recorder shall, on application, accept and file in the archives of his office, on the payment of a fee of one dollar, any plan of land, but such plan must contain the name of the owner of the land and his address, the maker's name and address, date of survey, scale, the North point, areas, and the names of adjoining owners. All such plans must be on tracing cloth."

This is to provide for the filing of large maps or plats of land, and to save the expense of reducing such Maps or plans to a scale small enough to be copied in the books used in the Recorder's Office.

Sub-division 2 of Section 186 relating to the mode of raising revenue, we recommend that the Territorial rate of taxation be limited to five mills on the dollar, or one-half of one per cent., and that until the Legislature fixes the rate of taxation for the several Counties, the Board of Supervisors shall not levy nor shall there be collected for the use of the Counties more than five mills on the dollar; in other words, we divide the present rate of taxation.

We recommend striking out Sections 225 and 227 as unnecessary; they state the law as it now is.

We recommend striking out Section 261 as unnecessary; we see no need of providing for the form of a deed from the Tax Collector on a sale for non-payment of taxes.

We recommend striking out of Section 278 all that part commencing after the words "the same County" to the end of the Section, as being unnecessary.

We recommend striking out of Section 281 all after the words "procure it," as being unnecessary.

We recommend striking out Section 287 as it states what is law, and is therefore unnecessary.

We recommend amending Section 296 so that it will read as follows:

"Section 296. The Tax Collector is authorized to issue licenses to sell Awa for each County in the Territory. Each license shall be for the term of one year. The annual fee for a license to sell Awa shall be as follows:

For the County of Oahu: One Thousand Dollars;
For the County of Maui: Five Hundred Dollars;
For the County of East Hawaii: Five Hundred Dollars;
For the County of West Hawaii: Two Hundred and Fifty Dollars;

For the County of Kauai: One Hundred and Fifty Dollars.

By reason of the foregoing amendment, we recommend striking out Sections 297, 298, 299, 300 and 301. Heretofore the licenses for Sale of Awa had to be sold at Public Auction.

We recommend placing the Auctioneer's Licenses as follows (Section 304):

County of Oahu: Six Hundred Dollars;
County of Maui: One Hundred Dollars;
County of East Hawaii: One Hundred Dollars;
County of West Hawaii: Fifty Dollars;
County of Kauai: Fifty Dollars.

Section 306, prescribing the amount of the bond to be given by an auctioneer, we recommend be amended as follows:

"Section 306. Every person upon receiving an auction license for the County of Oahu, shall give a bond with good and sufficient sureties to be approved by the County Treasurer, to the Territory, in the penal sum of Three Thousand Dollars, and for each other County said bonds shall be for the sum of Five Hundred Dollars each, and subject to like approval of sureties said bonds shall be conditioned.

We recommend striking out Section 310 as unnecessary; it states what is law.

We recommend inserting at the end of Chapter 44 a new Section to be called Section 315:

"Section 315. Any person who shall slaughter any animal for the purpose of exposing beef for sale or sell beef slaughtered by others without first procuring a license, or, who having a license shall fail or neglect to keep the record provided for, under his bond, or, who having a license and having kept a record as provided by his bond, shall fail or refuse to show such record during regular business hours to any person who may desire to examine the same, or who shall keep a faulty record, or who shall violate or fail to observe any of the requirements of law or his license, shall upon conviction be fined not less than twenty-five nor more than fifty dollars for each offence."

This amendment is suggested in order to make the law enforceable by having a penalty affixed for failure to observe and keep the conditions named.

We recommend making the license fee for carrying on a livery stable, Fifty Dollars (Section 330).

We recommend amending Section 341 relating to the license for selling goods, wares and merchandise, so that all licenses where the sales are less than \$10,000 shall be Fifty Dollars per annum; for all sales over Ten Thousand and not more

than One Hundred Thousand Dollars, at One Hundred Dollars; over \$100,000 and not more than \$500,000, at \$250; and over \$500,000, at \$500 per annum.

Following out the suggestions of the Bill introduced by Senator Kalaauokalani, and referred to this committee, we recommend inserting a new Section to be called Section 334, to read as follows:

"Section 334. The annual fee for a license to keep, conduct or carry on a tailoring or dressmaking establishment, or business, shall be Twenty Dollars; provided, however, that no license shall be necessary or required when the work or tailoring or dressmaking shall be done or performed in the private residence of another."

We recommend making the fee for a license to peddle cake, ten instead of Twenty-five Dollars, thinking the last named figure too high.

We recommend striking out Section 414, as the provisions it contains have already been provided for in Chapter 64.

The committee has had referred to it petitions for and against the Public Schools coming under the jurisdiction and supervision of the several Counties; we do not believe it would be wise to make any change in the educational system of the Territory, and recommend that no change be made.

We recommend striking out Sections 417 and 418, Chapter 68, relating to the Board of Health, they being unnecessary. The amendment relating to the County of Kalawao containing the provisions that might have been necessary to enact for the continuance of the Leper Settlement under its care and custody. We recommend that Section 422 be amended by striking out the words "fifteen per cent. of the gross amount of water rates which he may collect" and inserting in their place the words "a salary of Three Thousand Dollars a year."

Section 427. We recommend that the water rates be paid in to the Treasurer daily, instead of quarterly.

We recommend inserting in Section 523 the following sum of money: Seven Hundred and Twenty-five Thousand Dollars (\$725,000) to be divided amongst the several Counties as follows:

Oahu: Five Hundred and Twenty Thousand Dollars;

West Hawaii: Forty-five Thousand Dollars;

East Hawaii: Fifty-five Thousand Dollars;

Maui: Sixty Thousand Dollars;

Kauai: Forty-five Thousand Dollars;

thinking it will be sufficient for the purposes contemplated and provided for by that Section.

At the end of Section 524 we recommend an amendment providing that in the event of any provision of this Act being held invalid, the Act or part of an Act which such provision was intended to take the place of, should thereupon be of full

force and effect, as if the same had not been repealed. To cover this we recommend inserting the following : "Provided, however, that if any provision of this Act shall be held to be invalid, the Act or part of an Act of which such provision is intended to take the place, shall thereafter be of full force and effect to all intents and purposes, as if the same were not herein repealed."

This amendment will in our opinion prevent chaos, or an interregnum, should the Courts hold any part of this Act unconstitutional, or decide that the Legislature has in any way exceeded the power conferred on it by the Organic Act. The committee submits herewith a copy of the Act with all changes made, and the amendments recommended by them, and in that form we recommend the passage of the Act, trusting that it is a step taken in our political history that will never be regretted or disapproved of.

Honolulu, H. T. Mar. 17th, 1903.

To the Honorable President
and Members of the Senate,
Territory of Hawaii.

I have the honor to herewith transmit House Concurrent Resolution No. 4, duly adopted by the House of Representatives on March 16th, 1903.

Respectfully submitted,

S. MSHEULA,
Clerk.

HOUSE CONCURRENT RESOLUTION NO. 4.

Whereas, it appears that the rates of freight transportation charged by the several Inter-Island vessels are outrageous, and tends to discourage the settlement of the Territory by farmers and homesteaders, and whereas it is fitting that the Representatives of the people should give small farming encouragement; therefore

Be It Resolved by the House of Representatives of the Territory of Hawaii, the Senate Concurring, that a commission constituted of three members be appointed by the Governor to examine into the matter of freight transportation from the different Island ports, to draft legislation covering the same, and to report to the next session of the Legislature.

Senator C. Brown moved that the resolution be referred to the Committee on Public Lands, Internal Improvements, Agriculture, etc. Seconded by Senator Dickey and carried.

At 3:40 o'clock Senator J. T. Brown moved to adjourn. Seconded by Senator Woods and carried.

Clerk of the Senate.

Approved by the Senate:

President of the Senate.

TWENTY-FIFTH DAY.

Wednesday, March 18th, 1903.

The Senate met, pursuant to adjournment, at 10 o'clock
After prayer by the Chaplain, the roll was called showing
Senators Achi, Isenberg, and Nakapaahu (reported sick) absent.

The Journal of the Twenty-Fourth Day was read and approved.

Senator Baldwin for the Committee on Ways and Means reported on Senate Bill No. 20 as follows:

Honolulu, T. H., March 18, 1903.

HONORABLE C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 20, entitled "An Act—To repeal the Stamp Duties on Certificates of Stocks of Corporations," begs leave to report as follows:

This bill repeals the law which imposes a stamp duty of twenty cents (20c) a share on stocks of corporations.

This Stamp duty is not excessive, but it has had the effect we understand of diminishing the sales of Hawaiian Stocks in San Francisco and elsewhere. It is very desirable that our stocks should be bought and sold and be favorably known in the money markets of the Mainland. The loss to the Government by the repeal of the Stamp Duty on certificates of stock, will not be great, and such action might encourage the sale of stocks abroad.

We therefore recommend the passage of the Bill.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator Achi moved that the report of the committee be adopted. Seconded by Senator C. Brown and carried.

Senator Achi moved that the bill be read third time tomorrow. Seconded by Senator Woods and carried.

Senator Baldwin for the same committee reported on Senate Bill No. 31 as follows:

Honolulu, T. H., March 18, 1903.

HONORABLE C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Bill No. 31, entitled "An Act—To fix the compensation of Pilots for the different ports of the Territory of Hawaii," beg leave to report as follows:

The Bill proposes that the compensation for Pilots shall be the pilotage fees, and to reduce the pilotage rates so that the charge shall be for vessels under 500 tons register, at the rate of \$1.50 per foot, and for vessels over 500 tons register, at the rate of \$2.00 per foot.

There are four (4) Pilots at the port of Honolulu, who each receive a salary of \$200 a month, instead of the pilotage fees. The receipts for pilotage for port of Honolulu, for the year ending June 30, 1902 were...\$ 33,176.09

The salaries of Pilots, pay-roll, pilot boat and two pilot watchmen for the same year were..... 15,732.00

Profit to the Government, one year.....\$ 17,444.09

This is a source of income to the Government that it is poor policy to give up, now that we propose a County system of Government that will require more funds than the present territorial system of Government.

Your committee do not recommend a reduction in the charges for pilotage, or that the Pilots receive the pilotage fees. We do recommend, however, that the Pilots receive \$300 per month instead of \$200 as at present, and that salaries at the above rate be put in the Appropriation Bill.

We recommend that the Bill be laid on the Table.

Respectfully submitted,

H. P. BALDWIN,

J. D. PARIS,

S. E. KAIUE.

Senator Dickey moved that the report of the committee be adopted. Seconded by Senator Woods and carried.

Senator McCandless for the Committee on Public Lands, Internal Improvements, Agriculture, etc., reported on Senate Bills Nos. 23 and 74 as follows:

Honolulu, T. H., March 17, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Committee on "Public Lands, Internal Improvements, Agriculture, etc.," to which was referred Senate Bills Nos. 23 and 74, begs leave to report the same back without recommendation as to passage or rejection and to suggest that the same be considered by the Committee of the whole Senate.

The members of this Committee do not wish to shirk nor do they seek to avoid or evade any responsibility which may be placed upon them as representatives of the people in this Senate, but we find in consideration of these Acts a problem which we believe can best be solved as suggested above.

Senate Bills Nos. 23 and 74 are Acts granting what are commonly known as "Gas Franchises" for the City of Honolulu. The applicants are W. W. Dimond and Associates and A. L. C. Atkinson and Associates. The terms of the proposed franchises are very similar. The Committee has given each of these parties a hearing and has received a number of communications on the subjects under consideration, the communications accompanying this report.

Considering the private interests here involved and the fact of the higher interest of the community, this committee does not believe that with its small membership, being but one-fifth of that of the whole Senate, it should throw what influence a partizan report might have, against one of the proposed enterprises and in favor of the other. We have learned incidentally that there has been made in some manner the proposal that the two petitioners unite in such a manner as to have but one application for a franchise in the field, but so far this idea has not matured. We do not believe that the public interests would be best served by the granting of both franchises. This report is closed with a brief of each Act as introduced in the Senate:

Franchise to A. L. C. Atkinson and Associates and assigns—
Senate Bill No. 74, introduced by Senator W. C.ACHI:

Term of Fifty years.

To be in operation in three years.

To pay to the Territory 2½% of gross income.

May assign franchise.

Directors of Company shall be residents of Territory.

Special provision that Franchise is not exclusive.

Charge not to exceed \$3 per 1,000 cubic feet.

To supply to the Territory gas for 50 lamps free of charge and for each year of term of franchise to add to the supply gas for five more lamps.

Franchise to W. W. Dimond, his Associates, successors and assigns—Senate Bill No. 23. Introduced by Senator C. H. Dickey:

Term of 35 years.

To be in operation in two years.

To pay to the Territory 2½ per cent. of the gross receipts.

May assign franchise.

Charge for gas not to exceed \$3 per 1,000 cubic feet.

All of which is respectfully submitted,

L. L. McCANDLESS,

J. D. PARIS,

J. B. KAOHI.

Senator Achi moved that the report of the committee be laid on the table to be considered with the bills. Seconded by Senator McCandless and carried.

Senator Wilcox for the Committee on Health and Education, to whom was referred the petition of residents of Olaa praying for an appropriation for a new school house, reported as follows:

Honolulu, T. H., March 18, 1903.

HON. C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Health and Education, to whom was referred a Petition from 35 residents of Olaa, Island of Hawaii, asking for a new school house, has had the same under consideration, and finds that the request is a reasonable one, and said school is very much needed in that locality.

Your Committee would therefore recommend the appropriation of \$4,200.00 for a school house and teachers' cottage at Olaa.

Respectfully submitted,

S. W. WILCOX,

PALMER P. WOODS,

H. P. BALDWIN.

Senator Kalaauokalani moved that the report of the committee be laid on the table to be considered with the Appropriation Bill. Seconded by Senator Dickey and carried.

Senator Wilcox for the same committee reported on Senate Bill No. 48 as follows:

Honolulu, T. H., March 18, 1903.

HON. C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Health and Education, to whom was referred Senate Bill No. 48, entitled "An Act to Repeal Sections 915 to 926 inclusive, Part 5 of Chapter 590 of the Penal Laws, relating to Vaccination," has had the same under consideration. Your Committee finds that by this Act all laws in regard to Vaccination are repealed.

Scientific and Medical men agree as to the efficiency of Vaccination as a means of preventing the spread of small-pox, and your Committee cannot for a moment entertain the proposition of repealing all laws in regard to vaccination. Your Committee would, however, recommend the repeal of certain sections, and beg to offer a substitute bill.

Respectfully submitted,

S. W. WILCOX,

PALMER P. WOODS,

H. P. BALDWIN.

Senator Achi moved that the report of the committee be adopted. Seconded by Senator C. Brown and carried.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 80 as follows:

Honolulu, T. H., March 10, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions and Joint Resolutions to which was referred the Local Option Law, Senate Bill No. 80, begs leave to report that it has had the same under consideration.

It appears to your committee that local option is the fairest way for all parties to settle the liquor question, and the bill under consideration being substantially a replica of the Ohio Local Option Law provides for full control of the matter by precincts, thus giving the will of the local majority full sway.

Your committee recommends that the Bill pass with the following amendments:

1. Strike out in line 3 of Section 5 the words "or is charged upon the duplicate."

2. Add to Section 3, at the end thereof, the words "nor shall anything in this Act affect the right of bona fide hotels having accommodations for not less than thirty guests to furnish liquor to registered guests, provided no bar is kept in said hotel. Such hotel shall be required to take out a special license at a fee of Five Hundred Dollars per annum."

C. H. DICKEY, Chairman.

D. PAUL R. ISENBERG,

I do not concur.

S. E. KAIUE.

Senator Dickey moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator C. Brown and carried.

Senator Dickey for the same committee reported on Senate Bill No. 45 as follows:

Honolulu, T. H., March , 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—The Committee on Miscellaneous Petitions and Joint Resolutions to which was referred Senate Bill No. 45, entitled "An Act to authorize E. C. Winston, his associates and assigns, to construct, maintain and operate a railroad in certain districts on the Island of Oahu, Territory of Hawaii," hereby present their report:

Your Committee found serious opposition expressed to putting any more railroad tracks on King Street through Palama and also as to the point selected for a terminus in Honolulu.

Your Committee is convinced that the proposed railroad will be a great benefit to the people of Kalihi, Koolaupoko and Koolauloa and will open up large tracts suitable for suburban residences, and recommends the passage of the Act with the following amendments:

1. Amend the enacting clause to conform with the Organic Act by striking out all after the word "Hawaii."

2. Insert in Section 1, Line 5, after the word "time" the words "to time."
3. Strike out the words "the District of" in Section 1, Line 6 and the word "or."
4. Strike out in Sec. 1, Line 7, the words "near either King Street or the extension of" and "West of Nuuanu Stream."
5. Insert in Sec. 1, Line 7, before the word "Queen" the words "the intersection of River and."
6. Strike out in Sec. 1, Line 8, the words "King Street or."
7. Add to Section 1 the words "Also from the intersection of River and Queen Streets, thence along River Street and Vineyard Street and the proposed extension of Vineyard Street to Kalihi Valley. Also from a point on main route of said railroad in Koolaupoko through the Districts of Koolaupoko and Koolauloa to Makapu Point."
8. Strike out in Sec. 2, Line 2, the words "either by overhead or" and insert instead the word "by."
9. Strike out in Sec. 3, Line 3, the words "Five Hundred" and insert "Two Hundred and Fifty."
10. Insert in Sec. 3, Line 3, after the word "hour" the words "within two miles of the terminus in Honolulu."
11. Strike out in Sec. 4, Line 2, the words "Superintendent of Public Works" and insert instead the words "Governor or Board of Supervisors."
12. Strike out in Sec. 5 the words "Superintendent of Public Works" and insert instead the words "Governor or Board of Supervisors."
13. Strike out in Sec. 6, Line 2, the word "ten" and insert the word "three."
14. Strike out all of Section 13 and insert in its place: "Section 14. The said E. C. Winston, his associates and assigns, shall pay into the Treasury $2\frac{1}{2}\%$ per annum of the Gross receipts of said railway payable in installments on the first day of January and the first day of July of each year."

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee to whom was referred Senate Bills Nos. 95 and 96, report that they have had the same under consideration.

Bill No. 95 was introduced for the purpose of correcting errors, removal of ambiguity and to have it conform to other laws. Under the law as now on the statute books, any Justice of the Supreme Court or a Circuit Judge has jurisdiction on the application of a married woman whose husband has absented himself from the Territory, or has abandoned her and has not made provision for her support, may apply for and obtain certain powers. As the Supreme Court now is only an appellate court, the amendment places the powers authorized to be granted with the Circuit Judge.

Bill No. 96 changes the word "Republic" to "Territory" only.

We recommend the passage of both Acts.

Senator Baldwin for the Committee on Ways and Means reported on Senate Bill No. 89 as follows:

Honolulu, T. H., March 19, 1903.

HONORABLE C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Bill No. 89, entitled: "An Act to regulate and define the pay of witnesses," begs leave to report that we have had the same under consideration.

Witnesses now receive \$1.00 a day for each day's attendance in the Circuit and Supreme Courts, and 25c a day in the Police Courts in Civil cases, but do not receive travelling expenses.

The Bill provides that they shall receive \$1.00 a day for each day's attendance in all Courts of the Territory and travelling expenses as verified by vouchers.

Your Committee favors the provision that witnesses receive \$1.00 a day for attendance at all Courts, and also that they receive travelling expenses, but considers the provision in the Bill "travelling expenses as verified by vouchers" too indefinite and that it might lead to abuses. We recommend that these words be stricken out and that the words "travelling expenses at the rate of ten cents (10c) a mile each way," be inserted in the place thereof.

With this amendment, we recommend the passage of the Bill

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator Achi moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator McCandless and carried.

Senator C. Brown for the special committee on County Bill presented the following supplementary report on Senate Bill No. 1:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Special Committee to whom was referred Senate Bill No. 1, hereby submit an additional report thereon.

This Committee recommends that the pay of Supervisors be fixed at Fifty Dollars per month, and therefore recommend that Section 13 be amended by adding at the end thereof, "who shall receive as pay for the services rendered by them the sum of Fifty Dollars per month, to be paid out of the County funds."

We recommend that Section 42 be amended by inserting after the words "rendered by them" the following: "when such per diem, mileage or other service rendered by them are authorized by law to be charged."

We recommend also an amendment to Section 55 to be inserted at the end thereof to read as follows:

"The salaries of the several County officers shall be as follows:

| | | |
|---|----------------|---|
| Sheriff of the County of Oahu | \$3,000 a year | |
| “ “ “ “ “ Maui | 2,000 | “ |
| “ “ “ “ “ East Hawaii | 2,000 | “ |
| “ “ “ “ “ West Hawaii | 1,500 | “ |
| “ “ “ “ “ Kauai | 2,000 | “ |
| County Clerk & Recorder, County of Oahu..... | \$2,400 | “ |

| Auditor of County of Oahu | 3,000 | “ |
| “ “ “ “ “ Maui | 2,400 | “ |
| “ “ “ “ “ East Hawaii | 2,400 | “ |
| “ “ “ “ “ West Hawaii | 1,500 | “ |
| “ “ “ “ “ Kauai | 2,000 | “ |
| Assessor & Tax Collector, County of Oahu..... | 3,000 | “ |
| “ “ “ “ “ Maui | 2,000 | “ |
| “ “ “ “ “ East Hawaii.. . . . | 2,000 | “ |
| “ “ “ “ “ West Hawaii.. . . . | 1,500 | “ |
| “ “ “ “ “ Kauai | 1,800 | “ |
| District Attorney of County of Oahu..... | 3,000 | “ |
| “ “ “ “ “ Maui | 1,800 | “ |
| “ “ “ “ “ East Hawaii | 1,800 | “ |
| “ “ “ “ “ West Hawaii | 1,200 | “ |
| “ “ “ “ “ Kauai | 1,200 | “ |
| Treasurer of County of Oahu..... | 2,400 | “ |
| “ “ “ “ “ Maui | 1,800 | “ |
| “ “ “ “ “ East Hawaii | 1,800 | “ |
| “ “ “ “ “ West Hawaii | 1,200 | “ |
| “ “ “ “ “ Kauai | 1,500 | “ |
| Surveyor of the County of Oahu..... | 600 | “ |
| “ “ “ “ “ Maui | 400 | “ |
| “ “ “ “ “ East Hawaii | 400 | “ |
| “ “ “ “ “ West Hawaii | 200 | “ |
| “ “ “ “ “ Kauai | 300 | “ |

The salary of each County Officer shall be paid monthly, and no increase or decrease of salary shall take place during the incumbency of any officer.”

We recommend that Section 163 be amended by adding after the words “following fees, viz:” the following:

“which shall be paid into the County Treasurer as a County realization.”

This amendment directs all fees received by the Recorder for the recording of documents, etc., to be paid into the County Treasury as a County realization.

We recommend that the 2nd sub-division of Section 170 be stricken out for this reason: the amendment proposed to Section 55 fixes the salary of the Surveyors of each County; the

sub-division recommended to be stricken out gives the Board of Supervisors the power to pay the Surveyors for services at a rate not to exceed ten dollars per day.

The Auditor has furnished this Committee with an estimate of what the yearly income and expenses of the several Counties may be; it is based as near as can be upon the receipts and salaries of the year last past. According to that estimate, the receipts of the County of Oahu will be in the neighborhood of \$800,000, and the expenses over \$500,000.

We have allowed \$520,000.

The County of Maui will receive in the neighborhood of \$147,000, and the estimated expenses for salaries, say, \$60,000.

The County of East Hawaii will receive \$169,000, and the estimated expenses are \$55,000.

The County of West Hawaii will receive about \$68,000, and the estimated expenses are \$45,000.

The County of Kauai will receive about \$136,000, and the estimated expenses are \$35,000.

In the above estimates are not included the amounts that will be necessary for roads, bridges and repairs to internal improvements.

The Committee, from the estimate it has had submitted to it, think that the residue, after the payment of salaries, will be sufficient to keep in repair the roads and bridges of each County, but for permanent internal improvements the funds will have to be obtained through loans to be obtained for that purpose.

Honolulu, March 19th, 1903.

Respectfully submitted,

CECIL BROWN,
H. P. BALDWIN,
J. D. PARIS,
L. L. McCANDLESS.

At 10:40 o'clock the following message from the Governor, relating to the custody and disposition of the funds of Chinese laborers was received and read by the clerk:

A MESSAGE

TO THE

LEGISLATURE OF THE TERRITORY OF HAWAII.

The Act of Congress providing a Government for the Territory of Hawaii, repealed Part 6 of Chapter 93 of the Penal Laws and Act 68 of the Session Laws of 1898, relating to the restriction of Chinese Immigration.

The repealed laws made provision among other things for the payment of certain amounts to the Board of Immigration out of the wages of each Chinese laborer admitted under the authority of such laws, such moneys to be deposited by the Board of Immigration in the Postal Savings Bank and to be used in paying the passage of such laborer out of the country upon his ceasing to work as an agricultural laborer or as a laborer in sugar or rice mills.

Under the provisions of the Organic Act, the Postal Savings Bank has been closed out and the said fund paid to the Government, which has since that time administered such fund separately from the finances of the Government and has from time to time purchased tickets for the passage from the country of the persons entitled to such moneys out of the amounts due them respectively and paid them the balance.

There is not now, nor has there been since the Organic Act went into effect any law for the custody and disposition of such funds, which at the present time amount to \$155,546.70.

I recommend appropriate legislation for the custody and disposition of this fund.

Senator C. Brown for the Judiciary Committee reported on the communication from the House of Representatives transmitting House Bills Nos. 42, 43, 44, 46, 47, 48 and 49 as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee to whom was referred the communication of the House of Representatives stating that House Bills Nos. 42, 43, 44, 46, 47, 48 and 49 had passed their third reading and were sent to the Senate for their consideration, beg leave to report, that said Bills are identical in subject matter, with no amendments, to Senate Bills Nos. 40, 41 and 42, which all passed their third reading in the Senate on the 5th day of March, and sent immediately by the clerk of the Senate to the House, also with Senate Bills Nos. 52, 54 and 55, which passed their third reading in the Senate on the 9th day of March, and were immediately sent to the House, and with Senate Bill No. 56 which passed its third reading on the 10th day of March, and was sent at once to the House.

These Acts from the House of Representatives all passed their second reading on the 16th inst., and their 3rd on the 17th; so that the Acts on the same subject matter from the Senate were in the hands of the House of Representatives a week without action, and were not acted upon or given any consideration so far as we know.

The Organic Act provides for three readings of Bills in each House in order to become law, no matter where or in what body the Bill was introduced, it must be read in that body three times as well as in the other. This Committee thinks that when an Act has passed its third reading in one body, and has been sent to the other for consideration, and it happens that there are in that other body identically the same Acts covering exactly the same subject, but not acted on, or as far progressed, that the work sent and finished by the body transmitting should have the preference especially if no amendments are offered or contemplated.

Honolulu, March 20th, 1903.

Respectfully submitted,

CECIL BROWN,
W. C. ACHI,
PALMER P. WOODS.

Senator Dickey moved that the report of the committee be adopted and that the bills take their regular course. Seconded by Senator Woods and carried.

The Act necessary, was prepared by the Bar Association, and is recommended by the Chief Justice in his Report to the Legislature. We recommend its passage.

Senator C. Brown for the same committee reported on Senate Bill No. 91 as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee to whom was referred Senate Bill No. 91, report that they have had same under consideration.

The object of the Act is to repeal the laws relating to the subject of fisheries; it is said parts of the law relating to fisheries are impliedly repealed by the Organic Act. That question is now pending before the Courts of the Territory, and may possibly go to the Supreme Court of the United States. The Act submitted repeals all laws on this subject, and as the repeal might complicate matters before a decision is arrived at, we think that the Bill should not at the present time become law. We therefore recommend that it be laid on the table.

Honolulu, March 20th, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator C. Brown for the same committee reported on Senate Bill No. 103 as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee to whom was referred Senate Bill No. 103, report that the Bill declares the legal effect of the adoption of a child, especially with regard to heirship, and settles permanently that question.

The question thus settled is now uncertain, and as there are no decisions of the Supreme Court directly on the matter, we think the declaration by the Legislature should be made and therefore recommend the passage of the Bill.

Honolulu, March 20th, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator Paris for the Committee on Public Expenditures, to whom was referred the Message of the Governor relating to Unpaid Bills, reported as follows:

Honolulu, T. H., March 20, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Standing Committee on "Public Expenditures" having had under consideration the message of His Excellency the Governor upon the subject of "Unpaid Bills," begs leave at this time to make a partial report, more particularly upon the item in said message reading: "Department of Public Works, \$2,337.85, Road Board Pay Rolls."

We find that this is in no sense an "Unpaid Bill." Warrants for the several items of this amount were issued by the Department of Public Works and the warrants cashed at the Treasury Department by the Disbursing Officer of the Department of Public Works. The money was not forwarded to the persons to whom it was owing. They have not received it to this day and we have so far been unable to trace the money beyond the custody of the Disbursing Officer of the Department of Public Works.

In the opinion of your committee the only way in which these claims can be liquidated is by special act to reimburse the creditors, as the money was paid on their behalf from the Treasury to the Disbursing Officer of the Department of Public Works. We find that it was the duty of this Disbursing Officer to forward the amounts due to the various claimants who should have shared in the total sum given above and that he failed to do so. This money disappeared in the office of the Public Works Department while in the custody of the said Disbursing Officer. To the fact of the embezzlement of this sum of \$2,337.85 from the Department of Public Works and the withholding of the amounts due the proper creditors under the warrants issued, we recommend that the Attorney General investigate this matter to the end that the guilty person be prosecuted and recovery of the missing moneys be had if possible.

We append herewith report of competent expert employed by your Committee to investigate the transactions which resulted in finding most of the facts contained in this report.

Your Committee feels that this matter demands the most searching investigation. We feel that the showing of loose and unbusinesslike methods of handling public monies, the attempts to shift responsibility for the care of the same and the clear suspicion which has been attached to public officials calls for the most complete scrutiny and marked reform. We recommend legislation to systematize the operations in the conduct of business with a view to preventing further embezzlements to such as here set out.

Your Committee further finds (See report of Expert hereto attached) that there have been lavish, irregular and extraordinary juggling of "Incidental Funds," such as the purchase of spans of horses for the same and large amounts for lunches or etc. On this account we express at this time the conviction that this Senate cannot exercise too great care in the appropriation of large sums of money to be expended for "Incidentals."

Your committee would recommend that there should be a law passed that all officials handling Government Monies in any capacity bonded to sufficient amounts to cover any possible "disappearances" of public monies such as exemplified in the instance of this misnamed "Unpaid Bills" amount of \$2,337.85. Ample bond should be required from the head of each Department of the Territorial Government as well as from Disbursing Officers and other clerks handling monies.

Respectfully submitted,

J. D. PARIS,

L. L. M'CANDLESS,

Committee.

AFTERNOON SESSION.

The Senate reconvened at 2 o'clock.

The Message of the Governor received before recess was read by the clerk as follows:

A MESSAGE

to the Legislature of the Territory of Hawaii.

I transmit herewith to your honorable body, estimates for appropriations to be expended during the coming fiscal period for such moneys as may be received from such public loans as may be authorized by you.

The Organic Act limits the borrowing capacity of the Territory under legislative authorization, to not more than one per centum upon the assessed value of the taxable property of the Territory as shown by the last general assessment. By this rule the Territory may if so authorized by the Legislature borrow during the first year of the next fiscal period approximately \$1,235,390.00. What amount it may borrow during the second year will be determined by the ad valorem assessment returns for the year 1903.

The accompanying loan estimates are made upon the basis of the present status of the Territorial Government. The creation of county or municipal systems of government by the Legislature in the present session, will require a revision of the loan estimates as well as current, and also authorization by the Legislature for such county and city loans as may be required by such subordinate governments for new public buildings and other improvements.

SANFORD B. DOLE.

Executive Chamber,

March 20th, 1903.

Senator Dickey for the Committee on Miscellaneous Petitions to whom was referred a petition from Henry Smith for amount over-paid as taxes for the year 1902 reported as follows:

Honolulu, T. H., March 20, 1903.

HON. C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions and Joint Resolutions, to which was referred Petition of Henry Smith in regard to over-payment of taxes, begs leave to report that it has had the same under consideration. We have verified the statements of the petition and find them to be correct. The return was made erroneously on account of a miscalculation of area and the tax paid on the larger area. We recommend that an item of Twenty-four Dollars and 43-100 Cents (\$24.43) be inserted in the Appropriation Bill to cover same.

Respectfully submitted,

Senator C. Brown moved that the report of the committee be laid on the table to be considered with the Appropriation Bill. Seconded by Senator Paris and carried.

Senator Baldwin for the Committee on Ways and Means, to whom was referred Senate Bill No. 7, reported as follows:

Honolulu, T. H., March 21, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 7, entitled "An Act Authorizing the deposit of the Public money in a designated Depositary, to provide for the safe keeping and re-payment thereof, and to provide security therefor," begs leave to report that we have had the same under careful consideration.

This Bill provides that the Treasurer of the Territory may appoint any Banking Association, Banking Corporation, or any Co-partnership or individual that carries on the Banking business in the city of Honolulu, as a Depositary of Public Money and as Financial Agent of the Territory. But before designating the Depositary, the Treasurer shall require any Banking House desiring to be so appointed to tender for the purchase at not less than their face value, of all the Bonds of the Territory of Hawaii, amounting to \$326,000.00—authorized by Act of the United States Congress, to pay in part the so called "Fire Claims." The Bill further provides that the Treasurer shall appoint the Banking Association that shall purchase all the said Bonds, to be the Public Depositary, and shall deposit all the Public monies with said Public Depositary during the term or life of the Bonds.

The Public Depositary is required to deposit all the above Bonds with the Treasurer as security for Public monies deposited in said Depositary. The above is an outline of the provisions of the Bill.

Your Committee have considered the Bill carefully, and discussed its provisions with some of the financiers and business men of the city. We are not in favor of the Act as introduced, on the ground that it obliges the Treasurer to deposit all Public funds in one Bank until such time as the "Fire Claim" Bonds, held by the Treasurer as security, are redeemed, which is likely to be fifteen (15) years. It is true that the advantage to the Government is that under the provisions of this Act the Government sells to the Bank at not less than its face value, a four per cent. (4%) Bond, which is certainly a good price for the Bond in this market, but your Committee are of the opinion that this advantage does not warrant the passage of an Act that will compel the Treasurer to deposit all Public Funds in one Bank for a term as stated above, that will probably be fifteen years. Such a Bank might fail and cause the Government serious embarrassment; or there might be other good and sufficient reasons before the term is out.

why there should be a change in the Banking House. The Government should not have its hands tied in a matter of such importance.

Another point must be taken into consideration. This Government has asked for tenders on these Bonds in the cities of the Eastern States, and they will probably be able to place them in the East, at not less than their face value.

We herewith introduce as a substitute Bill, a general Banking Act, drawn largely from the general Act governing the depositary of Public monies on the Mainland. Under the provisions of this Bill, the Treasurer may appoint one or more Banking Houses as depositaries for Public Funds, who shall be obliged to put up Territorial or County Bonds, of the Territory of Hawaii or United States Bonds, as security.

If the Senate should decide to take up Bill No. 7, it should be amended so as to give the Government greater security.

We append herewith a Table showing cash balances in the Treasury each month, during the years 1900, 1901 and 1902, and the average for each month during the year.

Respectfully submitted,

H. P. BALDWIN,

J. D. PARIS,

Senator C. Brown for the Judiciary Committee, reported on the Governor's message relative to appropriation for moneys to be received from Public Loans, as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee to whom was referred the Message of the Governor containing estimates for appropriations to be expended during the ensuing fiscal period from moneys to be received from public loans, report:

That the total amount asked or recommended is \$2,615,570. Of this amount \$1,235,390 is available for the first year of the period, leaving a balance of \$1,380,180 to be available for the second year. This latter amount may or may not be all available as it depends upon the assessed value of the taxable property of the Territory for that year. The limit of borrowing by the Territory under the Organic Act is placed at one per cent. on the assessed value of such taxable property as shown by the last general assessment.

We submit herewith an Act based upon the estimates submitted by the Governor.

Honolulu, March 23, 1903.

Senator C. Brown for the Judiciary Committee reported on the message of the Governor in relation to the care and custody of the so-called Chinese Fund as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee to whom was referred the Message of the Governor in relation to the care and custody of the so-called Chinese Fund, beg leave to report that they believe this fund should be kept separate and apart from the funds of the Territory or of the Counties. We believe the money should be deposited somewhere upon terms and security to be agreed upon. We think that a Trustee, under bonds, of the Fund should be appointed who shall have the control and paying out of the fund for the return of those Chinese to China, whose money was deposited in the Postal Savings Bank. This money does not belong to the Territory; the Territory has control of it simply as Trustee of the Chinese for whose benefit it was originally deposited.

We submit an Act to cover that purpose.

Senator Baldwin for the Committee on Ways and Means, to whom was referred resolution relating to an appropriation for repayment to Post Masters of amounts lost by them on account of Hawaiian Stamps in their possession at the date of annexation, reported as follows:

Honolulu, T. H., March 23, 1903.

HONORABLE C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Resolution No. 14, introduced March 18th, 1903, begs leave to report. The Resolution is as follows:

"Whereas, the appropriation for repayment to Postmasters the amounts lost by them, on account of Hawaiian Stamps in their possession at the date of Annexation, made at the last session of the Legislature was insufficient.

"Resolved, That the sum of Four Hundred Dollars be inserted in the Appropriation Bill to cover amounts still due."

Your Committee find that when the Republic of Hawaii turned over the Post Office Department to the Federal Government, that some of the Post Masters had Post Office stamps on hand that they had paid the general Post Office for, and that they put in claims for the amounts they should be refunded. The last session appropriated \$1,200.00 to settle these claims, but the amount was insufficient.

Your Committee finds that there are three bona fide claims that have not been settled, as follows:

| | |
|--|----------------|
| E. W. Barnard, Postmaster Laupahoehoe..... | \$ 43 51 |
| Wm. Horner, Postmaster Kukuihaele..... | 62 37 |
| A. B. Lindsay, Postmaster Honokaa..... | 53 97 |
| Total | <hr/> \$159 85 |

Your Committee recommends that these amounts be put into the Appropriation Bill in the name of each Postmaster respectively.

The transfer of the Post Office Department occurred June 13th, 1900, nearly three years ago, so that it is not likely that there are any more claims to be presented. We therefore do not recommend any larger appropriation on this account than the above amount.

Respectfully submitted,

H. P. BALDWIN.

5. In Section 12, line 1, erase the words "who is not a citizen of the United States" and insert in place of it "or persons." No liquor license of any class shall be granted to any person or persons who have not resided at least two years in the Territory of Hawaii. The restriction in this section contained shall not be held to apply to any person, co-partnership or corporation holding a liquor license under the laws of the Territory of Hawaii on the first day of January, A. D. 1903; Provided, however, such person, co-partnership or corporation shall have been continuously engaged in the liquor business under a license from said first day of January, A. D. 1903, until the time of making application for a new license."

6. In Section 16, line 3, erase the words "Five Hundred" and insert the words "Seven Hundred and Fifty."

7. After Section 16 insert a new section. "Section 17. Before any Hotel license shall be issued under the provisions hereof, the applicant shall pay to the officer issuing the same the annual fee of Five Hundred Dollars."

13. Section 20, line 7, strike out the word "one" and insert the word "two."

17. Section 43, line 8, strike out "twenty-five" and insert "one hundred."

18. Section 43, line 4, strike out the words "and other outdoor places of public amusement or celebration" and insert the word "and" before the word "race."

Senator Achi, for the special committee, to whom was referred Senate Bill No. 84, reported as follows:

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Special Committee to whom "An Act to provide for the Incorporation and Government of Cities within the Territory of Hawaii," was referred respectfully report as follows:

The Act proposes that City Government shall be managed by a Mayor and Council, said Council to consist of members elected by the people of each City.

We found by information that the experience in the Mainland, after many years, that Cities which are controlled or run by a Mayor and Council have less stealing than those Cities which are controlled or run by Mayor, Council and Officers elected by the people; it is found that a responsible head should have power to remove rascally officers. Our plantations are run by Managers having such power and they are managed in a manner acceptable to the Stockholders.

The Committee have made few amendments; but there are many changes in matter of form.

The power of the city to issue bonds is stricken out, the same as proposed by the Committee on County Bill; we believe that it is not a good policy to borrow money from the start, because, by allowing them to borrow money from the start, it will encourage the City Officers to employ too many officers, and will be a temptation to them to spend the City's money carelessly.

Persons are made eligible to City Office only after three years' residence in the City where they seek election; we believe that a five years' residence in the Territory and three years' residence in City ought to be made qualifications before any person is made eligible, but we believe we ought to follow the way our County Committee proposed, so we shall have the same plan.

The Committee proposes that City Government may be given the right to levy tax to the amount of one-half per cent.

In regard to the area of the City, the Committee put it at 100 square miles, which area we believe is big enough for any City in the Territory.

The power to prepare the starting of the Incorporation of any City is given to the Secretary of the Territory instead of the Supervisors; we believe as the Supervisors are Officers for the County including the portion which may be taken for the City, the Supervisors may then act not in a way which ought to be done.

We add the Office of Coroner to the Office of Chief of Police.

We amend Section 18, so that the Salaries of Mayor and Councilmen are fixed as provided in this act (see section 88) instead of those Officers fixing their own Salaries.

We also amend Section 20, in order that no election shall be held except general election after the first election of the Officers of the City.

In Section 21, we amend so that no Officer shall be removed on account of his religious or political belief.

We amend Section 24, so the Mayor shall not sit as President of the Council.

Section 31. We amend it so City Attorney shall prosecute all suits and actions including Tax Cases; because the practice during several years that the Tax Offices always hire outside attorneys to prosecute those cases, which cases we believe ought to be prosecuted by the Attorney General's Department.

We amend Section 60, so that the Auditor of the Territory may have the right to examine the books of the officers of the City; which we believe it will be a safe guard to the interest of the public.

We amend Section 65, so the Treasurer shall not keep more money on hand than is actually required for the daily transaction; but the surplus shall be deposited in any Bank of the City, which shall deposit as security for the same, Fire Claim Bonds or other Bonds of the Territory; because, we believe, the money ought to be in circulation.

We amend Section 75, so that the Officers shall publish quarterly a statement of the financial condition of the City.

We amend Section 80, so that the limit for granting franchises shall be twenty-five years instead of fifteen years as provided in the Bill.

We fixed the number of electors to incorporate City Government at 500 instead of 1000 as stated in the Bill, because, outside of Honolulu, there is no place within 100 square miles which has one thousand voters, but in order to make a general Municipal Act, we ought to make the Act so as to apply to at least two places; this Act can be taken advantage of by the people of Honolulu, Hilo and Wailuku and perhaps Lahaina.

We add a Section providing the Salaries of Mayor and Councilmen, at the rate of \$3,000.00 for Mayor of Cities of over 20,000 people, and for other Cities at \$2,400.00 a year; and the councilmen of Cities of over 20,000 people at \$500.00 a year, and for other Cities at the rate of \$300.00 per year.

With the above amendments we recommend that the Bill may be passed.

March 23, 1903.

Respectfully submitted,

W. C. ACHI, Chairman.
JOHN T. BROWN.

I agree with all the recommendations of the committee except that in regard to the area of proposed cities.

I think that 100 square miles is too large as it would allow the incorporation of sparsely settled districts in the country.

for which the machinery of a city is not at all necessary. I propose that the maximum area be put at 30 square miles. Additional territory can be annexed thereafter if thought necessary.

C. H. DICKEY.

After prayer by the Chaplain, the roll was called showing Senators Baldwin, Kaohi and Nakapaahu (reported sick) absent.

A communication from the Clerk of the House of Representatives transmitting House Concurrent Resolution No. 7, relating to Sections 43 and 26 of the Organic Act, was read by the Clerk as follows:

Honolulu, H. T., March 23rd, 1903.

To the Honorable President
and Members of the Senate,
Territory of Hawaii.

I have the honor to herewith transmit House Concurrent Resolution No. 7, which was duly adopted by this House this 23rd day of March, 1903.

Very respectfully,

SOLOMON MEHEULA,
Clerk.

Senator Baldwin for the Committee on Ways and Means, reported on Senate Bill No. 65, as follows:

Honolulu, T. H., March 25, 1903.

HONORABLE C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 65, entitled "An Act Relative to Insurance Policies," begs leave to report that we have had the same under careful consideration.

We recommend that the bill be amended by striking out Section 1, and that with this amendment the bill pass. Section 1 provides that "No policy of Insurance shall be rendered invalid by reason of any statement, representation or warranty made by the insured unless the same shall be material to the risk or made with intent to defraud."

The Section is contrary to a clause in all Insurance Policies, that the Policy is made by the Insurance Company and accepted by the insured on the express condition and agreement that the statements therein contained are in all respects true.

The passage of this Section might lead to injustice to Insurance Companies, as the tendency of Juries is usually to favor the insured. Juries will undoubtedly take into consideration the question as to whether misrepresentations made in any particular case, are material to the risk or not, without there being any special law on this point.

Respectfully submitted,

H. P. BALDWIN,

J. D. PARIS,

S. E. KAIUE.

Senator C. Brown moved that the report be adopted. Seconded by Senator Dickey and carried.

Senator Baldwin for the same Committee reported on Senate Bill No. 86, as follows:

Honolulu, T. H., March 25, 1903.

HONORABLE C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Bill No. 86, entitled "An Act to amend Sections 2, 29, 51, 55, 57, 58, 70, 71, 72 and 79 of Act 51 of the Session Laws of 1896, and being also Sections 805, 832, 854, 858, 860, 861, 873, 874, 875 and 882 of the Civil Laws Relating to Internal Taxes," begs leave to report that we have had the same under careful consideration.

Under the provisions of this bill all Personal Taxes and Dog Taxes are due and payable the first day of January each year. All other taxes are due and payable, one-half on June 15th and the other half on December 15th, in each year.

Under the present law the personal taxes are payable March 31st, and all other taxes are payable in November of each year, so that the Treasury has a large amount of funds on hand after the taxes are collected, but is nearly depleted at other times.

The object of the bill is to divide the payment of taxes, so that one-half of the year's taxes will be received at the end of each six months, instead of at the end of the year as at present, and thus the Treasurer will have a more even amount of cash on hand throughout the year.

To collect taxes in this way, however, will necessitate more work and will probably cost more than the present method of collecting taxes, and will probably not be as satisfactory, either to the Assessor or the tax-payers, on account of arranging for appeals.

The County Bill makes full provision for the collection of taxes, and it is the opinion of your Committee that it is not necessary to pass this bill. The County Bill, now before the Senate, provides that the Income Tax and Personal Taxes are payable on or before the 30th day of June each year, and the Property Tax is payable on or before the 30th day of November of each year. The above method divides the payment of taxes somewhat, is better than the present law, and all things considered, meets with the approval of the Committee.

If the Senate is in favor of the method of collecting taxes as provided in the bill, we recommend that this method be incorporated in the County Bill, and that this bill be laid on the table.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator C. Brown moved that the report be adopted. Seconded by Senator McCandless and carried.

Senator C. Brown moved that Senate Bill No. 65 be read third time tomorrow. Seconded by Senator Dickey and carried.

Senator Baldwin for the same Committee reported on Senate Bill No. 85, as follows:

Honolulu, T. H., March 25, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Bill No. 85, entitled "An Act to amend Section 1 of Act 12 of the Session Laws of 1898, entitled 'An Act to Encourage the Cultivation of Coffee and Ramie,'" begs leave to report as follows:

The Act passed in 1898 exempted coffee trees, coffee mills and machinery from taxation, and this bill provides that the land actually in coffee should be exempted.

The policy of the Legislature has been to encourage industries that are struggling for existence in this country, by exempting them from taxation. Pineapples and canning machinery have been the past ten years exempt from taxation, and certainly the coffee industry needs as much encouragement as the pineapple industry.

We recommend the passage of the bill.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

paid into the Territorial Treasury as current receipts, and the Superintendent of Public Works of the Territory and Treasurer of the Territory shall at all reasonable office hours have full access to any and all of the accounts of said Company for the purpose of verifying the Company's statement of gross receipts."

Section 12, line 10, strike out the words "one week" and insert in lieu thereof the words "an unreasonable time."

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 115, as follows:

Honolulu, T. H., March 25, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Committee, to which was referred Senate Bill No. 115, have had the same under consideration and report as follows:

This Act is what is commonly known as the "Torrens Land Act," and has been adopted by many States of the United States, and is in use in the District of Columbia.

It provides an economical and convenient manner of recording land titles, which, when the plan is fully adopted by the people, will do away with the present cumbersome plan of records and largely reduce the expense of land transfers.

The law is not compulsory and no change need be made in the present mode unless the parties so desire.

The plan proposed is such that under it land can be transferred with as great facility as shares of stock are at the present time.

Your committee recommend the passage of the Act.

Respectfully submitted,

C. H. DICKEY, Chairman.

D. PAUL R. ISENBERG,

S. E. KAIUE.

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 94, report that the bill amends Section 1882 of the Civil Laws, and relates to the method in which persons may change their names. Heretofore a person desiring to change his or her name made application to the Governor; before annexation, to the President of the Republic, and during the days of the monarchy, to the King and Privy Council. The Act now under consideration directs the application be made to a Circuit Judge in the Circuit in which such party resides, and directs notice to be given in some newspaper of the application, and when granted that notice be also given, and that the decree changing the name be recorded in the office of the Registrar of Conveyances.

The Act also provides that when an adoption is legalized, that the child's name may also be changed, but without the necessity of giving the notices required in the cases of adults wishing to change their names.

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee report that they have had Senate Bill No. 128 under consideration. The object of this Act is to make the judgment of a Court of record a lien upon real property; under existing law it is not. The law as it now stands makes the judgment of a District Court a lien upon real property upon performing the conditions laid down. The Act referred repeals the existing law and settles this matter, and provides that all judgments shall be liens upon real property, under the conditions laid down by the Act in question.

We recommend its passage.

Senator C. Brown for the Printing Committee reported Senate Bills Nos. 121 and 122 printed and distributed.

Senator C. Brown for the Judiciary Committee reported on Senate Bill No. 117, as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 117, report that they have had said bill under consideration, and that the bill seeks to amend existing law on corporations to conform to the Organic Act and other laws.

The amendment to Section 2016 of the Civil Laws relates to the sale or assignment by way of collateral of stock and provides for the transfer of title, etc., and the effect of such transfer.

The amendment to Section 2021 strikes out the word "national" and inserts "legal," and relates simply to the time in which the stock transfer or Register Book may be examined by stockholders and creditors of the corporation.

The amendment to Section 2024 places the power of compelling the production of the books and papers with a Circuit Judge instead of a Court of Chancery.

The amendment to Sections 2025 and 2029 provides that the granting of a Charter by the Treasurer of the Territory shall be with the consent of the Governor.

The amendment to Section 2027 provides that the Treasurer shall not grant any Charter which in its terms may or shall institute a monopoly or grant perpetual charters except for certain purposes. The law as it now stands might allow a Charter instituting a monopoly for five years. We think the amendments necessary, and therefore recommend the passage of the Act.

Honolulu, March 26, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator Kalaanokalani moved that the report be adopted. Seconded by Senator Kaiue and carried.

Senator Dickey moved that the bill be read third time tomorrow. Seconded by Senator C. Brown and carried.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 90, as follows:

Honolulu, March 25, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions and Joint Resolutions, to which was referred Senate Bill 90, beg leave to report that it has had the same under consideration.

This Act exempts the Kona-Kau R. R. from the payment of taxes on its property for the term of five years. Your Committee is of the opinion that this would be a bad precedent to establish, and would lead to endless applications for relief from unsuccessful business enterprises all over the Island. If the Kona-Kau R. R. cannot make a success of the venture unless their taxes are remitted they cannot make a success of it at all.

Your Committee recommend that the bill be laid on the table

Respectfully submitted,

C. H. DICKEY, Chairman
D. PAUL R. ISENBERG,
S. E. KAIUE.

Senator Kalaauokalani moved that the report be indefinitely postponed. Seconded by Senator Achi and lost.

Senator McCandless moved that the report of the Committee be laid on the table to be considered with the bill. Seconded by Senator Wilcox and carried.

Senator C. Brown for the Judiciary Committee reported on Senate Bill No. 116, as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 116, report that the Bill seeks to amend Sections 1 and 5 of Act 45 of the Laws of 1898 relating to the carrying on of business in this Territory by foreign corporations and incorporated Companies, and provides that certain acts be done before such Companies are entitled to carry on business. The law as it now stands is defective, providing for no penalty, and does not require the conditions in Section 1 of the Act to be performed before engaging in business; the amendment makes such a condition before allowing the Company to enter in or begin business, and provides a penalty not only against the Company, but against the party acting as its agent.

We recommend the passage of the Act.

Honolulu, March 26th, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator Kalaauokalani moved that the report of the Committee be adopted. Seconded by Senator McCandless and carried.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 127, as follows:

Honolulu, T. H., March 26, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions and Joint Resolutions, to which was referred Senate Bill 127, have had the same under consideration and report:

This Act amends the present law by eliminating the words "import," "manufactures," "imported" and "manufactured," and slightly changes the phraseology. It also reduces the maximum imprisonment for breach of the law to thirty days, leaving the fine as at present, not over \$250.

Your committee recommends the passage of the Act.

C. H. DICKEY, Chairman.
D. PAUL R. ISENBERG,
S. E. KAIUE.

Senator Kalauokalani moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator Kaohi and carried.

Senator Baldwin for the Committee on Ways and Means reported on Senate Bill No. 110, as follows:

Honolulu, T. H., March 26, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 110, recommends the passage of the Bill, with the following amendments:

In Section 1, Line 7, printed copy. Insert after the word "person" the following: "provided the amount he is indebted to such other person is equal to the amount of the personal tax."

In Section 2, Line 8, strike out the words "credits, claims, demands," after the word "contracts."

In Section 3, strike out lines 21, 22, 23, 24, 25 and 26, and insert in place thereof the words "And provided further that when any real estate or house is leased or rented, the sum of

ten years' rental thereof shall be the assessment value of such real estate or house, unless such valuation shall be manifestly unfair or unjust."

With the above amendments, your Committee recommends the passage of the Bill.

Respectfully submitted,

H. P. BALDWIN,
S. E. KAIUE.

I concur in the above report, except in the increase to ten years' rental. I consider the present eight years' rental fair.

J. D. PARIS.

Senator C. Brown moved that the report of the Committee be laid on the table to be considered with the bill. Seconded by Senator Kalanokalani and carried.

Senator Paris for the Committee on Public Expenditures reported on Senate Bill No. 46, as follows:

Honolulu, T. H., March 26, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Standing Committee on Public Expenditures, having had under consideration Senate Bill No. 46, being "An Act to amend Section 14 of Chapter 23 of the Session Laws of 1884, also being Section 2070 of the Civil Laws of the Territory of Hawaii, as set forth in a compilation made by Sidney M. Ballou," begs leave to report upon the same.

This bill, as understood by your committee, very largely increases the powers and extends the scope and field of banks doing business under our present law.

For the reason that there was evidenced keen interest in the bill by the larger financial factors, your committee called a meeting at which all who wished to attend could be heard. This meeting was held on the 20th inst., and there was a representative attendance. The consensus of public opinion, as brought out at that meeting was that the bill was altogether too sweeping in its character, as it would permit banks to engage in the realty business generally, in the stock and share business as brokers, and to act in all relations as trustees, guardians, executors, administrators, assignees, receivers and depositaries. It was further brought out at this meeting that under the proposed law a bank could have leave to engage in any business that any individual, firm or corporation might undertake.

Under the present Banking Act, which Act 46 proposes to amend, the banks are practically confined to proper banking transactions as understood heretofore in this Territory and as followed elsewhere, and your committee believes that the present banking law is sound and sufficient. We point out that it has stood the severest tests incident to a financial stringency, and that it has met with the unqualified and substantial approval of the best financiers of the Mainland and of foreign countries.

Your committee casts no reflection upon the banks as at present conducted, but if their powers were increased as proposed by Bill No. 46 there would be a strong temptation at times to venture beyond the safe limits of legitimate banking. We believe that the Banks of this Territory should be confined in their operations, enterprises and connections to the standard and time-honored functions of banks as recognized here and elsewhere. Under the present law the banks of Hawaii have enjoyed the fullest confidence not only of the people of the Territory, but of the whole business world, and we believe that it would be dangerous to allow all or any considerable number of the innovations proposed by Bill No. 46. This Bill is an almost identical copy of the charter of the Union Trust Company of San Francisco. It would permit banks to engage in trust business generally, thus invading locally a financial field already well filled and restricting many large undertakings to banks solely, while there is ample scope for the present banks and perhaps for others in the banking field as prescribed in the present law.

Your committee would be willing to recommend that banks be allowed to engage, under proper restrictions, in the business of being depositaries, but neither this nor other concessions, as your committee understood the public discussion of the measure, would satisfy those persons or interests urging the enactment of Bill No. 46. Your committee, therefore, fearing confusion or worse in the larger business world of the Territory, recommends that this bill be laid on the table.

Your committee considers it germane to this report to call the attention of the Senate to the fact that for several years the Territorial authorities charged with the duty under the banking law as now on the statute books, have failed entirely to examine and report upon the affairs of incorporated banks, as specifically directed so to do by law. These inspections, for the reason that they are required by law and are important to the public interests as well as due the banks, should be made, and your committee, therefore, notes this neglect.

Respectfully submitted,

J. D. PARIS,

L. L. McCANDLESS,

Committee.

Honolulu, T. H., March 26th, 1903.

HON. C. L. CRABBE,

President of the Senate.

HON. F. W. BECKLEY,

Speaker of the House of Representatives,
Territory of Hawaii.

Gentlemen:—We respectfully tender the use of our steamer "Kinau" to the Legislature for the purpose of visiting the Leper Settlement; to sail either on Saturday, March 28th, or Saturday, April 11th, at any time you may desire after 5 p. m.; to remain at Kalaupapa all day Sunday and to return at such hour as you may desire.

The "Kinau" will go on the Marine Railway Saturday, April 4th, consequently she will make a quicker passage on the 11th of April than she would on the 28th of March.

Very respectfully,

WILDER'S STEAMSHIP CO.,

C. L. WIGHT, President.

Senator Baldwin moved that Senator Dickey be appointed a committee of one to confer with the Speaker of the House of Representatives in regard to when the Committee from the House would visit the Leper Settlement.

Senator Baldwin for the Committee on Ways and Means reported on Senate Bill No. 130, as follows:

Honolulu, T. H., March 27, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 130, entitled "An Act relating to Persons and Companies engaged in the Business of Insurance," begs leave to report as follows:

This Bill provides that no Person, Company or Corporation shall carry on the Insurance business in this Territory, without first depositing with the Treasurer, approved Bonds, of the aggregate market value of \$25,000, to be held as a trust fund for the benefit of the creditors of such Company, and for the payment of claims established by judgments of the Courts. It is provided, however, that the Act does not apply to any Companies owning real estate in this Territory of the value of \$25,000.

There are Seventy-two (72) Fire insurance Companies in this Territory, besides several Marine and Life Insurance Companies. All the above Companies are branches of Insurance Companies who have their principal places of business on the Mainland, or in foreign countries, and most of these Companies own no property whatever in this Territory.

It is the opinion of your Committee that Insurance Companies should be required if they own no property in the Territory, to deposit Bonds with the Treasurer, as a security for the settlement of claims under the provisions of this Act. The amount of \$25,000 deposit in Bonds, called for in the Bill, is deemed by most of the Insurance Companies as oppressive.

We recommend that the amount of Bonds to be deposited with the Treasurer be reduced to \$12,000, and that with this amendment the Bill pass.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator C. Brown moved that the bill be read third time on Thursday, April 2nd. Seconded by Senator Isenberg and carried.

Senator Baldwin for the same committee reported on resolution asking that moneys paid by the Kohala Club Stables for license fees be refunded, as follows:

Honolulu, T. H., March 27, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Resolution No. 23, asking "that the sum of \$54 may be inserted in the appropriation for Unpaid Bills, for money collected illegally from the Kohala Club Stables," begs leave to report that we have had the same under consideration.

This money is for License Fees collected of the Kohala Club Stables. They claim that these fees should not have been collected of them, as Section 97, Session Laws of 1896, provides that "The annual fee for a license to carry freight or baggage for hire or compensation in the District of Honolulu, Wailuku and Hilo, on any dray, cart, wagon, or other vehicle other than a hand-cart, shall be two and a half dollars for each vehicle so used," and that the law does not apply to other Districts.

Section 98, however, has not been repealed, and provides that "The annual fee for a license to carry passengers for hire in any vehicle, shall be one dollar for each person for which such vehicle has a carrying capacity."

As this is a legal question, your Committee obtained the opinion of the Attorney General in regard to the matter, which we give herewith:

"Honolulu, March 26, 1903.

"HON. H. P. BALDWIN,
Senate, Territory of Hawaii.

"Dear Sir:—In reply to your enquiry of recent date, asking whether license tax collected in North Kohala, under Section 98, Session Laws of 1896, were legally collected, I have to say that in my opinion Section 98 is not to be construed in connection with Section 97, of said Session Laws of 1896, but the collection of annual fees for a license to carry passengers for hire in any vehicle, as set forth in Section 98.

applies to all parts of the Territory. Therefore the fees above mentioned in Senate Resolution No. 23 were legally collected.

"Very respectfully yours,

"(Sgd.) LORRIN ANDREWS,
"Attorney General."

We recommend that the Resolution should not be adopted.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Honolulu, T. H., March 27, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Standing Committee on Public Lands, Internal Improvements, Agriculture, etc., to which was referred Senate Bill No. 35, begs leave to report upon the same.

This is an Act defining the Sanitary Districts of Honolulu and establishing rules and regulations for the plumbing and drainage of buildings, and the construction of House sewers in said District. The Act is a long one, giving a great amount of detail. It has been carefully drawn by capable men, and besides having the strongest endorsement of the Health authorities, meets with the approval of the plumbers, and has been reviewed and is urged for enactment by the Builders'

and Traders' Exchange, a representative organization of the city. The limits of the Sanitary District are unchanged. The Act includes a compilation of rules and regulations that have from time to time been put forth by the Health authorities, it being proposed to have a statute instead of simply regulations about which there has been question of enforcement by the courts. It is represented to your Committee that the Act fully protects all classes of householders in all their interests, besides insuring sanitary and proper sewer connections, and the very best class of work for each. We believe the Act to be an excellent one for the protection of the public health.

Your committee recommends the following amendments:

Add to Section 2: "Said examining Board shall consist of three members, one of whom shall be a member or attache of the Board of Health, one a representative plumber and the third a citizen not connected with either the Board of Health or the plumbing business, and the members of the said Board shall serve without pay."

Section 3, line 3, strike out all following the words and figures "21 years." Strike out all of line 4.

Section 11, line 3, insert after the words "Where such sewer is accessible," the words "free of charge for the use of the sewer system."

Add to Section 12: "In any instance before issuing a permit for work to be done, the said Inspector of Sewers and Plumbing shall make a careful advance inspection of the site, if the work is to be in a new building and of the building if the work is to be done in a building in course of construction, or already erected."

Strike out all of Section 30 and insert in lieu thereof the following:

GREASE TRAPS.

Section 30. Pantry and Kitchen sinks shall be provided with grease traps, the sizes of which shall, before installation, have the approval of the Inspector of Plumbing and Sewers. Restaurants, eating houses and hotels shall have properly constructed grease traps, the sizes of which shall, before installation, be approved by the Inspector of Plumbing and Sewers. At no place shall any lead grease trap be placed.

Section 40, line 2; after the word "shall" insert the word "not."

Section 41, line 1; strike out the word "use" and insert in lieu thereof the word "installation."

Section 42, line 2; insert after the words "must be" the word "properly" and strike out the words "from a tank of not less than." Line 3, strike out "4 gallons capacity for each closet flushed."

Section 44, line 1; strike out the words "an automatic flush tank" and insert in lieu thereof the word "equipment."

Section 45, line 1; strike out "2 feet" and insert in lieu thereof the words "six inches."

Section 51, line 2; after the word "carriages" insert the words "in livery stables."

Section 58. Strike out the last 4 words in line 2 and all of line 3.

Section 62, add; "the provisions of this Act shall not apply to ice boxes or refrigerators in use in private dwellings."

Strike out all of Section 67 and insert in lieu thereof the following:

CESSPOOLS.

Section 66. No privy vault or cesspool, unless the same shall meet with sanitary requirements, shall hereafter be constructed within the sanitary district where a sewer is accessible. The term accessible shall be construed and accepted to mean that said sewer is within forty feet of the front or side line of the property in question.

Section 77. Add to said Section the following: "but no entry upon private premises shall be made by said officers until after proper notice has been given by them to the occupant or occupants of the premises."

Section 78, line 2; strike out the word "passage."

Your Committee recommends that as so amended the bill do pass.

Respectfully submitted,

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 45, as follows:

Honolulu, March 27th, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Committee to which Senate Bill No. 45 was re-committed beg leave to report:

Objections were presented to the Committee to that part of Section 1 which allowed the Company to extend their road across the tracks and yard of the Oahu Land and R. R. Co., on account:

1st. Of interfering with the work of the R. R. Co.

2nd. Of the danger to the public caused by an electric road crossing a number of railroad tracks at frequent intervals when a large amount of traffic is carried on.

3rd. Of the fact that the O. R. & L. Co. has been granted privileges by former Legislatures which are of the nature of vested rights.

These points are met by the Attorney for the Winston R. R., as follows:

1. That the business of the O. R. & L. Co. will not be seriously interfered with, and that the Company will not in any case enter the yard of the O. R. & L. Co. as the new road cannot be put through until Queen Street is extended, and then the street will be public property and not a part of the yard.

2. That the danger of the electric line crossing the tracks of the O. R. & L. Co. is no greater than it is in thousands of railroads in the U. S., where similar crossings are made.

3. That if Queen Street is extended the O. R. & L. Co. will have no vested rights in the public highway.

The Winston R. R. further urged that it would be greatly inconvenienced if it was not allowed to extend its tracks on the extension of Queen Street, as the plan is to establish its Power House beyond the Kamehameha School on the proposed extension of Queen Street, and the River Street route would necessitate a long detour while the Queen Street route would be direct.

Your Committee consider that it would be inadvisable, not only on account of the inconvenience caused to the O. R. & L. Co., and the danger to the public caused by the proposed line crossing the tracks of the O. R. & L. Co., where switching is constantly being carried on, but also as it is advisable to have one main street in each Section free from railroads, for the purpose of driveways. We have the Beach Road on the Diamond Head side of Nuuanu, and if Queen Street is extended it should be kept clear of railroads and be used only as a driveway.

Your Committee recommends that Section 1, line 6, by striking out all after the word "Honolulu," and all of line 7 and line 8 to and including the word "street," and inserting "at the corner of River and Queen Street and thence along River Street, Vineyard Street and along the extension of Vineyard Street," and with that amendment the bill pass as previously amended.

Respectfully submitted,

C. H. DICKEY, Chairman.

To the Honorable President and

Territory of Hawaii.

I have the honor to return herewith Senate Bill No. 5, entitled "An Act to repeal Act 10, Session Laws of 1901, entitled 'An Act relating to the appointment of Bailiffs for certain Courts in the Territory of Hawaii and defining the duties and powers of such Bailiffs and fixing the amount of their compensation and providing the payment of such payment,'" which has duly passed its third reading in the House of Representatives, Territory of Hawaii, on the 30th day of March, 1901.

Very respectfully,

SOLOMON MEHEULA,

Clerk.

Senator Wilcox for the Committee on Health and Education, to which was referred Senate Bill No. 111, reported as follows:

Honolulu, T. H., March 31, 1903.

HON. C. L. CRABBE,
President of the Senate.

Sir:—

Your Committee on Health and Education, to which was referred Senate Bill No. 111, entitled "An Act to Provide against the Adulteration of Food and Drugs," have had the same under consideration and find that this Act is almost identical with Act 34 of the Session Laws of 1898, with the exception of certain defects which this Act remedies. The material added in this new law makes the law much stronger and clearer by establishing a standard for milk, the absence of which has been embarrassing in the past in enforcing the law, as it then stood.

Your committee would recommend that the bill pass, with the following amendment:

In Section 3, line 23, after the word "animal" insert "or."

Respectfully submitted,

S. W. WILCOX,
PALMER P. WOODS,
H. P. BALDWIN.

Sir:—Your Committee on Public Lands, Internal Improvements, Agriculture, etc., having had under consideration Senate Bill No. 114, begs leave to report upon the same.

This is an Act providing that a bond shall be furnished by an important public official entrusted with the custody of large sums of money.

We recommend that in Section 3, in the sentence describing the sum and condition of the bond, language be changed so that the sentence will read: "He shall execute and deliver to the Superintendent of Public Works a Surety Company

Bond in the sum of Ten Thousand Dollars, said Surety Company to be such a one as is accepted by the United States Government, conditioned on the faithful discharge of the duties of his office and the correct accounting for all public monies that may from time to time come into his hands; and he shall renew such bond whenever requested so to do by the Superintendent of Public Works."

We recommend that as so amended the bill do pass.

Respectfully submitted,

L. L. M'CANDLESS.

And Whereas the development of the water system of Honolulu should be carried on intelligently and systematically so that the greatest supply of good water may be obtained for the least expenditure of public money;

And Whereas it is impossible to intelligently consider either of said two bills separately from the general question of the water supply of Honolulu;

Resolved that the Superintendent of the Honolulu Water Works and the Superintendent of Public Works be requested to report to the Senate as soon as practicable upon the following points, viz.:

(1). What is the present daily average consumption of water in millions of gallons in the City of Honolulu furnished by the Honolulu Water Works?

(2). At what rate is such consumption increasing? Give average daily consumption during the past ten years.

(3). What sources of water supply are now available to the Government, naming each, and the maximum, minimum and average amount of water which can be obtained from such source?

(4). What is the average cost to the Government per million gallons to obtain water from each of said sources?

(5). What other sources of water supply for the furnishing of the City of Honolulu are there? How much can, on an average, be obtained from each such source? What are private rights therein worth? And how much it will cost to develop and make available the water from the said several additional sources?

(6). Have the officers named any plans or recommendations for the improvement and increase of the system for furnishing Honolulu with water? If so, they are requested to present them to the Senate as soon as reasonably practicable.

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 144, report that the Act in question simply eliminates the word "Fire Marshal" and inserts wherever those words appear in laws defining the duties of the Fire Marshal the words "Chief Engineer of the Fire Department"; the change is made necessary for the reason that the duties heretofore directed to be done by the several Acts named in this Bill are now to be done and performed by the Chief Engineer of the Fire Department, as there is no such officer known to the law as Fire Marshal.

We recommend the passage of the Act.

Honolulu, March 31st, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Dear Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 143, report that the Bill seeks to amend Section 345 of the Penal Laws relating to nuisances; the law applies to awnings on buildings and extending to the outer edge of the sidewalk, and regulates the manner in which such awnings shall be affixed and built. The amendment adds balconies and verandas. Heretofore the plans for the erection or adding of awnings, balconies or verandas to buildings, had to be approved by the Minister of the Interior or his Agent; this is now to be done by the Superintendent of Public Works.

A communication from the House of Representatives, transmitting House Joint Resolution No. 4, relating to Silverware belonging to His late Majesty Kalakaua, was read by the clerk as follows:

Honolulu, H. T., April 1, 1903.

To the Honorable President of the

Senate of the

Territory of Hawaii.

Sir:—I have the honor to herewith transmit a duly certified copy of House Joint Resolution No. 4, which was adopted by the House of Representatives on the 26th day of March, A. D. 1903.

S. MEHEULA,

Clerk.

Approved:

F. W. BECKLEY,

Speaker.

HOUSE JOINT RESOLUTION NO. 4.

Introduced by Mr. Kellinoi.

Whereas, a certain Set of Silver Table Ware, together with the Chest containing the same, of great value, was presented on or about the year 1876 to His Late Majesty Kalakaua, by His Excellency the then President of the French Republic, some of which articles of silver having been lost in later years were replaced at the expense of his said late Majesty, in or about the year 1882; and,

Whereas, said articles remained in the use and possession of His said Majesty Kalakaua during the balance of His Majesty's life; and thereafter remained in the possession of His Majesty's successor, Her Majesty Liliuokalani, at said Iolani Palace; and,

Whereas, said articles are now held in the custody of the Superintendent of Public Works of this Territory, under the claim that the same belong to the Territory, and were not the private property of His Majesty Kalakaua, but became, by fact of such presentation as aforesaid, the property of the Crown of Hawaii, to which said Territory has succeeded; and,

Whereas, by the death, and under the Will of His said Majesty Kalakaua, his personal property and effects became vested in his widow, the late Queen Dowager Kapiolani, by whose Will in turn, all her property not otherwise specifically disposed of, and including said articles, became vested in her two nephews, the Princes David Kawananaokoa and Jonah Kalaniana'ole; and,

Whereas, it is fitting that a present such as that above described, from the Head of the Great French Republic to the Monarch of Hawaii should not, under the peculiar circumstances and conditions of such gift, be claimed or kept by the Government of this Territory, but it is proper that the representatives in family and estate of His said Majesty Kalakaua should receive and enjoy the articles so presented to their illustrious relative, as aforesaid; therefore

Resolved, by the House of Representatives, the Senate concurring, that the Superintendent of Public Works be and he is hereby instructed to deliver to said Princes David Kawananaokoa and Jonah Kalaniana'ole, all and singular the articles of Silverware aforesaid, together with the Chest containing the same, taking their receipt therefor, and that this Territory doth hereby renounce any and all claims to the ownership of said articles, and each and all thereof.

Senator Baldwin moved that the resolution be referred to the Committee on Public Expenditures. Seconded by Senator Kalaupokalani and carried.

Senator McCandless for the Committee on Public Lands, Internal Improvements, Agriculture, etc., reported on the resolution relating to the collection of sewer rates by the Superintendent of Public Works, as follows:

Honolulu, T. H., April 1, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—The Honorable Body by resolution having instructed your Committee on Public Lands, Internal Improvements, Agriculture, etc., to make enquiries concerning the collection of sewer rates from citizens by the Superintendent of Public Works, begs leave to report upon the subject.

Your committee finds that citizens are charged for making a connection with the sewer system and then charged for the use of the same, signing a contract at the time of securing the permit to make the connection. We find no law authorizing this charge. We believe that citizens should in all cases have the free use of the sewer system and this committee has offered an amendment to that effect to Senate Bill No. 35, now before this honorable body.

Your committee submits herewith, as part of this report, and with the request that the same be read, a note from the Superintendent of Public Works on the use of the sewer system, a statement of monies received from citizens for the use of the system and a printed copy of the form of application required to be used by citizens wishing to connect their properties with the sewer system.

Respectfully submitted,

L. L. McCANDLESS,
J. D. PARIS,
J. B. KAOHI,
Committee.

Honolulu, T. of H., March 31, 1903.

HON. L. L. McCANDLESS,
Chairman Committee on Public Lands,
Internal Improvements and Agriculture.

Sir:—In reply to Resolution of Senator D. P. R. Isenberg. adopted March 28th, 1903, I have to enclose herewith memorandum of collections of rates and fees of the Honolulu Sewerage System, from December, 1900, to March 30th, 1903.

The fees are \$1.00 payable on application for permission to connect with the public sewer. The rates are payable in ac-

cordance with terms of the contract, signed by the owner; the following clause bearing upon that question:

"And I further agree to lay a T or Y branch in the house sewer at the property line, and to pay such rates annually for the use of the sewer as may be fixed."

Very respectfully,

HENRY E. COOPER,
Superintendent of Public Works.

Senator Achi for the Special Committee reported on items of School Houses and Teachers' Cottages in the Loan Bill, as follows:

HON. C. L. CRABBE,
President.

Sir:—Your Special Committee to whom were referred the items for School Houses and Teachers, Island of Oahu, respectfully report as follows:

The estimates for buildings in detail for the Island of Oahu from the Board of Education, were as follows:

| | |
|--------------------------------------|--------------|
| New Royal | \$ 40,000 00 |
| New Normal | 40,000 00 |
| Kalihiwaina, 6 Rooms | 8,000 00 |
| Pohukaina, 8 Rooms | 10,000 00 |
| Waikiki, 2 Rooms | 2,500 00 |
| Molili, 1 Room, additional | 1,200 00 |
| Manoa, 2 Rooms | 2,500 00 |
| Kaakapua, 4 Rooms | 5,000 00 |
| High School, Com. Dep. | 5,000 00 |
| Waialua, 6 Rooms | 6,000 00 |
| Industrial School | 24,500 00 |

| | |
|-------------------------------|----------|
| Halawa, 3 Rooms | 4,000 00 |
| Pearl City, 3 Rooms | 4,000 00 |
| Pearl City, cottage | 1,200 00 |

Total for Oahu \$ 153,900 00

We found out that the above estimates are necessary, but we further found out that a School House ought to be built at Kahana. We, therefore, recommend that an amount of \$155,400 be inserted in the Loan Bill for School Houses and Teachers' Cottage for Oahu.

Respectfully submitted,

W. C. ACHI, Chairman.

L. L. McCANDLESS.

Senator Achi moved that the report be laid on the table to be considered with the Loan Bill. Seconded by Senator Isenberg and carried.

Senator Baldwin for the Special Committee to which was referred several road items in the Loan Bill, reported as follows:

Honolulu, April 2nd, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred the items in the Loan Bill:

| | |
|--|--------------|
| Branch Road to Upper Nahiku Lots | \$ 10,000 00 |
| Horse Trail, Nahiku to Kailua | 5,000 00 |

report as follows:

The Upper Homesteaders at Nahiku have no mode of access to their lots, except by an almost impassable foot-path, and a road should be provided.

Your committee finds that estimates of the cost of constructing the road have been made, amounting to \$2,500.00, and recommend the items be inserted at that figure.

The road from Nahiku to Kailua is probably the worst one in the Islands, although it passes through the most picturesque and tropical scenery in the Islands, and perhaps in the world. A good road through that Section would not only open up the region to tourists, but will open large tracks to be occupied by small farmers, as it would enable them to reach a market with their produce. The amount put in the bill for the purpose is utterly inadequate; in fact the item of \$5,000.00 was intended to be put in the Current Appropriation for repairs on the present road.

If the new road is made these repairs will be unnecessary
Your committee recommends that the item be raised to
\$50,000.00, which would make a good dirt road through the
region. It would require \$125,000.00 to put in a macadamized
road similar to that now made from Hana to Nahiku.

Respectrully submitted,

C. H. DICKEY, Chairman
H. P. BALDWIN,
S. E. KAIUE.

Senator McCandless moved that the report be laid on the

EXECUTIVE CHAMBER.

Territory of Hawaii,
Honolulu, Apl. 2nd, 1903.

HON. C. L. CRABBE,

President of the Senate,

Honolulu, T. H.

Sir:—I have the honor to enclose herewith for the consideration of the Senate, a petition from Japanese hack drivers.

A communication from the Attorney General of the Territory relating to the retainment of Mr. E. P. Dole to defend cases at Washington was read by the clerk as follows:

TERRITORY OF HAWAII.

Office of the Attorney General.

Honolulu, April 2, 1903.

To the President and Members of the Senate,
Territory of Hawaii.

Gentlemen:—Prior to my appointment to the office of Attorney-General of the Territory of Hawaii, I am informed that the Department of Justice at Washington had requested Mr. E. P. Dole to appear and assist them in the argument of the case of the Territory against Osaki Makichi. This was a case involving the right of the Territorial Courts before the Organic Act went into effect, to convict criminals or decide civil cases by a vote of nine out of the twelve jurors, and other important constitutional questions, and it was of vital importance to the Territory to win the same, amounting, if won, to the saving of probably at least twenty thousand dollars in expenses. Upon Mr. Dole's resignation as Attorney-General it was still necessary out of courtesy to the Department at Washington and to protect the interests of the Territory that he should make this trip and represent the Territory in the United States Supreme Court, therefore at the request of the Governor I retained him in the matter and paid him a fee of Five Hundred (500) Dollars, this being *retained* and in fact more than in our present financial circumstances the Territory could afford out of the funds appropriated by the last Legislature. Of course, the amount is wholly inadequate to the importance of the issues presented in said cases, and it was with the understanding that I would request the Legislature to grant a further appropriation that Mr. Dole took the trip. I append a copy of the list of convicts and criminals who, if the case is lost, will be turned loose upon this Territory, thereby causing great expense and almost hopeless efforts to obtain the evidence necessary to re-convict them.

In conference with Governor Dole and E. P. Dole it was agreed that the Legislature should be asked to appropriate the sum of \$1,000 as a fee to be paid by the Territory to Mr. Dole in addition to the \$500 already allowed by my Department. I therefore present this matter for your earnest consideration and would be very glad to give any further light on the matter that your Honorable body would require.

Respectfully yours,

LORRIN ANDREWS,
Attorney-General.

Senator C. Brown moved that the communication be received and considered with the Appropriation Bill. Seconded by Senator McCandless and carried.

A communication from the House of Representatives, announcing the passage of Senate Bills Nos. 15, 17 and 77 was read by the clerk as follows:

Honolulu, T. H., April 2nd, 1903.

To the Honorable President and
Members of the Senate,
Territory of Hawaii.

I have the honor to return herewith the following Senate Bills, which have passed their respective Third Readings in this House this day, to-wit:

Senate Bill No. 15 entitled "An Act to license the Retail Sale of Malt Liquors."

Senate Bill No. 77, entitled "An Act for the Incorporation of Societies for the Prevention of Cruelty to Children."

Senate Bill No. 17, entitled "An Act to Repeal a part of Section 2, Chapter 72, Session Laws of 1886, and to Remit claims for Special Tax on Malt Liquors under said section."

Very respectfully,

S. MEHEULA,
Clerk.

A communication from the House of Representatives, transmitting House Bill No. 157, was read by the clerk as follows:

Legislative Assembly,
House of Representatives,
Honolulu, H. T., April 2nd, 1903.

To the Honorable President
and Members of the Senate,
Territory of Hawaii.

Gentlemen:—I have the honor to herewith transmit to you the following House Bill No. 157, entitled "An Act to Provide

for the Acquisition by the Territory of Hawaii, of the Kaai-kahi and Kahuawai Springs of Pauoa Valley and the Waters thereof," which has passed its Third Reading in this House this 2nd day of April, 1903.

Very respectfully,

SOLOMON MEHEULA,
Clerk.

Senator Dickey for the Committee on Miscellaneous Petitions reported on House Bill No. 26 as follows:

Honolulu, T. H., April 2, 1903.

HON. C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions to which was referred House Bill No. 26, entitled "An Act to amend Section 225, Chapter 26 of the Penal Laws, Territory of Hawaii, relating to lights" has had the same under consideration.

The Act proposes to extend the regulations in regard to lights on bicycles and tricycles to the whole Territory instead of restricting it to the District of Honolulu.

Your committee recommends its passage with the following amendments:

Amend the title to read "An Act to amend Section 1, Chapter 26 of the Session Laws of 1892, relating to Lights."

Strike out in Sec. 1 the words "225 of the penal laws as compiled" and on line 2 the words "by Sidney M. Ballou" and insert in place thereof—"Sec. 1. Chapter 26 of the Session Laws of 1892."

Strike out in line 4, Sec. 1, the numerals "225" and insert the numeral "1."

These amendments are for the purpose of amending the actual statute law instead of attempting to amend the compilation of Sydney M. Ballou, which has never been enacted.

Respectfully submitted,

C. H. DICKEY, Chairman
D. PAUL R. ISENBERG,
S. E. KAIUE.

Senator Dickey moved that the report of the committee be adopted. Seconded by Senator Baldwin and carried.

Senator C. Brown moved that the bill be read third time on Monday, the 6th. Seconded by Senator Achi and carried.

Senator Wilcox for the Committee on Health and Education reported on Senate Bill No. 146 as follows:

Honolulu, T. H., April 3rd, 1903.

HON. C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Health and Education to which was referred Senate Bill No. 146 entitled "An Act amending certain Laws Relating to the Board of Health," have had the same under consideration. The object of this bill seems to be to cut out the salary of the President of the Board of Health as provided for in the bill which passed third reading in this Senate March 24. It also provides that there shall be three physicians, and three laymen, instead of two physicians and four laymen as in the bill already passed by this Senate.

Your Committee would recommend the indefinite postponement of this bill.

Respectfully submitted,

S. W. WILCOX,
H. P. BALDWIN,
PALMER P. WOODS.

Senator C. Brown moved that the report of the committee be adopted. Seconded by Senator Paris and carried.

Senator Wilcox for the same committee reported on Senate Bill No. 147 as follows:

Honolulu, H. T., April 3, 1903.

HON. C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Health and Education to which was referred Senate Bill No. 147, entitled "An Act relative to Vaccination, amending certain laws on that subject," have had the same under consideration. Your Committee finds that all the points brought forward in this bill are covered in Senate Bill No. 120, which passed third reading in this Senate March 31, and it is, therefore, superfluous.

Your Committee would recommend the indefinite postponement of this bill.

Respectfully submitted,

S. W. WILCOX,
PALMER P. WOODS,
H. P. BALDWIN.

Senator C. Brown moved that the report of the committee be adopted. Seconded by Senator Dickey and carried.

Senator C. Brown for the Printing Committee reported Senate Bills Nos. 153, 161 and 162 printed and ready for distribution.

Senator C. Brown for the Judiciary Committee reported on House Bill No. 81 as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee to whom was referred House Bill No. 81, report that this bill is the same, with the exceptions below stated, as Senate Bill No. 73, which passed its third reading on March 16th, and was immediately sent to the House of Representatives. Senate Bill 73 made the time of holding Court in the Fourth Circuit for the months of February, May and November, and did away with the holding of Court in the District of Hamakua in August. The House Bill requires the August Term to be held in Hamakua, but has not changed the terms to be held in Hilo. On Maui the Senate Bill fixed two terms a year, June and December; the House adds another term to be held in March, and changes December to October. In the Third Circuit the Senate fixed a term at Kailua in March; the House fixes the time in April and adding another term in December, and changes the term to be held in North Kohala from September to July. In the Fifth Circuit the Senate fixed the term of Court from April and November; the House fixes the terms from March, July and December, adding a new term.

As these alterations would have been in the nature of amendments to the Senate Bill, and would have had to be sent back or returned to this body for concurrence or acceptance, your Committee sees no reason why the Bill should not be acted upon at once. We believe that the giving of another term of Court in each Circuit outside of the First and Fourth will accommodate the public and satisfy the wants of the people; the continuing of the term of Court in Hamakua, we think unnecessary; but, if the people, as represented by the House, so desire, we see no reason of disputing that fact, and we therefore recommend that the House Bill pass its second reading.

Honolulu, April 3, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI,

Senator Isenberg moved that the report of the committee be adopted. Seconded by Senator Wilcox and carried.

Senator Achi moved that the bill be read third time on Monday, the 6th. Seconded by Senator C. Brown and carried.

Senator C. Brown for the same committee reported on House Bill No. 6 as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee to whom was referred House Bill No. 6, being "An Act granting certain powers to representatives of deceased persons, providing for the appointment of a public administrator, and the administration and final distribution of the estate of deceased persons," report that they have had same under consideration.

The Act in question makes a radical change in the law and practice as has heretofore existed and been administered. It settles for the future all questions relating to the determination of who are heirs to the estates of deceased persons when the proceedings are had under its provisions and in the manner directed. Heretofore the only distribution authorized by law in the Probate Courts has been of personal property, and the past few years in consequence have witnessed great numbers of suits relating to the title to land and questioning titles supposed to be undisputed. The Act was prepared, we understand, through the efforts of the Bar Association and has its approval as well as that of the Judges of the Judiciary Department. We recommend the passage of the Bill with the following amendment in Section 22: strike out the words "as provided by Chapter 36 of the Session Laws of 1892." The reason that this amendment is recommended is, that the law relating to the Supreme Court designating a newspaper as one of general circulation, and in which notices are to be published, has been repealed during this session of the Legislature.

Honolulu, April 3, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI,

Senator C. Brown moved that the report of the committee be adopted. Seconded by Senator McCandless and carried.

Senator C. Brown moved that the bill be read third time on Monday, the 6th. Seconded by Senator Achi and carried.

Senator C. Brown for the same committee reported on Senate Bill No. 156 as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee to whom was referred Senate Bill No. 156, report that they have had same under consideration. The object of the Bill is to amend the law relating to the forming of special partnerships, as to make it possible for two or more corporations to take advantage of that statute. The fact of corporations becoming partners is an innovation, and the passage of this Act will allow it. Circumstances are such in this Territory that we think it advisable and in the interests of all that the Act should become law, and therefore recommend the passage of the Bill with the following amendments: strike out the words "Chapter 131 of the Civil Laws of the Territory of Hawaii of 1897" in Section 1, and insert in their place "Chapter 70 of the Session Laws of 1886"; insert a new Section to be called Section 2 to read as follows:

"Section 2. All acts to be done and proceedings required or made necessary by Chapter 70 of the Session Laws of 1886 in the formation of special partnerships, shall be done and performed by the officers of the respective corporations entering into such special partnerships."

Honolulu, April 3, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI,

Senator Isenberg moved that the report of the committee be adopted. Seconded by Senator J. T. Brown and carried.

Senator Achi moved that the bill be read third time on Monday, the 6th. Seconded by Senator Isenberg and carried.

Senator Mc'andless for the special committee, to which was referred the item "Reconstruction and Repairs to the Judiciary Building," reported as follows:

Honolulu, T. H., April 3, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your special committee to whom was referred the Loan Bill item of \$45,000 for reconstruction and repairs to Judiciary Building, begs leave to report upon the same. We have inspected the Judiciary Building and find that it is throughout the whole of the interior in very poor condition indeed from wear and tear, age and the ravages of borers. It has lasted well, but is now in an advanced stage of decay and

may be said to be even in a dangerous condition. The proposal to furnish fireproof construction where so many valuable documents are held is an excellent one. We believe the estimate of \$45,000 to be a reasonable one and recommend that this amount be set aside in the Loan Bill for the purpose indicated. Attached to and made a part of this report is an official estimate on the work.

Respectfully submitted,

L. L. McCANDLESS,

Senator Baldwin moved that the Clerk be instructed to acknowledge the receipt of the communication and ask for the return of the original Senate Bill. Seconded by Senator C. Brown and carried.

Senator Dickey moved that further consideration of the communication be deferred until the return of the original bill. Seconded by Senator C. Brown and carried.

Senator C. Brown for the Printing Committee reported Senate Bills Nos. 159 and 160 printed and ready for distribution.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 50, as follows:

Honolulu, April 5, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred Senate Bill No. 50, entitled "An Act to Regulate the Practice of Medicine and Surgery in the Territory of Hawaii, and for the Appointment of a Board of Medical Examiners" have had the same under consideration.

The Act is offered for passage on the ground that the public should be protected from the practice of quacks. The bill is a good one in some particulars and your committee recommend its passage with the following amendments:

Sec. 1, line 1, strike out the word "five" and insert the word "seven." Strike out in line 3 the word "one" and insert the word "three" so that the board will consist of seven members instead of five, thus minimizing the likelihood of favoritism.

Sec. 10, line 9, insert after the word "dentists" the word "masseurs" so that osteopaths and other masseurs may carry on their business as far as massage or manipulation is concerned.

Sec. 13. Amend the Section so as to read "The members of the Board shall serve without pay. All printing, postage and other contingent expenses shall be paid from the appropriations for incidentals of the Board of Health." This amendment is proposed because your committee thinks that the medical practitioners of Honolulu will be perfectly willing to serve on the Board without pay for the purpose of keeping the medical profession in the Territory above reproach. Your committee does not approve of the feature in the bill giving the commission the power to expend government money as proposed in the latter part of Section 13, and have remodelled the Section accordingly. It also recommends that the words "and disbursements of said Board" in line 13 of Sec-

tion 2 be stricken out and also that the words "and disbursements" in line 3 of Section 3 be stricken out. The board then will turn over its receipts as government realizations the same as all others receiving money for the government, and will only pay out money or warrants under appropriations.

Your committee also recommends that the words "an affirmative vote of at least four members" be stricken from line 5 of Section 7 and the words "a unanimous vote" be inserted. This will lessen the likelihood of any person being disbarred unfairly by the board.

C. H. DICKEY, Chairman.

D. PAUL R. ISENBERG,

S. E. KAIUE.

Senator C. Brown moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator Isenberg and carried.

Senator Baldwin moved that the Clerk be instructed to have the amendments proposed to Senate Bill No. 1 by the House, translated and typewritten. Seconded by Senator Dickey and carried.

Senator Achi moved to notify the House that the Senate does not concur in the amendments by the House to Senate Bill No. 1. Seconded by Senator Dickey and carried.

Senator Baldwin for the Committee on Ways and Means reported on House Bill No. 78, as follows:

Honolulu, T. H., April 4, 1903.

HONORABLE C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred House Bill No. 78, "An Act to Amend Section 8 of Act 9 of the Session Laws of 1901, relating to the exemption of the wages of laborers and persons working for wages from attachment, execution, distress and forced sale", begs leave to report that the Senate has just passed an Act which has been sent to the House, that deals more fully with "exemptions from attachment, execution and forced sale", and is preferable, in our opinion, to House Bill No. 78.

We have no objection, however, to this Bill, which amends only one Section of the existing law relating to attachments, and have recommended the introducer of the Bill in the House to incorporate this amendment in the Senate Bill now in the House. This he agrees to do, and your Committee, awaiting

the result of such action, recommends that this Bill be laid on the table. The Bill can be taken off the table and passed, if the House refuses to incorporate the provisions of this Bill in the Senate Bill.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator C. Brown moved that the report of the committee be adopted. Seconded by Senator Isenberg and carried.

Senator Isenberg for the Special Committee, to which was referred items under the head of Agriculture and Forestry, reported as follows:

Honolulu, April 3, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Special Committee on Agriculture and Forestry, to whom was referred the appropriations for Agriculture and Forestry, beg to report that they have had the same under consideration and beg to report that they recommend that the appropriations as recommended by the Governor be amended as follows:

| Assistance to Federal Experiment Station at Ho- nolulu, to be expended under the direction of the Board | 10,000 00 |
| Total | \$ 55,800 00 |

It will be noticed that the salary of the Commissioner of Agriculture and Forestry is omitted.

The reason for this is that it is proposed to transfer the duties of the Commissioner of Agriculture to the Superintendent of Public Works, as the latter officer will be deprived of most of his duties by the County Bill.

It will also be noticed that the suggested appropriations provide for a Superintendent of Forestry, a Superintendent of Entomology and of Assistant Entomologists.

The reason for this is that it is proposed to secure the services of a professional forester and a professional entomologist, each of whom will take special charge respectively of the divisions of Agriculture and Forestry.

Mr. Gifford Pinchot, the Chief of the Bureau of Forestry, at Washington, has stated that he would allow one of his trained assistants to come to the islands, at least for a sufficient length of time to lay out the scheme of a systematic Forestry Department. By doing this we shall be working intelligently and systematically instead of at haphazard.

We cannot tell beforehand exactly what course of action such a trained specialist would deem best.

We, therefore, think that instead of appropriating moneys in detail for the Nuuanu Forestry, as has been done in the past, the appropriations should be in lump sums permitting the expert forester to use his discretion so as to accomplish the best results. For this reason we have, as it will be noticed, lumped the appropriations under general headings.

The appropriations suggested also provide for a salary for the Superintendent of Entomology and a suitable number of assistants, and for establishing quarantine and disinfecting

quarters and for apparatus and buildings for the propagation of beneficial insects, such as for the destruction of the lantana; and for inspection and quarantine for the prevention of the introduction of insects and pests not yet here.

This course is comparatively a new proposition for Hawaii and it is impossible to tell beforehand in detail just how the money can be best expended.

The Senate has recently had a chance to observe for itself how much can be obtained from a small expenditure in this direction, and we feel that it will be safe to entrust with men of this character the expenditure of the money necessary for the equipment and operation of a division of Entomology without tying them too closely to details.

We have, therefore, in this recommendation lumped the appropriations under general heads, instead of defining too closely what the money shall be used for.

You will notice also that the amount to be voted for the assistance of the Federal Experiment Station has been increased to \$10,000 without defining exactly for what it is to be used. This is done for the same reasons above set forth, viz:

That the Station is new, and the exact details cannot be foretold. The best results can, therefore, be obtained by leaving wide discretion as to exact objects of expenditure.

The objection may be made that Territorial money should only be expended under Territorial supervision. To meet this suggestion it is provided that the appropriation is to be expended under the direction of the Board of Agriculture.

In this connection we would state that your committee has been reliably informed that every State and Territory, except Alaska, makes an appropriation for the assistance of the Federal Agricultural Experiment Station and that last year Porto Rico appropriated \$15,000 for this purpose. The Experiment Station is exclusively for the benefit of the people of Hawaii. If the Federal Government is so good as to appropriate \$15,000 per annum for the benefit of the people of Hawaii, through this Experiment Station, it would seem that the least that could be done to evidence our appreciation thereof would be to appropriate at least two-thirds as much. We have, therefore, recommended for this purpose the sum of \$10,000.

The other appropriations recommended by the Governor viz: For Agricultural Fairs and Farmers' Institute meet with our hearty endorsement.

We remain,

Your obedient servants,

D. PAUL R. ISENBERG,
Chairman of Committee.

D. KALAUOKALANI,
H. P. BALDWIN.

Senator Paris for the Committee on Public Expenditures reported on the Message of the Governor relating to Unpaid Bills, as follows:

Honolulu, T. H., April 3, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Standing Committee on "Public Expenditures", to which was referred the Message of His Excellency the Governor upon the subject of "Unpaid Bills", begs leave to report upon the same.

Your Committee has found it necessary to occupy a large amount of time in investigating the claims against various department, and has made the closest inquiries possible. Your committee submits, as part of this report, and asks that the same be read, certain findings and recommendations by an expert accountant whom we found it necessary to employ and who has performed excellent service. Your committee further presents, for the consideration of the Senate and with the committee's endorsement, an Act making certain appropriations for the payment of the "Unpaid Bills."

Taking these items up as in the Message of the Governor in regular order.

See Exhibit "A".

NO. 2 TREASURY DEPARTMENT.

These items amounting to \$2,241.17 we recommend be inserted in the appropriation as per detailed list in the Governor's Message.

DEPARTMENT OF PUBLIC WORKS.

We make herewith special report upon the following items:

| | |
|------------------------------|----------|
| Hutchinson Sugar Co. | \$369 39 |
|------------------------------|----------|

This claim we find to be for repairs to Honoapu Wharf and is for labor and material furnished by the Hutchinson Sugar Co. from Apr. 1899 to Dec. 31, 1901, and that the bills are ap-

proved by the present Assistant Superintendent of Public Works. We learn that regarding this claim there has been in existence for years an unwritten agreement or understanding whereby the repairs to this wharf have been paid equally by the Government, the Hutchinson Sugar Co. and the Inter-Island Steam Navigation Co. This wharf is freely used by the public and is in charge of the proper officials and the agreement here referred to appears to be an equitable one. The charge for some of the material used in repairing this wharf appears to your committee to be more than it should be, lumber being charged at a rate as high as \$45 per M feet. We recommend inserting in place of this amount the sum of.....\$123 13, being 1-3 the amount in the original bill.

Olaa Sugar Co. \$5,000 00

We hand you herewith marked Exhibit "B" the report of the expert accountant, and recommend the payment of this amount.

Hawi Mill Co. \$5,000 00

Explanation of this item is also included in the Accountant's Report under Exhibit "B". Your committee are strongly of the opinion that this item should not be allowed. The local road held this claim two years before giving its approval and we are informed by one of the members of the Board that his approval was then given on the urgent recommendation of the Superintendent of Public Works. From a member of the Road Board and from other sources we learn that the road in question is practically a private roadway and we do not believe that the Territory should give any recognition to this claim.

Dredging Honolulu Harbor, H. Hackfeld & Co. . \$9,481 73

We hand you herewith a very complete report made up by the expert accountant, marked Exhibit "D". This report enters into the details very clearly and shows methods which will be touched upon more fully in the report upon the Hackfeld wharf. We recommend the payment of this amount.

Roads and Bridges, 4th District.

H. Hackfeld & Co. Ltd.

For labor and material for wharf.....\$108,794 97

Interest at 6% for one year..... 6,228 25

\$115,023 22

We call especial attention to the report of the expert accountant on the subject of the item of \$115,023.22 for the construction of the Hackfeld Wharf in Honolulu Harbor. We reluctantly recommend the payment of this claim upon the ground that refusal to pay the same would have the appearance of repudiation on the part of the Territory and injure its credit. In this transaction the credit of the Territory was pledged for a large

sum of money in a wholly irregular manner and entirely without warrant of law. The entire amount of this work was done under the authority of a letter from the then Superintendent of Public Works. We cannot too severely condemn the methods and operations by which claims against the Territory can be permitted to accrue to such a large amount and in such a manner. The precedent established is an extremely dangerous one, for, if public officials without warrant of law, can pledge the credit of the Territory for such a large amount as here involved, there is no limit to the amount of debt that can be incurred by officials acting without proper authority. We call your attention to that part of the Expert's report showing a profit to the contractors of \$13,877.09 for commissions received on labor and material. We feel that we must recommend that this claim be liquidated for the reason that the wharf was actually built and is now in use and that, while material was furnished and labor performed in good faith, the law should make it impossible for any re-occurrence of this kind. We, therefore, make recommendation that the amount of \$115,023.22 be inserted in the bill for the purpose, the same to be paid H. Hackfeld & Co., Ltd., upon their relinquishing all claims to said wharf, particularly that claim to a prior right of loading and discharging vessels mentioned in clause 4 of Contract dated September 19th, A. D. 1901.

Your Committee finds irregularity in the small item of \$57.50 for C. H. Dickerson and has reduced the same to \$25.00. This service, we understand, was attendance at an auction sale and purchase of mules under instructions of the then Superintendent of Public Works. A fee of 5% commission is asked for, but the bill is reduced as being in our opinion unreasonable and out of proportion to the services performed.

Hamakua Forest Fires.

See Exhibit "C" Report of Expert Accountant.

One of the expert findings with this report is on the subject of the claims for fighting the "Hamakua Forest Fires." Your committee believes that there was extravagant expenditure of money here and that the claimants were protecting their own properties fully as much as they were engaged in saving forest on public lands. The money which the committee recommends be appropriated, however, was pledged by the then Superintendent of Public Works acting under the orders of the Executive Council and the services were performed in good faith. Were not this the fact your committee would not, so far as it is concerned, entertain any of these claims. We have stricken out the item of \$875.20 interest and the items Ookalau Plantation horse hire and personal services \$200 and Kukalau Plantation for similar services, \$300. We feel that the Territory is morally bound to recognize and pay the other claims.

The other items not particularly mentioned by us contained in the Governor's Message under the Department of Public Works we recommend be paid.

DEPARTMENT OF PUBLIC INSTRUCTION.

Your committee finds that the Unpaid Bills of the Department of Public Instruction have been properly incurred. But that in the item of the Oahu Sugar Company, rent of school building, erected by the company on public land, the charge should be reduced to one-half of the amount or.....\$63 The original bill of \$126 would be equivalent to 24% on the cost of the building, which we are informed was \$1,100. We recommend that the Territory purchase this and other school buildings now being rented. This, in our opinion, should be done in the interests of economy, and sound business methods.

BOARD OF HEALTH.

In the Board of Health items there was found one of \$57. This is a clerical error, and the amount should be 57 cents. With this correction we recommend the payment of the bills included under that Department.

Under Roads and Bridges, Fourth District:

J. J. Belser, contract\$5,549 20

Upon investigation made by your committee and by the expert accountant we find that this contract was entered into between the Superintendent of Public Works after being regularly advertised. The labor was performed for widening and filling in the Waikiki Road and was, in the opinion of the Committee, made necessary by the Honolulu Rapid Transit and Land Company's line to Waikiki. This Company we are informed have already paid, of this amount the sum of \$2,025.30 and an additional amount of \$128.78 not included in the amount now asked for of \$5,549.20. Your Committee have decided not to recommend the payment of this amount, neither do they strike it out, but refer the item to the Senate with all the facts and correspondence connected therewith for your approval or rejection.

Item Road Board Pay Rolls\$2,337 85

These are the items abstracted from the Office of the Superintendent of Public Works and were reported upon by your committee in a prior report, when the report of the expert accountant of March 17th was read.

We now beg to hand you a bill to appropriate the sum due the several Road Boards to make good this defalcation and recommend that the same pass.

Before closing this report we wish to call attention of the Senate that the details, contracts, correspondence, etc., apper-

taining to these bills are on file in the Office of the Superintendent of Public Works, and that the same are at the disposal of the Senate in disposing of these bills.

Respectfully yours,

Secretary of the Territory.

Senator C. Brown for the Printing Committee reported Senate Bills Nos. 141 and 155 printed and ready for distribution.

Senator Wilcox for the Committee on Health and Education reported on Senate Bill No. 136 as follows:

Honolulu, T. H., April 7, 1903.

HON. C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Health and Education, to which was referred Senate Bill No. 136, entitled "An Act to Provide for a High School in Hilo, Island and Territory of Hawaii,

under the Department of Public Instruction of the Territory," have had the same under consideration. The Superintendent of Public Instruction is of the opinion that there may be enough pupils on the Island of Hawaii to warrant the establishment of such a school. Section 6 of this Act provides for the appropriation of \$25,000 for the establishment and maintenance of said High School for the next biennial period.

Your Committee finds on investigation that this is a larger sum than is necessary, and that a four room school house with fittings can be built for \$6,000. Five special teachers would cost for two years, \$12,000, being a total of \$18,000. Your Committee would recommend that an item of \$6,000 for School House and fittings be inserted in the Loan Act, and an item of \$12,000 for "Teachers' Salaries" in the Appropriation.

With this change your committee recommend that the Act pass.

Respectfully submitted,

S. W. WILCOX,
PALMER P. WOODS,
H. P. BALDWIN.

Senator J. T. Brown moved that the report of the committee be adopted. Seconded by Senator Dickey and carried.

Senator J. T. Brown moved that the bill be read third time on Thursday, the 9th. Seconded by Senator Paris and carried.

Senator Wilcox for the same committee reported on the resolution asking for certain appropriations for school houses on Maui, as follows:

Honolulu, T. H., April 7, 1903.

HON. C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Health and Education, to which was referred a resolution asking that certain sums for school houses on Maui be inserted in the Loan or Appropriation Bill, have had the same under consideration.

Your Committee recommend the addition to the Teachers' Cottage, Keokea, Kula, Makawao, \$300, New School Room with addition, Kealahou, Kula, \$800, Purchase of land and buildings, Kealahou, Kula, \$250, One Room School House, Peahi, Hamakualoa, Maui, \$600.

Your committee recommend that the item for general repair and improvements for all schools in Makawao for two years, \$1,200, be stricken out entirely, as the Superintendent of Public Instruction has, in his estimates, an item of \$30,000 for general

repairs and improvements, which covers this item. All the other items in this resolution are covered by the estimates of the Superintendent of Public Instruction, and have already had the consideration of the Senate.

Respectfully submitted,

S. W. WILCOX,
PALMER P. WOODS,
H. P. BALDWIN.

Senator Achi moved that the report be laid on the table to be considered with the Loan Bill. Seconded by Senator Wilcox and carried.

Senator Wilcox for the same committee reported on resolution asking for an appropriation for sewers at Kalihi, as follows:

Honolulu, T. H., April 7, 1903.

HON. C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Health and Education, to which was referred a resolution by Senator Achi that the sum of \$20,000 be inserted in the Loan Bill for a sewer at Kalihi near Kamehameha Schools have had the same under consideration. Your committee find that the building of a sewer in this locality will be a great benefit, as far as health is concerned, to the people of that locality. The Assistant Superintendent of Public Works has made estimates of the cost and reports that it will take about \$21,443.20. Your committee finds that the Trustees of Kamehameha Schools are willing to bear part of the expense of constructing said sewer. Your committee would recommend that the sum of \$12,000 be inserted in the Loan Bill, provided the Trustees of the Kamehameha Schools will pay the balance of the expense for constructing said sewer.

Respectfully submitted,

S. W. WILCOX,
PALMER P. WOODS,
H. P. BALDWIN.

Senator C. Brown moved that the report of the committee be laid on the table to be considered with the Loan Bill. Seconded by Senator Wilcox and carried.

To the Hon. President
and Members of the Senate,
Territory of Hawaii.

I have the honor to herewith return Senate Bill No. 23, entitled "An Act to authorize W. W. That the following named sum of money, to wit, One thousand nine hundred and twenty-eight and 36-100 dollars (\$1,928.36) with interest at 6 per cent, from June 27, 1900, be inserted in the Appropriation Bill for the purpose of reimbursing the Hawaiian Fertilizer Company, Limited, for moneys unlawfully collected from said Company as taxes.

(Sgd.) CLARENCE L. CRABBE,

Honolulu, H. T., April 7, 1903.

To the Honorable President and
Members of the Senate,
Territory of Hawaii.

I have the honor to transmit herewith a Concurrent Resolution which this day duly adopted by the House of Representatives, and the following Representatives have been appointed on the said committee referred to in the resolution, namely:

Hon. J. K. Gandall.
Hon. H. C. Vida.

CONCURRENT RESOLUTION.

Resolved by the House of Representatives, the Senate Concurring, that a Joint Committee of fourteen members be appointed, seven members from this House and seven from the Senate to confer on differences between the House and Senate on Senate Bill No. 1 (County Bill).

Senator C. Brown moved that the resolution be adopted. Seconded by Senator Baldwin and carried.

The Chair appointed the following committee: Senators C. Brown, Wilcox, Baldwin, Paris, J. T. Brown, Kalaauokalani and Kaiue.

Senator C. Brown for the Printing Committee reported Senate Bills Nos. 168 and 169 printed and ready for distribution.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 138, as follows:

Honolulu, T. H., April 8, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred Senate Bill No. 138, has had the same under consideration.

Section 1 repeals Section 2 of Chapter 89 of the Penal Code referring to the importation of Liquid Explosives. This law is now entirely inoperative, as all imports are under the Federal control and no State or Territory has anything to do with the matter. The law being of no further value it is well to remove it from the Statute Book.

Section 2 amends the Law of 1878 by eliminating the words "import into this Kingdom or" for the same reason as in the case of repeal covered by Section 1.

Your Committee recommends the passage of the Act, with the following amendments:

Section 2, Line 2, insert after the word "to" the words "make the second paragraph of said Section." Also insert at the beginning of line 3 the words "Section 3a." Also in line 12 strike out the words "before a District Magistrate."

Respectfully submitted,

C. H. DICKBY, Chairman.

D. PAUL R. ISENBERG,

S. E. KAIUE.

Senator Dickey moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator Achi and carried.

Senator Dickey for the same committee reported on Senate Bill No. 139 as follows:

Honolulu, T. H., April 8th, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions reports as follows on Senate Bill No. 139:

The Act is offered for the purpose of repealing a law passed by the Provisional Government to prevent the importation of Arms, Ammunition, Dynamite, etc. The law is rendered inoperative by the Organic Act.

Your Committee recommends the passage of the Act, with the following amendments:

The title to read: "An Act repealing Act 9 of the Provisional Government Relating to the Importation of Fire-Arms, Ammunition and Explosive Substances."

Section 1, Line 1, strike out the words "Section 1 of."

Respectfully submitted,

C. H. DICKEY,
D. PAUL R. ISENBERG,
S. E. KAIUE.

Senator C. Brown moved that the report of the committee be adopted. Seconded by Senator Dickey and carried.

Senator C. Brown moved that the bill be read third time tomorrow. Seconded by Senator Dickey and carried.

Senator Baldwin for the Committee on Ways and Means reported on Senate Bill No. 137, as follows:

Honolulu, T. H., April 8, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Bill No. 137, entitled "An Act Amending a portion of the law relating to the Construction, Maintenance and Operation of a Street Railway in the District of Honolulu," begs leave to report.

The Bill provides that the property of a railway Company in the District of Honolulu shall not be taxed while the railway is being constructed, but as fast as the railway is completed and equipped, the completed portions shall become liable to taxation.

Your Committee see no good reason for granting this special privilege to Honolulu, and not to other Districts on the Islands. All city railway Companies that have been inaugurated in this

country have first obtained a special franchise from the Legislature, granting privileges according to the necessities of the same, and your committee considers it unnecessary to pass a general Act providing a special privilege as called for in this Bill.

We recommend that the bill be laid on the table.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator C. Brown moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator Isenberg and carried.

Senator Baldwin for the same committee reported on Senate Bill No. 157, as follows:

Honolulu, T. H., April 8th, 1908.

HONORABLE C. L. CRABBE,

President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Bill No. 157, entitled "An Act Relating to the Exemption of Taxes of the Pacific Heights Railway Co., Limited," begs leave to report that we have had the same under careful consideration.

The object of the bill is to exempt from taxation for the period of five years, all railway property of said Company, necessary for the maintenance and operation of the road.

Your Committee, on investigation, find that the above Railway Company is in need of assistance, and believing that it is in the public interest that this railway be maintained and kept up, we recommend the passage of the bill.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator Achi moved that the report be laid on the table to be considered with the bill. Seconded by Senator C. Brown and carried.

Senator McCandless for the Committee on Public Lands, Internal Improvements, Agriculture, etc., reported on various petitions relating to public improvements, as follows:

Senate Chamber,
Honolulu, T. H., April 6th, 1903.

HONORABLE CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Standing Committee on Public Works, Internal Improvements, Agriculture, etc., beg leave to report upon a number of resolutions and petitions, as follows:

Petition with fifty-six signatures for an appropriation of \$10,000.00 "for the purpose of re-grading and constructing a six foot trail from Ulupalakua, Maui to Kaupo, Maui." It is represented that but \$500 have been expended on this road or trail during the past twenty-five years. Your committee would strongly recommend that the sum of \$5,000.00 be appropriated for the improvement of this important road.

Petition with thirty-five names for the construction of a road from the 22 mile post on the Volcano Road, Island of Hawaii, to the New Olaa tract occupied by the Russian settlers. An appropriation of \$10,000 was made by the last Legislature for this work, but the work has not been undertaken. It is stated that the sum of \$25,000 could be advantageously used, but as the whole road is only 10,000 feet in length, your committee would recommend that \$5,000 be given for the road, which would be of great benefit to and greatly encourage these industrious settlers.

Petition with thirty-six signatures asking for an appropriation of \$1,000 for a road in South Hilo, from Kaumana Road to Lots 15 and 17, a distance of half a mile. Your committee endorses this petition.

Petition with 35 signatures for the appropriation of \$47,000 for various improvements in the District of Kaupo, Maui. There are nine items, all of which we believe should be scaled down materially, with the exception of \$2,100 for two buildings for school purposes.

Petition with 200 names for the appropriation of \$20,000 repairing and extending the main road from Kahului to Iao Valley, Island of Maui. We believe \$6,000 would be ample for this purpose.

Petition with 53 signatures asking for \$2,000 for repairing the Government Road from Pololu to Honokane, North Kohala, Hawaii. It is represented that this improvement would be of great benefit to a number of farmers, and your committee believes that at least \$1,000 should be provided for the work proposed.

Petition of a mass meeting of the citizens of Wailuku, Maui, asking for \$133,350 for public improvements in that locality. Many of the items herein are already before the Legislature in current or loan appropriation bills, and have received committee consideration. As to other items, your committee is unable from lack of time to secure exact information, and it leaves it to the Maui members to enlighten the Senate upon them.

Petition from 43 citizens of Kau District, Island of Hawaii, for \$63,000 for road improvements, school houses, court house and rock crusher. Your committee recommends the item of \$1,500 for court house, and finds the other items in the hands of other committees.

Petition from 76 residents of Kalihi, Honolulu, Oahu, asking for government street lights for their neighborhood. These lights are needed, and your committee urges that they be provided.

Resolution for \$79,000 for extensive public improvements in the District of North Kona, Island of Hawaii. Your committee finds all of these items already in bills, excepting \$20,000 for wharf at Kealahakua Bay, and does not believe the Territory can at the present time enter upon the construction of this wharf. The other items are approved.

Resolution for \$1,000 in the Loan Bill for a road from Pololu to Honokane, North Kohala. This item is covered in a report above on a petition on the same subject.

Resolution carrying an estimate of \$351,570 for the construction, repair and building of streets and road at and near Hilo, Island of Hawaii. Hilo is a growing town and nearly all of these improvements are needed. Your committee can only recommend, in view of the fact that many of the items are already before the Legislature, that there be liberal dealing with Hilo, and that the needs to be first met be decided by the Superintendent of Public Works and the Road Board.

Resolution for \$40,000 for the purchase of a burial ground or cemetery tract within four miles of the City of Honolulu. We believe that \$10,000 should be provided for this purpose. There is apparent need of a new cemetery tract near Honolulu.

Resolution for \$5,800 for repair of several roads in the district of Hanalei, Island of Kauai. While but a small amount of money is here involved, your committee recommends that the items, several in number, be referred to the Kauai Senators.

Resolution for \$35,000 for extension of Queen Street, Honolulu. This item is already in the Loan Bill.

Resolution for \$10,000 for rebuilding the Upper Kalihi Road, Honolulu, Oahu. We believe that this item should be inserted in the schedule for roads and bridges, fifth district, Island of Oahu. This section of the City has long been neglected in the matter of roads.

Resolution of \$10,000 for the Pali Road, Kona, Oahu. Your committee believes that \$8,000 should be provided for keeping in first class condition this important road.

Resolution for \$5,000 for road to proposed new cemetery in Kalihi, Honolulu, Oahu. Your committee favors this item, conditioned that there is tendered and accepted three acres for cemetery without cost to the Territory.

Resolution for \$4,000 for Water Pipes on Puunui Avenue, and the extension of Liliha Street. Your committee urges that this amount be set aside for the purpose indicated. It will provide additional revenue for the Water Works Department and will be of direct benefit to a large number of tax-payers.

Resolution for \$59,000 for Fort Street extension and improvement of Punchbowl, Kinau, Miller and Kukui Streets. We cannot satisfy ourselves as to the exactness of these estimates, and believe that too much money is asked for. Several of the items are in Loan Bills, and your committee will furnish further information upon the more important ones.

Your committee finally recommends that all of these petitions and resolutions be tabled to be considered with bills upon the subjects referred to in the various documents.

Very respectfully submitted,

L. L. McCANDLESS,
J. D. PARIS,
J. B. KAOHI.

Senator C. Brown moved that the report of the committee be laid on the table to be considered with the Appropriation Bill. Seconded by Senator Baldwin and carried.

Senator C. Brown for the Judiciary Committee reported on Senate Bills Nos. 161 and 162, as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bills Nos. 161 and 162, relating to gaming and the suppression of gambling, report that they have had same under consideration.

Senate Bill No. 161 amends Section 3 of Act 21 of the Provisional Government (Section 389 of the Penal Laws) and is introduced for the purpose of aiding in its suppression by making the law clear and its provisions applicable to all cases besides that of a lottery.

Senate Bill No. 162 is introduced for the purpose of authorizing the police to enter buildings to suppress gambling when they have reason to suspect that a lottery or gambling game is being carried on without first obtaining a search warrant,

and after demanding an entrance, if refused, the right to enter by force. The introduction of this Act has been made necessary by reason of it having been held by the courts that the police have no right to enter buildings to suppress gambling, unless authorized so to do by search warrant.

We recommend the passage of both bills.

A communication from the Governor of the Territory vetoing the Joint Resolution requesting Congress to amend Section 44 of the Organic Act was read by the Clerk, as follows:

Executive Chamber,
Territory of Hawaii,
Honolulu, April 7th, 1903.

To the Legislature of the Territory of Hawaii:

The Joint Resolution requesting the Congress to amend Section 44 of the Organic Act, "so as to permit the use of the Hawaiian language," has had my consideration, and I am unable to approve it and herewith return it without my signature.

The provision of Section 44 of the Organic Act, referred to, requires all legislative proceedings to be conducted in the English language.

Judging from the provisions of the Organic Act, it was the fixed policy of the Congress at the time the Organic Act was passed, that legislative proceedings and judicial proceedings in the upper courts should be conducted in the English language. That this is an important and reasonable requirement of a Territory of the United States looking forward to Statehood, goes without saying.

In the recent discussions in Congress on the question of the admission of the Territories of Oklahoma, Arizona and New Mexico to statehood much was made in opposition to the Bill of the backward condition of the people of Arizona and New Mexico as to the use of the English language and of the fact that the conduct of both courts and legislatures require the assistance of interpreters.

I feel that the submission of such a request as is contained in the Joint Resolution to the legislative and executive authorities of the United States could not fail to prejudice the standing of this Territory before such authorities upon the question of the admission of the Territory of Hawaii as a state of the American Union.

Moreover, the allowance of the Hawaiian together with the English language as a medium for the conduct of legislative proceedings, would tend to delay legislative work and add to its expense without any corresponding public benefit.

SANFORD B. DOLE,
Governor.

Senator C. Brown moved that the veto of the Governor and the Joint Resolution be laid on the table.

Senator Baldwin moved as an amendment that consideration be deferred until tomorrow. Senator C. Brown accepted the amendment, which carried.

A communication from the Governor of the Territory vetoing a bill entitled "An Act to license the retail sale of malt liquors" was read by the Clerk, as follows:

Executive Chamber,
Territory of Hawaii,
Honolulu, April 7th, 1903.

To the Legislature of the Territory of Hawaii:

The Bill entitled "An Act to license the retail sale of malt liquors," has had my consideration, and being unable to approve it, I herewith return the same without my signature.

My objections to the Bill are as follows:

There is no provision forbidding the transfer of such licenses or of any interest therein;

Women may frequent the licensed premises, and receive and consume liquor by the glass therein;

The police should have at all times, the right to enter the licensed premises without search warrant and search the same and take samples of the malt liquors found on such premises for analysis, and to take away any liquor found in such premises that is not permitted by the law to be therein;

The conviction of the licensee for a breach of his bond or license should forfeit his license, as well as the amount of the bond;

The location of such licensed premises should be subject to the approval of the Treasurer and the High Sheriff, instead of the "Treasurer or the High Sheriff."

There should be a provision in the Bill which would prevent the location of such saloons in the neighborhood of residences.

As to the provision that premises licensed for the sale of malt liquors should not be located within 150 feet of schools, I have before me a petition from the Trustees under the Will of Bernice Pauahi Bishop to the Treasurer, asking that "in view of the prejudicial influences which the granting of such licenses within the vicinity of the school grounds would cause to the students," licenses for the sale of beer, wines and spirits be not located within half a mile of the Kamehameha School Grounds.

I would impress on your minds, in dealing with this subject, the recognized and established view of the Legislatures and courts of common law countries,—to the effect that the trade in intoxicating drinks is not within the class of ordinary enterprises for profit and not entitled to all of the considerations which are conceded to such enterprises, but is regarded to some

extent as a constant menace to the well being of society, and is accordingly placed by such authorities within the police power of the state with such other dangerous enterprises as the manufacture and sale of explosives, poisons, etc.

SANFORD B. DOLE,
Governor.

Senator Baldwin moved that the veto be considered tomorrow. Seconded by Senator McCandless and carried.

Senator Dickey for the Committee on Miscellaneous Petitions reported on the petition of the Officers of Various Charitable Societies praying for an appropriation of \$5,000.00, as follows:

Honolulu, T. H., April 8th, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred the petition of the Officers of the various Charitable Societies of Honolulu that \$5000 be appropriated for the expenses of the Associated Charities, beg leave to report as follows:

The Associated Charities is one of the most useful organizations in the City. It is their aim to examine into all applications for charity and find whether they are deserving. If found to be deserving the various applicants are turned over to the suitable benevolent society which gives the needed assistance. Thus, charitably disposed people are not cheated by impostors, and all persons really in need are cared for. As long as there is such a society in existence there is no likelihood of the appearance of professional beggars on our streets.

Your committee recommends the insertion of \$5,000. in the Appropriation Bill for the purpose proposed.

Respectfully submitted,

C. H. DICKEY, Chairman,
D. PAUL R. ISENBERG,
S. E. KAIUE.

Senator Dickey moved that the report of the committee be laid on the table to be considered with the Appropriation Bill. Seconded by Senator Isenberg and carried.

Senator Dickey for the same committee reported on Senate Bill No. 50, as follows:

Honolulu, T. H., April 8th, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which Senate Bill No. 50 was re-committed, beg leave to report that the Bill is in many respects a good one as it safe-guards the public from the practice of quacks.

The present law provides no penalty for infringement of the law, which difficulty is covered by the Act under consideration.

Your committee recommends the passage of the Act, with the amendments already proposed by the committee in its former report.

Respectfully submitted,

C. H. DICKEY, Chairman,
S. E. KAIUE,

I do not concur.

D. P. R. ISENBERG.

Senator Dickey moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator Isenberg and carried.

Senator Isenberg for the special committee on the Pahoa Water Works reported on Senate Bill No. 122 and House Bill No. 157, as follows:

Honolulu, H. T., April 8th, 1903.

HONORABLE CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Special Committee, to whom was referred House Bill No. 157 and Senate Bill No. 122, beg leave to report as follows:

Your Committee have taken into consideration House Bill No. 157, and have gone into the question of the different water sources very carefully. They have also personally looked into the water supply which is coming from Nuuanu Valley, and have obtained figures in regard to the pumping of water at the Beretania Street pumping station.

We, the committee, have come to the conclusion that pumping water is rather expensive, and especially the running expenses of the Beretania Street pump. We find that other pumps in the country are run very much cheaper, and we think it inadvisable to increase the pumping plants of the city, unless it is considered absolutely necessary.

Your committee believes that the Government should own all of the water, if it is going into the water business, as it is now, and control all sources of the water supply of Honolulu. We are in favor of the Government purchasing the Pauoa water springs. We have personally examined these springs and find from measurements made by several engineers that there are about 1,100,000 gallons of water flowing daily. This measurement was made in the latter part of the month of March, and the months previous and the month of March have been very dry, so that the measurements made indicate the lowest supply obtainable from the springs.

It has also been stated to the committee that it is very likely that the water in the Pauoa springs can be developed more, and while this may be true, the danger of undertaking it should be very carefully examined before such a course is pursued. The supply of water is very even throughout the year, which indicates that the water comes from a long distance. The quality of the water has also been taken under careful consideration by your committee, and the analysis made by Dr. Shorey we hereby attach to our report. This shows that the water is some of the purest that can be had. We further attach the options of the different holders and of Mr. Booth; and your committee have come to the conclusion that the Government should not pay out a dollar until it is satisfied it can obtain a good title to the water and the land on which the spring is situated. We are also of the opinion that the Legislature should not enter into contracts and then saddle the Government with a lot of law suits; nor purchase any part of the water unless they can purchase the whole.

Your committee have had the opinion of persons having a large practical experience of water supplies in the islands, and have based the valuation of this water supply largely thereon.

The upper spring could easily be connected with a direct pipe, which will be about 9,000 feet long, to the present Government main at the corner of Pauoa Road and Punchbowl Street, and about 6,000 feet from the lower spring; and your committee thinks it will cost about \$25,000 to bring that water direct. But should it be necessary to put the water in reservoirs, there are several sites for reservoirs near at hand. One could be built at the back of Punchbowl, another immediately below the springs in Pauoa Valley. The first site already belongs to the Government; the second site can be bought for a very reasonable price, owners having already offered to sell same for reservoir purposes.

We recommend House Bill No. 157 be amended to read as follows: Strike out all of Section 1 after the word "thereof" in line 3, and insert in place thereof "the land whereon such springs are situated, and to pay the several owners thereof the sum of \$150,000. The said owners to give a good title in fee of said

water and land, and a right-of-way over any property owned by them for a pipe line to convey said water to the water system of Honolulu."

Amend Section 2 so as to read as follows: "Section 2. The sum of \$150,000 is hereby appropriated from any current funds of the Territory for the purpose of acquiring the water and water rights and land aforesaid, and \$5,000 is hereby appropriated from such fund for the purpose of a reservoir site in Pauoa Valley."

With these amendments we recommend that House Bill No. 157 pass, and that Senate Bill No. 122, which is identical with it, be laid on the table.

Respectfully submitted,

D. PAUL R. ISENBERG,
Chairman.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 135, as follows:

Honolulu, H. T., April 9th, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred Senate Bill 135, An Act to reorganize and regulate the Militia of the Territory of Hawaii, has had the same under consideration.

This bill is modelled after the laws of the United States regarding the Militia of the several States and Territories, and, if passed, will make the rules and regulations concerning Militia to coincide with the laws in most of the States and Territories.

Senator Baldwin for the Committee on Ways and Means reported on House Bill No. 28, as follows:

Honolulu, T. H., April 9, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred House Bill No. 28, entitled "An Act Relating to Passenger Vehicles and Drivers, and to Regulate and License the same," begs leave to report.

This Bill provides for a Board of Three Inspectors, to inspect passenger vehicles and issue licenses for the same, and also to passenger vehicle drivers. One of the requirements under this Act is that all applicants for a license to drive a passenger vehicle shall be able to speak and read either the English or Hawaiian language.

Your committee believes that in this country, where a large majority of the people speak either the English or Hawaiian language, and a large part of the tourist travellers use the English language, it is desirable that passenger vehicle drivers should have a certain amount of knowledge of the English or Hawaiian language, but in our opinion, this requirement should not apply to existing licenses.

We recommend the passage of the Bill, with the following amendment, to be inserted in Section 2, at the end of the second paragraph: "Provided, however, that the provision that a passenger vehicle driver must be able to speak and read either the English or Hawaiian language, shall not apply to any person or persons holding a license on the passage of this Act."

To the Honorable President
and Members of the Senate,
Territory of Hawaii.

I have the honor to inform your honorable body that the House of Representatives has this day over-rode both of the Governor's vetoes on the Joint Resolution relating to requesting Congress to amend the Organic Act so as to allow the use of the Hawaiian language in legislative proceedings, and on the Bill relating to the sale of Malt Liquors.

Senator McCandless for the Committee on Public Lands, Internal Improvements, Agriculture, etc., reported on House Bill No. 99, as follows:

Senate Chamber.
Honolulu, T. H., April 9, 1903.

HON. CLARENCE L. CRABBE.
President of the Senate.

Sir:—Your Committee on Public Lands, Internal Improvements, Agriculture, etc., to which was referred House Bill No. 99, the same being an Act to Designate Two Pay-days in a Month for the Government Employees and Officials of the Territory of Hawaii, begs leave to report upon the Act.

We believe that were the system proposed adopted with relation to all officials and employees of the Territory it would prove altogether too expensive and scarcely serve to meet the end sought. We recommend that Section 1 be amended to provide that workmen employed on the public roads throughout the Territory be paid twice during each month and that as so amended the bill do pass.

Respectfully submitted,

L. L. McCANDLESS,

J. B. KAOHI,

.....

Committee.

Senator Baldwin for the Ways and Means Committee reported on Senate Bill No. 149, as follows:

Honolulu, T. H., April 11, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Bill No. 149, entitled "An Act to Regulate and License Insurance Business in this Territory," begs leave to report.

There are more than Seventy (70) Fire Insurance Companies, and several Marine and Life Insurance Companies in this Territory, and no law on the Statutes governing and regulating the Insurance business.

This Bill provides for "A Department charged with the execution of the laws relating to Insurance, to be known as the Insurance Department, the Chief Officer to be the Territorial Auditor, who shall be ex-officio Insurance Commissioner."

The Bill provides for a Tax of Two per cent. (2%) on the net gain of all Insurance Companies. The present law imposes a tax of one per cent (1%) on the gross receipts of Fire Insurance Companies only. The provision in this Bill will undoubtedly bring in more revenue than the present law. The provision for Fees in the Bill, to be paid in to the Commissioner, will also be quite a little item of revenue.

We recommend the following amendments:

In Section 4, paragraph "second", first line, before the word "Company", insert the word "Stock." In the same Section, change \$200,000 to \$100,000. In Section 7, first line, before the word "Company", insert the word "Stock." And change the amount in the same paragraph from \$200,000 to \$100,000. Strike out Section 20.

With the above amendments, your committee recommends the passage of the Bill. It is a good Bill, that will bring in considerable revenue to the Government; will regulate a business that has been increasing quite rapidly in this Territory, and will keep out bogus Companies.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Under suspension of the rules Senator McCandless for the special Committee appointed to visit the Leper Settlement reported as follows:

Senate Chamber,
Honolulu, T. H., April 10, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Special Committee charged with the duty of visiting the Molokai Settlement on behalf of this Honorable Body and reporting thereon, begs leave at this time to submit its findings and recommendations. The journey was accomplished comfortably and in good time, the steamer service being excellent. At the Settlement we were received cordially by the officials and the people generally. The persons who have been isolated at the Settlement were appreciative in the highest degree of the interest shown in their welfare. Throughout our stay they expressed confidence in the good intentions of the Legislature and appeared to speak with the utmost frankness, as they were urged to do. Your committee went over the entire Settlement, observing all its features as closely as the time and circumstances would permit. Formal sittings were had by the Committee at the Bishop Home for Girls, the Baldwin Home for Boys and at Beretania Hall. At the latter place all the petitions on Settlement subjects which have from time to time been presented to the Senate and which had been handed to your committee, were read and comments made thereon by a committee of thirty representing the Settlement population. We found the two Homes in good order and learned that they are most efficiently administered by self-sacrificing and God-fearing men and women who are entitled to unlimited commendation for their zeal, their industry, their genuine humanitarianism and the sound good judgment that they display under great

trials and on occasions requiring the utmost practice of patience and perseverance. These Homes, are so far as may be, given a marked home atmosphere, and the inmates seemed to be contented in every way with the management of each institution. It is true that complaints were heard. Every utterance or representation of a grievance was recorded by your committee and investigated to the extent of making searching inquiry. It may be remarked in passing that it is surprising that there is not much complaint made when the Legislative committees make their biennial calls, for even people in normally healthy condition and treated in the best possible manner would accumulate grievances rapidly and without the greatest possible foundation when isolated, cut off from the world as are the people of the Settlement.

We heartily endorse the recommendation of Mother Marianne, the Superior of the Bishop Home for Girls that a building be provided for her blind people and her convalescents. This is the only requisition that Mother Marianne makes and it is heartily approved by Mr. McVeigh, Superintendent of the Settlement. An item for this building is in the estimates of the Board of Health and your committee asks that the money be voted. After the statement of Mother Marianne concerning the need of this building the following questions and answers are in our record:

Mr. Aylett—Is there anything else?

Mother Marianne—I do not think there is; we should be comfortable otherwise.

Senator McCandless—Are you and your charges provided with sufficient food?

Mother Marianne—Yes; we are well provided with food.

Senator McCandless—Are you provided with enough clothing for the children of the Home?

Mother Marianne—Yes, sir.

The general prayer or petition of the inmates of this institution, in common with the entire population, was for return at once to the well-known Goto treatment. The use of this remedy has ceased quite recently. There is also an almost unanimous desire that the tua-tua treatment be given a fair and extensive trial. The people, almost without exception at the Settlement, have great faith in the Goto treatment. The most intelligent persons there, those best equipped for observation and most capable of reaching a conclusion are firm in the belief that the Goto remedy has a high and peculiar degree of efficiency. Your committee feels that even at this stage of its report it must place before the Senate the recommendation that the Board of Health be directed to resume the Goto treatment, and that a liberal appropriation be made for the expense connected therewith.

At the Baldwin Home for Boys, as at our other meeting places, the session was opened with prayer by Mr. Kaili. As at the other places, detailed announcement was made by Senator Kalauokalani and others of the purposes of the visit. The people were told that the committee was at the Settlement to secure information for the benefit of all concerned and that no person need fear to express himself wholly without restraint and without danger or peril of any sort. As before noted, all spoke with entire frankness. Brother Joseph Dutton, who for many years has been in charge of the Baldwin Home, was before your committee, and upon his appearance the following questions and answers are reproduced:

Senator McCandless: The Senate for the Legislature of the Territory has directed us to visit Molokai and to learn the wants and wishes of you people of Kalawao. I will go right to the point and ask if there is anything you wish the Legislature to do for the Baldwin Home?

Brother Dutton: Well, I do not have any special recommendations to make. There are some things concerning the improvement of the Home which will eventually have to be done. We especially want a sewerage system here.

Your committee finds that there is an item in the appropriation bill covering the estimate for a sewer for the Baldwin Home and recommends that the money be provided and that the work be entered upon without delay.

These further questions and answers we deem to properly have a place in this report:

Senator McCandless: Now, Brother Dutton, is there anything else in the line of buildings needed for the Home?

Brother Dutton: We do not need anything more.

Senator McCandless: You have shelter or rather buildings sufficient for all the people in the Home?

Brother Dutton: Yes, everything is well provided for in the way of buildings.

Senator McCandless: Are you supplied by the Board of Health with ample food for the Home—for all the inmates of the Home?

Brother Dutton: We get all we call for; we get our provisions in bulk and use our judgment in distributing or issuing.

Senator McCandless: Just what do you mean by saying that you get all you call for? Do you request the Superintendent of the Settlement for what you want—certain quantities of specified articles?

Brother Dutton: We recommend every month what we shall need when the general supplies for the Settlement are received.

Senator McCandless: When you ask for these things they are always given to you as desired by the Home?

Brother Dutton: Everything as per requisition.

Senator McCandless: Is there anything in the way of shortage of clothing for the people of the Home?

Brother Dutton: Nothing. We have a tailor shop here. We get the goods from the Superintendent of the Settlement, excepting shoes and hats; these we get from Honolulu, but the other things we make here in the tailor shop.

Your committee had heard some complaint about clothing at the Boys' Home. The material, while rough, is provided liberally and all the people there are neatly dressed. Brother Dutton and his co-workers wear the same quality of clothing in every particular as the boys.

It was at the Boys' Home also that your committee heard the first direct complaint about the quality of the paiai or poi. It was represented that there was not enough of it, that it was improperly or carelessly prepared and at times was of inferior quality. We believe that under the administration of the new Superintendent of the Settlement or, perhaps, it would be better to say under new conditions touching the supply of paiai, the faults of irregular delivery and bad quality will not be repeated. The criticism on preparation had some small foundation in an instance or two, but your committee is satisfied that there will not be any repetition of the methods complained of. The matter of quantity will be taken up later in this report.

Complaint was made that at times cattle for food were held too long in paddocks at the Settlement before slaughter. This is also a matter that we are convinced will receive better attention in the future.

Quite a number of the people at the Settlement ask that the money allowance to each person be increased from \$10 per annum to \$16. Your committee would make the recommendation that the Superintendent, under the direction of the Board of Health, make and carry out a plan of public improvement for the Settlement, such as road making, tree planting, etc., largely for the purpose of giving light employment at fair compensation to such of the people there as may care to work.

The subject of employment for certain people at the Settlement is by no means a new one. Your committee believes that the time has now arrived when the matter can be taken up and a satisfactory adjustment or arrangement made. It is highly proper where it is, your committee is convinced, such a really simple thing, that employment should be provided largely for the purpose of permitting the people at the Settlement to earn some money. Many of them are more than anxious to do this and their lot would be vastly bettered by there being at hand the opportunity to secure for themselves a little ready money. There need not be any suggestion of charity or pensioning about it, as this would be very

objectionable, but work in necessary and valuable improvement of the Settlement can and should be provided.

Postage stamps or stamped envelopes are furnished to the people at the Settlement without charge by the Board of Health. We recommend that when this item goes in the bill again it is with the special provision that the stamps or stamped envelopes be purchased of the postoffices at the Settlement instead of at the Honolulu postoffice, as was at one time the custom. This is but simple justice to the two postmasters within the Settlement.

There is pending in the Legislature an appropriation resolution calling for the sum of \$15,000 for the purpose of constructing a telephone system radiating from the Settlement to various places on the Island of Molokai. At the Beretania Hall meeting there was endorsement of this project and your Special Committee recommends that early consideration of it be given by the Senate Standing Committee to which the resolution was referred, for gathering facts sufficient on which to base a finding on the subject.

We believe that the Board of Health should take up without delay and for thorough investigation and revision the matter of the food supply for the people of the Settlement. There should be more frequent change—a more varied fare. The question of 21 or 25 pounds of paiai we believe grows, with other complaints under the same head, out of the monotony of the rations. It appears to this committee that there are no great difficulties in the way of providing more satisfactory fare without material increase in cost of maintenance. We trust that this whole matter will early receive the earnest and best attention of the Board of Health. Under this head the statement was made to the committee that the people of the Settlement could purchase goods cheaper at another store than at the Settlement store maintained under the control of the Board of Health. This is not the case at all. In fact, the prices at the official store are very reasonable—lower than at the Honolulu retail stores.

In addition to the mere mention above of tree planting as a means of affording employment, your committee would add that there should be no delay in extensive tree planting for fuel purposes. Fuel is scarce and expensive at the Settlement. There is no good reason at all for this condition, as an ample supply can be raised.

There is an item in the appropriation bill for improvement and repair of the wharf at Kalaupapa. We recommend that the money for this purpose be provided and that work begin without delay. The landing is at present in a dangerous condition and the people are at times greatly inconvenienced thereby. Enough money should be provided to construct a permanent breakwater of considerable size.

There should be provision for the encouragement of the two brass bands at the Settlement. Everything possible or reasonable should be done in the way of providing rational amusement and recreation for the people of the Settlement. In this connection we heartily endorse the recommendation of Superintendent McVeigh that a small sum of money be provided for the purchase of out-door game equipment for the girls in the Bishop Home.

The Territory has been extremely derelict in one detail of the conduct of the Settlement. Your committee feels that not another week should be permitted to elapse without the Legislature, through the Board of Health, making provision for the non-leprous boys at the Settlement. They are not at all cared for like the girls similarly situated. The latter are brought to Honolulu and receive proper attention. The boys in question are growing up without training or education. Proper provision should be made for them at once.

Your committee recommend that the matters of marriage and divorce as concerning people of the Settlement be referred to the Judiciary Committee of this Body. Your Special Committee will be pleased to supply the Judiciary Committee with certain data on the subject. The statement is made that in many cases where divorce should ensue or should be had it is impossible for those interested to go into court on account of the expense attached. Your committee would be in favor of having the fees abolished or provided for out of the Public Treasury, so far as these people are concerned.

Your Special Committee, Mr. President, found that Superintendent McVeigh and Dr. Goodhue, the resident physician, were praised in the highest terms by all the people of the Settlement, but that the desire is earnest and well founded and permanent for a speedy return to the Goto treatment. There are many who wish Dr. Goto himself to return from Japan, to be the Specialist at the Settlement, but the majority will be well satisfied if the remedies are brought on and the treatment resumed.

Your Special Committee was extremely fortunate in having with it on the visit Hon. W. O. Smith, for many years connected with the Board of Health, and the Hon. Jonah Kallaniana'ole, Delegate to Congress, both of whom addressed the people to good purpose.

On the 9th inst. your Special Committee paid a visit, on behalf of the Senate, to the Kalihl Receiving Station and found everything in good order. The needs of this establishment, which are urgent, and which will, it is sincerely hoped, be provided for in the appropriation bill, are, briefly:

A new room for examinations. A new building for inmates.
A group of new cottages for "suspects."
All of which is respectfully submitted.

entitled "An Act to amend Chapter 57 of the Session Laws of
1892, entitled 'An Act to Reorganize the Judiciary Department'
by adding thereto a new Section to be called Section 43a, pro-
viding for the enforcement of decrees in equity."

Under suspension of the rules Senator C. Brown introduced
a bill entitled "An Act to amend Chapter 57 of the Session
Laws of 1892, entitled 'An Act to Reorganize the Judiciary
Department' by adding thereto a new Section to be called
Section 43a, providing for the enforcement of decrees in
equity."

Senator C. Brown moved that the bill pass first reading and
be referred to the Printing Committee for translation and
printing. Seconded by Senator J. T. Brown and carried.

Under suspension of the rules Senator Dickey for the Com-
mittee on Miscellaneous Petitions reported on Senate Bill No.
159, as follows:

Honolulu, Apr. 9, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which
was referred Senate Bill No. 159, in regard to explosives
begs leave to report.

The purpose of the bill is to protect the public against the
dangers from explosives and to amend the present law so
that partnerships and corporations will be liable as well as
individuals for infringements of the law.

In the matter of storage of fuel oils your committee made special investigations and learned that the danger therefrom was very slight as the degree at which these oils flash was 243 Fahrenheit, and therefore it would be very difficult to ignite them by ordinary means. However, as the danger would be great if, by any means, such as a conflagration in the neighborhood, the oil should ignite, your committee has thought best to recommend an amendment providing for an earth wall around tanks used for storing such oils. The dimensions of the earth walls are based upon the opinions of experts.

Your committee recommends the following amendments:

1. Section 1, Line 10, strike out the word "for" and insert the word "by."
2. Same Section, after line 13, add the words "provided that all such tanks shall be surrounded by earth walls placed at such a distance from the tanks as to enclose a space capable of containing the entire contents of such tanks. Such earth walls shall be at least three feet wide at top, four feet high and eight feet wide at bottom."
3. Section 4, Line 1, strike out the words "as amended" and insert in place of same the words "added thereto by."
4. Section 7, Line 7, strike out the word "refused" and insert the word "refunded."
5. Section 9, Line 4, strike out the words "Before a District Magistrate."
6. Same Section, Line 5, strike out all the balance of the Section after the words "or more than" and insert the words "One Thousand Dollars." (This amendment is proposed for the reason that it is impossible to imprison a corporation, and by raising the maximum fine to One Thousand Dollars, a penalty can be inflicted commensurate with the misdemeanor.)
7. Section 14, Line 19, put a period after the word "rests"; strike out the words "and its" and insert the word "the", also insert in same line after the word "sides" the words "of such magazines", so that the sentence shall read: "The base and sides of such magazines shall be water-tight."

With these amendments your committee recommend that the bill pass.

Respectfully submitted,

C. H. DICKEY, Chairman,
D. PAUL R. ISENBERG,
S. E. KAUE.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator C. Brown moved that the report of the committee be adopted. Seconded by Senator Woods and carried.

Senator C. Brown for the same committee reported on Senate Bill No. 155, as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 155, report that the Bill seeks to amend the existing general railroad law as to condemnation proceedings. There is some question as to the constitutionality of the existing general railroad law; we think that the proposed amendments will settle that question. The amendments provide that the value of the land shall be arrived at by a jury, and prescribes the procedure to be taken in cases where an agreement cannot be reached, or where the owner is unknown, absent or a minor.

We recommend the passage of the Act with the following amendments: Strike out Section 1, as we believe Section 5 of the general railroad law which this Section amends is more definite and explicit in its terms than the amendments in Section 2. Strike out Section 5a and insert in its place the following:

"Section 5A. Any Railroad corporation doing business under the Laws of the Territory of Hawaii now organized or hereafter to be organized, may purchase and acquire any land, easement, right, license or other interest in land required by it for railroad purposes, for a price to be agreed upon by the owner thereof; when such price cannot be agreed upon the compensation to be paid by such corporation for any land or interest therein taken or injuriously affected for the purposes herein named, shall be ascertained and determined as hereinbelow provided. Any such corporation desiring to build, extend, add to or change any line of railroad between any points in the Territory of Hawaii shall file a plan of the proposed location of such railroad or of any proposed extension, addition to or change of location of any existing road with the Superintendent of Public Works and shall obtain his approval therefor before proceeding with such undertaking. The Superintendent of Public Works shall have power to authorize the crossing of any street or road in this Territory by any railroad at grade or otherwise, in such place or places as to him shall seem necessary. The decision of the Superintendent of Public Works shall be final as to all questions concerning the location of railroads and of the necessity of including any parcel of land in such location."

This amendment provides that any corporation now or hereafter existing, may take advantage and benefit of the Act, and provides also the procedure to be taken for the changing of, adding to, building or extending its line.

In Section 2 we recommend that the words "with the consent of the Superintendent of Public Works" be stricken out, as we think the power of raising money by pledge or mortgage of its property should not be made subject to the consent of that officer.

Section 5, strike out the word "publication" and insert "approval."

Honolulu, April 13, 1903.

Respectfully submitted,

CECIL BROWN,
W. C. ACHI,
PALMER P. WOODS.

Executive Chamber,
Territory of Hawaii,
Honolulu, Apl. 13th, 1903.

To the Legislature of the Territory of Hawaii:

I am unable to approve of a Bill entitled "An Act for the incorporation of societies for the prevention of cruelty to children," received from the Joint Committee of the Legislature, April 4th, and herewith return the same without my signature.

My objections to this Bill are as follows:

Section 2 of the said Bill provides that the persons qualifying, as required in the previous Section, and their associates and successors, shall be a "body politic incorporate," which words convey a status inappropriate to a private corporation, inasmuch as a body politic incorporate is a corporation partaking of the governing powers of the State,—as a municipal corporation.

Section 5 contains clerical errors, which, although not changing or destroying the meaning of the Section, should be corrected.

HOUSE CONCURRENT RESOLUTION NO. 11.

Whereas, tenders were called for by the Superintendent of Public Works for curbing the walks of Thomas Square, and
Whereas, the lowest tender received for said work was \$1,086.75 from C. B. Dwight, and

Whereas, the Auditor had notified the Superintendent of Public Works that the work cannot be charged to the appropriation of "Curbing and Paving Government Sidewalks", and

Whereas, the said Contractor has commenced work and the non-payment of the amount of said contract upon the completion of said work would be a hardship to him.

Now, Therefore, be it Resolved by the House of Representatives, the Senate Concurring, That the Superintendent of Public Works is hereby authorized to pay out of the Appropriation for "Curbing and Paving Government Sidewalks" the above amount of \$1,086.75 to the Contractor upon the completion and acceptance of said work by the said Superintendent of Public Works.

Senator Achi moved that the resolution be referred to the committee on Public Lands, Internal Improvements, Agriculture, etc. Seconded by Senator Dickey and carried.

Senator C. Brown for the Conference Committee on Senate Bill No. 1 reported as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Joint Conference Committee to whom was referred Senate Bill No. 1, commonly known as the County Bill, report that they have been in session and have had the differences between both branches of the Legislature under consideration and have agreed upon a settlement of such differences and amendments made by the House of Representatives, to such Bill.

The Conference Committee adopted and concurred in the amendments made as follows:

1st. The title to the Bill to be "An Act providing for the Organization and Government of Counties and Districts and the Management and Control of Public Works and Public Institutions therein."

2d. In sub-division "a" of Section 1, strike out the words "within a limit of three nautical miles of the shores thereof", after the word "Islands" on page 1, and insert in their place the words "of the Territory not included in any other County, and the waters adjacent thereto." This amendment places all other islands included within the area composing this Territory that lie without the three nautical mile limit within the jurisdiction of the County of Oahu.

3rd. In Sub-division "b" of Section 1 on line 8, page 2, after the word "thereof" insert the words "and the waters adjacent thereto."

4th. In Sub-division "c" after the word "thereof" on line 18 insert the words "and the waters adjacent thereto."

5th. In Sub-division "d" between the words "thereof" and "shall" insert the words "and the waters adjacent thereto."

6th. In Sub-division "e" between the words "thereof" and "shall" insert the words "and the waters adjacent thereto."

7th. Section 13 we recommend read as follows:

"Section 13. The County of Oahu shall have a Board of Supervisors consisting of seven members, two members thereof to be elected from the Fourth District, two members from the Fifth District and the remaining three to be elected at large, and without regard to their place of residence within said County. Each other of the several Counties of the Territory shall have a Board of Supervisors consisting of five members.

"The pay of Supervisors of each County for the services rendered by them shall be Fifty Dollars a month for each Supervisor to be paid out of the County Funds."

8th. We recommend amending Section 14 by inserting at the beginning thereof the following words "Except for the County of Oahu."

9th. We recommend amending Section 15 by inserting after the words "Supervisors of the County" the following words "the remaining members shall fill the vacancy; but in the case of a tie the Governor of the Territory shall fill the vacancy", and by striking out after the word "County" the following: "Governor of the Territory shall fill the vacancy."

10th. In Sub-division 6 on page 17, and sub-division 12 on page 18 of Section 22, line 6, of Section 31, and in line 5 of Section 32 on page 25 insert in after the words "four-fifths" wherever they may occur, the words "or six-sevenths vote order as the case may be." This amendment is made necessary by reason of the change in the number of Supervisors for the County of Oahu.

11th. In Section 46, line 7, page 32, insert after the words "United States" the words "and the laws of the Territory of Hawaii."

12th. In Section 48 strike out the words "members of the Road Board." This amendment is made necessary by reason of doing away with the Road Boards as now constituted and placing the care, maintenance and repairs of roads and bridges in the hands of the Board of Supervisors, who will appoint a Road Supervisor for each County or District as the case may be.

13th. In Section 52 on the last line strike out the word "Governor" and insert the words "Board of Supervisors"; this places the appointment of District Magistrates with the Board and takes the power from the Governor.

14th. Section 181 of Chapter 21, after the words "County Clerk" insert the words "and Recorder." This simply amends the title to this Chapter to agree with the rest of the Act.

15th. Amend Section 181 by adding a new sub-division thereto to be called 3, and to read as follows:

"3. And be the Recorder of the County and discharge all the duties of that office as provided by Chapter 18 of this Act."

16th. Amend the title to Chapter 23 by striking out the words "Road Board and" and in Section 184 strike out the words "Road Board and" at the commencement of that Section.

17th. Amend Section 199 by striking out the words "one thousand" and inserting in their place "eighteen hundred": this places the exemption allowed in making income tax returns at eighteen hundred dollars instead of one thousand.

18th. Amend Section 303 by striking out the words "twenty-five" and insert "fifteen" in their place; this makes the annual fee for a billiard or bowling alley \$15 instead of \$25.

20th. Amend Section 316 by striking out the word "ten" and inserting the words "twenty-five"; this makes the annual fee to butcher or sell pork \$25 instead of \$10.

21st. Amend Section 329 by striking out the word "ten" and inserting the word "five." This reduces the annual license fee of a Notary Public to \$5.

22nd. Amend Section 356 in the third paragraph thereof by inserting after the words "published in" the following: "the County, in English or Hawaiian; but, if no newspaper is published in the County, then by posting such notice in three conspicuous places in the County, one of which shall be the County Court House," and strike out the word "English" after the words "published in."

23rd. Amend the title to Chapter 58 by striking out the word "cake" and add a new Section to be called

"Section 359A. The annual license to peddle merchandise shall be Fifty Dollars."

And in Section 360 after the word "cake" insert the words "or merchandise."

24th. Amend Section 370 by striking out on the second line after the word "Road" the following words "Board consisting of three members for each District within its County. The members of the Road Board shall serve without compensation"; and insert in their place the words "Supervisor for each District within its County who shall receive such compensation as such Board may determine."

25th. Amend Sections 371, 372, 373, 374, 375, 376, 377, 378 and 379 as recommended by the House amendments. The amendments so made and adopted by the Conference Committee are made necessary by reason of doing away with the

Road Boards and placing the work and duties heretofore performed by them with a Road Supervisor under the control and direction of the Supervisors.

26th. Amend Section 475 by striking out after the words "to be filled" all the rest of the Section, and inserting in the place thereof the following words "according to the manner provided in Section 15, Chapter 5, of this Act relating to the Board of Supervisors."

We, therefore, recommend that Senate Bill No. 1 providing for the organization and government of Counties, be amended as herein recommended, and that this report be adopted by the Senate and House of Representatives respectively.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 138, as follows:

Honolulu, T. H., April 14th, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred Senate Bill No. 138, has had the same under consideration.

The Act is the same as the present law, except that the words referring to importation are stricken out.

It has been called to the attention of your committee that the law as it stands prohibits the use of gasoline lamps, gasoline launches, etc. The law has been a dead letter, as gasoline is in general use for many purposes in the Territory.

The safety of the public is well guarded by the laws of the United States in regard to transportation of explosives, and the laws of the Territory in regard to storage and sale of kerosene, petroleum, naphtha or gasoline.

Your committee recommends the following amendments:

Amend title to read "An Act to repeal certain Laws relative to Liquid Explosives."

Amend Section 1 by inserting in line 2 after the word "Laws" the words "and Section 1 of Chapter 22 of the Laws of 1878 (Penal Laws, Section 1519) are", also to strike out the word "is" in same line.

Amend Section 3 by making it read Section 2.

With these amendments your committee recommend the passage of the Act.

Respectfully submitted,

C. H. DICKEY, Chairman.
D. PAUL R. ISENBERG,
S. E. KAIUE.

Senator Dickey moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator McCandless and carried.

Senator Baldwin for the Committee on Ways and Means reported on the Petition from H. W. Almy as follows:

Honolulu, T. H., April 14, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred a Petition from H. W. Almy for the return of \$693.22, for the unexpired term of a license to sell liquor at the Walkiki Inn, begs leave to report.

The petitioner submits the following facts: that while in charge of the Walkiki Inn, he, on October 31st, 1901, obtained a retail license to sell liquor; that on February 3rd, 1902, the lease and furniture of the Walkiki Inn were sold under fore closure proceedings to L. H. Dee, who took out another liquor license in his own name; that he tendered the surrender of his unexpired license to W. H. Wright, Treasurer of the Territory, with the request that he issue a new license in the name of L. H. Dee for the unexpired term. This the Treasurer refused to do, on the ground that there was no law that would permit him to do so.

The petitioner states that since that time the license for the Maile Saloon on King Street, in the name of C. H. Brown, was surrendered, and a new license for the same premises was issued in the name of John D. Holt, for the unexpired term.

For the above reasons the petitioner requests that \$693.22 be refunded to him for the time his license was not used, as during that time the business was carried on at the Waikiki Inn under the license of L. H. Dee.

The law does not allow the Treasurer to take the surrender of any license issued to sell liquor, or for any other purpose, and refund the holder for the unexpired term of the license. Money received and turned into the Treasury for Licenses is turned in as a Government Realization, and cannot be paid out again, except by appropriation of the Legislature. Nor does the law authorize the Treasurer to transfer a license issued in the name of any party to another party for an unexpired term of the same, and it has not been the practice to do this.

As stated in the petition, a license to sell liquor was granted in 1902 to C. H. Brown, and shortly after, transferred to J. D. Holt. It appears that C. H. Brown and J. D. Holt were partners under this license, but as a license cannot be issued in the name of a partnership, it was issued in the name of C. H. Brown. The partners quarrelled and Brown, wishing to withdraw from the business, the Treasurer allowed him to surrender the license, and another was issued in the name of J. D. Holt.

It is seldom, however, that the Government has transferred licenses, but they have often permitted the licensee to change the place at which he is permitted to sell liquor under the license, and would undoubtedly have granted this privilege to H. W. Almy, had he made the request.

It is the opinion of your committee that it is not wise for the Government to transfer licenses that have been issued, or for the Legislature to establish the precedent of refunding a licensee for the unexpired term of his license, which for reasons of his own he may throw up.

We do not recommend the granting of the petition.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator Achi moved that the report of the committee be adopted. Seconded by Senator Paris and carried.

Senator C. Brown for the Judiciary Committee reported on House Bill No. 5, as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred House Bill No. 5, report that they have had same under consideration. The Act was introduced for the purpose of providing for the drawing, summoning and empanneling of grand and trial jurors, and to repeal existing law, in order that a law be on our statute book that would conform to the Organic Act and follow the changed conditions caused by annexation and made necessary by that event. This law has had the scrutiny and examination of the Chief Justice, a Circuit Judge and a committee of the Bar Association of the Territory, and has their recommendation as being necessary and proper legislation. We, therefore, recommend the passage of the Act.

Honolulu, April 14, 1903.

Respectfully submitted,

CECIL BROWN,
W. C. ACHI.

Senator Baldwin moved that the report of the committee be adopted. Seconded by Senator C. Brown and carried.

Senator C. Brown for the same committee reported on House Bill No. 69, as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred House Bill No. 69, report that the Act in question amends Section 1 of Act 20 of the Session Laws of 1901, by raising the exemption allowed every person in making returns for Income Tax from One Thousand to Two Thousand Dollars. As the County Bill which has been in conference places the exemption at \$1,800, we recommend that the Act, if taken up for consideration, be amended by striking out the words "two thousand dollars" and inserting in their place the words "eighteen hundred dollars" to make this law agree with the County Bill. But, as the County Bill has already amended the law in this particular, it is hardly necessary to pass the bill now under consideration; it will do no harm, however, to pass it. We leave the matter with the Senate.

Honolulu, April 14th, 1903.

Respectfully submitted,

CECIL BROWN.

We believe under the circumstances the bill ought to be laid on the table.

W. C. ACHI,
PALMER P. WOODS.

Senator Isenberg moved that the majority report of the committee be adopted. Seconded by Senator McCandless and carried.

Senator Isenberg for the Special Committee, to which was referred House Bill No. 157, reported as follows:

President of the Senate.

Sir:—Your Special Committee, to whom was returned House Bill No. 157, beg leave to recommend the following amendments to the Bill:

Respectfully submitted,

D. PAUL R. ISENBERG,
Chairman.

C. H. DICKEY,
S. E. KAIUE,
CECIL BROWN,
JOHN T. BROWN.

Amend second line of Section 1 by inserting between the word "Purchase" and the word "for" the following, to-wit: "or otherwise acquired."

Strike out Section 2 and insert in lieu thereof the following, to-wit:

"Section 2. Said Superintendent of Public Works shall acquire said water and land of the owners thereof together with any right of way for pipe line to convey said water to the Government main."

Strike out Section 3 and insert in lieu thereof the following, to-wit:

"Section 3. The said Superintendent of Public Works may in his discretion furnish any tenant having irrigation privileges with water in lieu of acquiring by condemnation their rights as

tenants therein, and may charge rates thereof against the owners of said land at regular government water rates for the unexpired terms of their outstanding leases."

Insert new Section as follows:

"Section 4. The sum of \$150,000 is hereby appropriated for the purpose of acquiring the water and land aforesaid. And the Superintendent of Public Works is directed to make the purchase as promptly as possible, approving vouchers for the amounts due the various owners for the purchase of their shares immediately after the same is ascertained. Warrants shall issue immediately on the same and be paid by the Treasurer from the first funds in the Treasury not required by the current expenses of the Territory."

"Section 5. The sum of \$5,000 is hereby appropriated for the purpose of acquiring a site in Pauoa Valley for a reservoir for said water."

"Section 6. This Act shall take effect upon the day of the date of its approval."

Senator C. Brown moved that the report be referred to the Clerk to have the bill typewritten and that the bill be made the special order of the day for tomorrow. Seconded by Senator J. T. Brown and carried.

Senator Achi introduced a Joint Resolution that the Secretary of the Territory be instructed to have 2,500 copies of the County Bill printed in both the English and Hawaiian languages, as follows:

CONCURRENT RESOLUTION.

Be it Resolved by the Senate, the House of Representatives concurring. That the Secretary of the Territory is hereby authorized to print the County Act at 2,500 copies each in Hawaiian and English after it is approved by the Governor, and distribute the same in the Territory, charging nothing for the same; the expenses of the same to be inserted in the Appropriation Bill.

The Senate re-convened at 1:30 o'clock.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 172, as follows:

Honolulu, T. H., April 15, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred Senate Bill 172, entitled "An Act to amend Acts regulating the practice of Medicine in the Territory of Hawaii," has had the same under consideration.

The only change from the present law is to provide a penalty to cover infringements of the law.

Your committee recommends the passage of the law with the following amendments:

Amend the title by striking out the word "Acts" and inserting in place thereof "Act 60 of the Laws of 1896."

Section 1. Insert the words "Section 1" at beginning of same. Strike out the word "proper" in line 6 and insert the word "prepared."

Strike out the words "\$250.00" in line 11 and insert the words "\$100.00."

Insert at beginning of line 3 the words "Section 6."

Let Section 1 end at close of line 11, and another Section be made of the balance, called Section 2.

Respectfully submitted,

C. H. DICKEY, Chairman.

D. PAUL R. ISENBERG,

S. E. KAIUE.

Senator Dickey moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator C. Brown and carried.

Senator Dickey for the same Committee reported on Senate Bill No. 171, as follows:

Honolulu, T. H., April 15, 1903.

HON. CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred Senate Bill No. 171, has had the same under consideration.

The Act is for the purpose of making a general law on the subject of appropriations so that it will not be necessary to add it at the end of each appropriation bill. The Act also extends the provision to County and Municipality Officers.

Your committee recommends the passage of the bill.

C. H. DICKEY, Chairman,

D. PAUL R. ISENBERG,

S. E. KAIUE.

Senator McCandless moved that the report of the committee be adopted. Seconded by Senator Dickey and carried.

Senator Dickey for the same committee reported on Senate Bill No. 169, as follows:

Honolulu, T. H., April 15, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred Senate Bill No. 169, entitled "An Act authorizing foreclosure and sale to enforce the lien of shipping companies and other common carriers", has had the same under consideration.

The intention of the law is to enable shipping companies and common carriers to sell goods not called for within a certain time after due advertisement.

The law is similar to the law in most of the States and Territories.

Your committee is of the opinion that the length of time allowed for non-perishable goods is too short, otherwise it is in favor of the bill.

Your committee recommends the passage of the bill, with the following amendment:

Strike out in Section 1, line 6, the word "thirty" and insert in place thereof the word "ninety."

Respectfully submitted,

C. H. DICKEY, Chairman,
D. PAUL R. ISENBERG,
S. E. KAIUE.

Senator Wilcox for the Committee on Health and Education reported on Senate Bill No. 166, as follows:

Sir:—Your Committee on Health and Education, to which was referred Senate Bill No. 166, entitled "An Act to Regulate the Practice of Pharmacy and the Selling, Compounding and Dispensing of Drugs, Chemicals and Poisons in the Territory of Hawaii", have had the same under consideration.

Your committee finds that this Act is a very necessary one to be passed as a protection against the indiscriminate sale of poisonous drugs by irresponsible people.

Your committee recommend the passage of this Act.

Respectfully submitted,

S. W. WILCOX,
PALMER P. WOODS.

Senator J. T. Brown moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator C. Brown and carried.

Senator McCandless for the Committee on Public Lands, Internal Improvements, Agriculture, etc., reported on House Concurrent Resolution No. 11, as follows:

Senate Chamber,
Honolulu, T. H., April 15, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Public Lands, Internal Improvements, Agriculture, etc., to which was referred House Concurrent Resolution No. 11, begs leave to report upon the same. We find the facts to be as stated in the resolution passed by the House and sent up by that body to the Senate for concurrence. The purpose of the resolution is to permit the Superintendent of Public Works to pay for certain improvements at Thomas Square park out of an appropriation for "Curbing and Paving Government Sidewalks," the work in question being of this nature. The Auditor of the Territory takes the position that he cannot approve the account unless by special authorization for the reason that the work is not strictly on sidewalks, but is for pathways within the enclosure of Thomas Square. While this is the exact fact, we believe that the spirit of the law for public improvements is not being violated in making the payment in question as proposed by the Superintendent of Public Works.

Your committee, therefore, recommends that the Senate do pass House Concurrent Resolution No. 11 as already passed by the House.

Respectfully submitted,

L. L. McCANDLESS,
J. D. PARIS,
J. B. KAOHI.

Senator C. Brown moved that the report be adopted. Seconded by Senator McCandless and carried.

Senator Paris on behalf of the Ways and Means Committee reported on Senate Bill No. 167, as follows:

Senate Chamber,

Honolulu, T. H., April 15, 1903.

HON CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Standing Committee on Ways and Means, to which was referred Senate Bill No. 167, begs leave now to report upon the same, having given it careful consideration. The salient feature of this proposed law is the provision for licensing certain foreign corporations doing business within the Territory of Hawaii. The constitutionality of this Act having been questioned your committee investigated that phase of it. The result was discovery that a similar law had been enacted by the Legislature of the State of Pennsylvania and upon having been carried through the Courts for test had been declared constitutional by the Supreme Court of the United States. The decision was by Mr. Justice Field.

We find that apparently this Pennsylvania law has been consulted in the preparation of Senate Bill No. 167. We believe that the practice proposed by this bill is good public policy both in adding to the revenue and placing some protection around the local merchant who pays heavy taxes, licenses, various other demands upon his resources and running expenses greatly in excess of the expenses incident to the conduct here of a branch of a foreign corporation, the latter often being little more than a sample room.

We recommend the passage of this Bill, but with the following amendment:

After the words "license fee shall have been paid" in line 8, as it reads in the printed bill, add the words "Provided, that if the fee as so computed does not amount to the sum of \$150, then such corporation shall be required to pay for said license the sum of \$150."

Respectfully submitted,

J. D. PARIS,
S. E. KAIUE.

Committee.

Senator C. Brown moved that the report of the committee be adopted. Seconded by Senator Achi and carried.

Senator Isenberg for the Special Committee on Pahoa Water Works reported on Senate Bill No. 154, as follows:

Honolulu, H. T., April 15th, 1903.

HONORABLE CLARENCE L. CRABBE,

President of the Senate.

Sir:—Your Special Committee, to whom was referred Petition relating to Pahoa Water Works, and also Senate Bill No. 154, beg leave to report as follows:

We have had experts examining the Pumping Plant of the Pahoa Water Works and find the pump itself in very good condition. We also had a test made of twenty-six hours, and find that it costs \$11.76 to pump a million gallons. This item is a little high, as the Engineer could not, at such short notice, engage expert firemen, and had to use a green man who used a good deal more coal than a good fireman would have done.

Your committee also had some of the 18-inch steel rivetted pipe uncovered, and find same to be in perfect condition. The same is buried at a depth of from 3 feet to about 12 feet in places, and as long as it is covered it will last a good many years more. This was given to the committee by expert testimony.

Your Committee, with an expert Engineer, have figured out that the value of the different pipe lines, valves and fittings, etc., amounts to about \$24,450, two artesian wells, \$5,000, pumping plant, \$32,000, one and one-half acres of land where the pump and reservoir are on, \$3,000; laying pipe lines, freight, materials, etc., would amount to about \$12,000, making the value that the expert gives your committee about \$76,450.

We have not taken into consideration the reservoir at all, as we do not consider it of any value. It would take a good deal of money to have the same fixed up.

The water from the artesian wells has been analyzed by E. C. Shorey, the Government Chemist, and has been compared with other analyses made by Mr. Shorey of the waters

at Beretania Street Pumping Station, Kalihi Pumping Station and private wells, and is found to contain the smallest amount of mineral matter, and to be the most suitable for drinking purposes of any of the artesian wells of Honolulu.

Your Committee further find that at present 52 owners of property are paying water rates amounting to \$2,313 per annum. There are a great many more lots that have been sold, but which have not been occupied, and when occupied will increase the revenue on the Kaimuki land a great deal more. There is also a Petition before the Committee from the people living at Moiliili asking for water privileges from Pahoa Water Works. These residents have now no water facilities from the Government, and are very anxious to have water.

4,500 feet of 12-inch cast iron pipe, at an estimated cost of \$15,000 would connect the 18-inch main of the Pahoa system on the Kapahulu Road with the Waikiki system of the Honolulu Water Works at the junction of Leahi Avenue and Kapahulu Road.

As the committee in its former report did not favor the Government putting up any more pumps, we think it a necessity that the Government should take over these water works. The development of the Waikiki and Kaimuki sections of Honolulu necessitates the expansion of the said water works in those sections.

We, therefore, recommend that Senate Bill No. 154 be amended to read as follows: That in Section 1 the words \$100,000 be stricken out and \$76,450 be inserted in its place. In Section 2, \$100,000 be stricken out and \$76,450 be inserted in its place. With these amendments we respectfully recommend that Senate Bill No. 154 pass.

Chairman.

Honolulu, H. T., April 16th, 1902.

HONORABLE CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Special Committee, to whom was referred the item of \$150,000 for Reservoir site at Nuuanu Valley, and also to whom was referred the item of \$60,000 for a Filtration Plant at the same place, beg leave to say that after careful examination by the committee, together with experts, of the sites where this reservoir was to be built, they have come to the conclusion that it would be impracticable to build such a large reservoir, and, therefore, recommend that \$75,000 be appropriated for a smaller reservoir up Nuuanu Valley.

They also recommend that the item for a Filtration Plant be reduced to \$30,000. They find out from expert testimony that for \$30,000 a good Filtration Plant can be built, and, therefore, move that the item of \$150,000 be stricken out and \$75,000 be put in its place, and that the item of \$60,000 be stricken out and \$30,000 be put in its place.

With these amendments we move that the items pass in the Loan Bill.

Senator Baldwin moved that the Judiciary Committee be appointed as a Conference Committee on Senate Bill No. 79. Seconded by Senator Kalauokalani and carried.

Senator Baldwin for the Ways and Means Committee reported on House Bill No. 142, as follows:

Honolulu, T. H., April 18, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred House Bill No. 142, entitled "An Act to amend Sections 3 and 10 of Act 21 of the Session Laws of 1893 relating to an Act to prohibit Gambling and Gaming", have had the same under careful consideration.

Section 3 of Act 2 is amended by leaving out the words "or understood to be" and also the words "any ticket, chance share or interest in or dependent upon the event of."

Your Committee considers that the Section is improved by the proposed amendments.

Section 10 of the same Act is amended by adding the words "or both in the discretion of the Court." Section 10 now on the Statutes reads: "Every person guilty of a misdemeanor provided in this Act shall be punishable by a fine of not more than One Thousand Dollars (\$1,000.00) or by imprisonment at hard labor not exceeding one year."

The amended Section would leave it optional with the Judge to impose both fine and imprisonment.

We recommend the passage of the Bill.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator Baldwin moved that the report of the committee be laid on the table to be considered with the bill. Seconded by Senator McCandless and carried.

Senator Baldwin for the same committee reported on Senate Bill No. 182, as follows:

Honolulu, T. H., April 18, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred Senate Bill No. 182, entitled "An Act relating to Stamp Duties, amending and repealing certain provisions on that subject", begs leave to report.

This Bill repeals certain Sections in the Civil Laws relating to Stamp Duties that are obsolete, and amends other Sections. in order to conform to the conditions under Annexation.

This Bill is recommended by the Chief Justice and the Bar Association.

We recommend its passage.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
S. E. KAIUE.

Senator Wilcox moved that the report of the committee be adopted. Seconded by Senator Dickey and carried.

Senator Dickey for the Committee on Miscellaneous Petitions reported on Senate Bill No. 186, as follows:

Honolulu, T. H., April 17, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions, to which was referred Senate Bill 186, relating to License to sell Malt Liquor, has had the same under consideration.

The Bill covers the Governor's objections to the Act to license the retail sale of Malt Liquors, and which was passed over his veto, except the following:

The Governor in his veto message stated that the police should have the right to enter the licensed premises at any time without warrant. The Bill in Section 3 provides that they may enter "upon search warrant issued therefor." To meet the Governor's objection these last words should be stricken out and the words "without search warrant" be inserted in line 5, after the word "liquors."

Your committee recommends this amendment.

The Governor states that a provision should have been inserted protecting residence districts, and intimates that 150 feet is too small a distance from schools and churches.

The amendment requested by the Commandant of the Federal forces in the Territory is also on this line.

Your committee offers the following amendment covering these points:

Insert a Section after Section 4, as follows:

"Section 5. No license under this Act shall be issued for a place within a radius of half a mile from the Headquarters of the Commanding Officer of any Military Post established in this Territory by the United States Military authorities, nor

Sir:—Your Special Committee, to whom was referred items in the Loan Act in regard to building for High Lift Pump, Beretania Street, \$28,000, High Lift Pump, Contract June 15, 1900, \$17,000, High Lift Reservoir and Pipe, \$25,000, purchase of 100,000 feet of cast iron pipe, \$175,000, beg leave to report as follows:

That your Committee recommends that the item High Lift Pump, Honolulu Iron Works Contract, June 5th, 1900, \$17,000, be paid. This is one of the contracts that were made by the then Superintendent of Public Works, the idea being that this pump should be put in alongside the Beretania Street Pump.

Your Committee has recommended that the Government sell this pump as soon as possible, and recommend that the two other items of building for High Lift Pump and High Lift pipe be stricken out.

The purchase of 100,000 feet of cast iron pipe to remain as it is in the Bill, as a great many streets have no pipe connection now, and it is the intention of the Government to connect all these different streets with pipe.

Senator Achi for the Judiciary Committee reported on Senate Bill No. 176, as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—Your Judiciary Committee, to whom Senate Bill No. 176 was referred, respectfully report as follows:

The above Bill consolidates eight or more former laws which are included in Civil Laws Sections 896, 1114, 1115, 1116 and amends the same by including in the District of Honolulu all islands not included in any other District.

This Bill also makes certain what is at least left in doubt by the County Act, as to whether Civil Laws Sections 1114 and 1115 are to continue in force.

There are only few changes in the bill from the old laws.

A. The Governor has appointed a Judge for Kalawao and Kalaupapa, and we believe it is a good move, so we make it a separate District.

B. In the olden times Honuaula was a different Judicial District from Walluku, but lately on account of the appointee being a Walluku man, the two Districts of Walluku and Honuaula were made into one District; but we understand that said appointee is now dead, and we further believe an appointee for a Judgeship should be appointed from a resident of the District. We separate Honuaula from Walluku, and add Kahikinui and Kahoolawe to the District of Honuaula, because Honuaula is more convenient to the people of Kahikinui than Kipahulu.

Your committee recommends the following changes in the Bill in order to agree with the conditions now:

1st. Change the word "Six" in line 16, page 2. to "eight." Strike out the words "and also including Honuaula and Kahoolawe" in line 19, page 3.

Strike out the word "Kahikinui" in line 21, page 3.

Strike out the words "and Kahikinui" in line 23, page 3.

Insert the word "and" between "Kipahulu" and "Kaupo" in same line.

Add at the end of line 27, page 3, the words "except Kalawao and Kalawao."

Insert new lines after line 28, as follows:

28a. 7. Honuaula, Kahikinui and Kahoolawe to be called the Honuaula District.

28b. 8. Kalaupapa and Kalawao to be called the Kalaupapa District.

Change the word "five" in line 29, page 3, to "six."

Strike out all after the first word in line 32, page 3.

Insert a new line after line 36, as follows:

6. Waiānae.

Insert the word "twentieth" between the words "the" and "day" in Section 3.

Insert the word "after" in place of the word "of" in Section 3.

With the above amendments we recommend that the Bill may be passed.

Respectfully submitted,

CECIL BROWN,
W. C. ACHI,
PALMER P. WOODS.

Territory of Hawaii.

I have the honor to herewith transmit House Bill No. 8, entitled "An Act to repeal Sections 917, 920, 922, 924 and 925 of the Penal Laws as compiled in A. D. 1897, relating to vaccination, and to prohibit the Board of Health from making and proclaiming any rules or regulations whereby children may be compelled to be vaccinated," which passed its Third Reading in the House of Representatives, Territory of Hawaii, this 20th day of April, A. Senator C. Brown for the Judiciary Committee reported on House Bill No. 145, as follows:

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee, to whom was referred House Bill No. 145, report that the Bill authorizes the issuing by District Magistrates of Commissions to take testimony and depositions of witnesses in cases pending before them where such witnesses are non-residents in their jurisdiction.

There is no doubt that the several District Magistrates have now no such power. Section 1528 of the Civil Laws, which is Section 1248 of the Civil Code, only gave that power in equity, admiralty and probate matters, and Chapter 33 of the laws of 1876 conferred it upon Courts of record; we think the power

should be vested in the District Magistrates, and that it will facilitate the practice and decisions of cases in those Courts, and therefore recommend the passage of the Bill .

Honolulu, April 21, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator Dickey moved that the report of the committee be adopted. Seconded by Senator J. T. Brown and carried.

Senator Kalauokalani moved that the bill be read third time tomorrow. Seconded by Senator Nakapaahu and carried.

Senator C. Brown for the same committee reported on House Bill No. 141, as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee, to whom was referred House Bill No. 141, report that the Act amends Section 370 of the Penal Laws by changing the punishment inflicted from six to twelve months; we believe that the increase in punishment will be beneficial and tend to prevent the increase in the class of misdemeanors set forth in the law as now existing, and therefore recommend the passage of the Bill.

Honolulu, April 21, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator Dickey moved that the report of the committee be adopted. Seconded by Senator Kalauokalani and carried.

Senator Kalauokalani moved that the bill be read third time tomorrow. Seconded by Senator J. T. Brown and carried.

Senator C. Brown for the same committee reported on Senate Bill No. 179, as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 179, report that the object of the Act is to make changes in the existing law in relation to the Treasurer's Office, made necessary by the Organic Act, the Audit Act, Tax

laws and the County Bill. The amendment to Section 469 of the Civil Code, Civil Laws Section 655, is made necessary by the Organic Act and Tax law; under the provisions of that Section as it now is, the Treasurer collects and enforces the revenue laws and the collection of duties on imported goods as well as the collection of taxes. These duties are eliminated by this amendment, and his duties confined to what belongs strictly to that office.

The second Section, repealing Sections 658, 663 and 664 of the Civil Laws are following out the same lines for the same reasons.

We recommend the passage of the Act.

Honolulu, April 21, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senator Dickey moved that the report of the committee be adopted. Seconded by Senator Isenberg and carried.

Senator Isenberg moved that the bill be read third time tomorrow. Seconded by Senator Dickey and carried.

Senator C. Brown for the same committee reported on Senate Bill No. 181, as follows:

HON. C. L. CRABBE,

President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 181, report that the Act in question amends the law relating to the assessment and collection of taxes.

The first amendment strikes out the giving of a certificate by the Road Supervisor of Kona, on this Island, and the Chairman of the Road Boards in other Districts, that a party had worked out his personal taxes on the public roads, and was therefore exempt from arrest for non-payment of such taxes.

The second amendment repeals all provisions relating or authorizing the arrest of delinquent tax-payers of the personal taxes and the power of compelling the attendance and labor of persons liable to the payment of personal taxes to work on the public roads.

Sections 303 and 306 are repealed for the reason that their provisions are contained in Section 813 of the Civil Laws which is a part of Act 51 of the Session Laws of 1896.

We recommend the passage of the bill.

Honolulu, April 21, 1903.

Respectfully submitted,

Honolulu, H. T., April 20, 1903.

To the Honorable President
and Members of the Senate,
Territory of Hawaii.

I have the honor to return herewith Senate Bill No. 18. entitled "An Act to Regulate the Employment of Labor on the Public Works of this Territory," which passed Third Reading this day in the House of Representatives, Territory of Hawaii, with an amendment, by adding to Section 2 the following provision: "Provided, however, that the full eight hours shall not apply to Saturdays or any holiday."

Respectfully yours,

SOLOMON MEHEULA,
Clerk of the House.

Senator McCandless moved that the Senate concur in the amendment. Seconded by Senator Woods and carried.

Senator Achi presented a report for the majority of the committee on House Bill No. 64, as follows:

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Judiciary Committee, to whom the House Bill No. 64 was referred, respectfully report as follows:

Your committee struck out many Sections in the bill, mostly those Sections relating to the Educational Department. Your committee believe that it is wise to follow the plan laid out in the County Bill, so that the schools shall be under the management of the Territorial Board of Education.

It must be remembered that, according to the terms of the County Act, the Island of Oahu consists of one County, and by the provisions of said Act the people living in said Island would pay one per cent per year for taxes; and by the terms of the General Municipal Act, we have no reasons to doubt that the people living in the City of Honolulu would be forced to pay another half per cent. tax. In that case the people living in the City of Honolulu would have two sets of officers and two or three taxes to pay.

In order to avoid the same there is only one course to follow, that is to pass this Act (House Bill No. 64).

An amendment is inserted providing "that if any provision of this Act shall be held invalid, the Act or part of an Act of which such provision is intended to take the place, shall therefore be of full force and effect to all intents and purposes as if the same were not herein repealed.

New Sections are added repealing all provisions relating to the County of Oahu, and the City of Honolulu in the County Act and the General Municipal Act.

A new Section is added so that the Territorial Government would get twenty-five per cent. of the taxes which might be collected in the Island of Oahu, which is not provided in the House Bill.

We recommend that the Bill or Act may be passed, with the following amendments:

Strike out the words "and farm school" in paragraph 20, Section 4.

Strike out the words "buildings for public schools" in paragraph 21.

Strike out line 109, page 15.

Strike out the words "and farm schools" in paragraph 4, Section 5. Strike out paragraph 8 same Section.

Strike out section 33.

Your committee do not believe that it is a good policy to allow the City Officers to levy more taxes than One per Cent. a year.

Change Section 34 to 33.

Strike out paragraph 4, Section 35.

Strike out Section 36.

Insert 39 in place of 40 in line 2, Section 41, now 40.

Strike out Sections 43 and 44.

Strike out Section 47 relating to Sewers' charges; as we know that the Senate already decided that way.

Strike out Sections 48 and 49.

Strike out all after the word "appointed" in line 5, Section 57, relating to pay of members of the Council.

Your committee believe the members of the Council ought to be paid monthly salaries.

Strike out the words "Board of Education" in line 4, Section 58.

Insert 51 in place of 58, line 3, Section 59.

Strike out the words "Members of the Board of Education" in Section 60.

Insert the following after the word "deposited," line 13, Section 70, "as provided by law of the Legislature."

Strike out the words "City Court" in Section — and insert therein "Circuit Court of the First Circuit."

Strike out Sections 83 to 120 inclusive. All said Sections are relating to schools.

Strike out Sections 122 to 127 inclusive. Said Sections are relating to City Court. We believe the Circuit Judges in the First Circuit can handle all cases which are supposed to be tried by a City Judge; it is only incurring more expense without any special benefit.

Insert the following in Section 128:

"Except the First District, which shall elect two Magistrates," between the word "elected" and "and" in line 5, Section 128.

Strike out Section 130.

Insert the words "and Recorder" between "Clerk" and "Two," line 8.

Strike out the words "four Hundred" in line 15, Section 131.

Strike out line 17, Section 131.

Strike out line 19, Section 131.

Insert the word "each" between the words "to" and "the" in line 20, Section 131.

Strike out the word "other" in line 21, Section 131.

Insert the following words (of the Second and Third Districts) between the words "Magistrates" and "one," line 21.

Insert the following after the line 21:

22. To each of the Police Magistrates of the Fourth and Fifth Districts Six Hundred Dollars.

23. To each of the Councilmen Six Hundred Dollars.

There are several amendments relating to forms, etc.

Section 138. All the provisions of an Act entitled "An Act providing for the organization and government of Counties and Districts and management and control of Public Works

and Public Institutions therein," relating to the County of Oahu, are hereby repealed.

Section . All the provisions of an Act entitled "An Act to create General Municipal Government" which may apply to the City of Honolulu, are hereby repealed.

Section . Twenty-five per cent. of all taxes which may be collected on Real and Personal Property in the Island of Oahu, shall be paid to the Treasurer of the Territory for the benefit of the Territorial Government.

The numbers of all Sections to be changed to agree with this report.

Respectfully submitted,

W. C. ACHI,
PALMER P. WOODS.

Senator C. Brown presented a minority report of the committee on House Bill No. 64, as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—I cannot concur in the report of the majority of the Judiciary Committee recommending the passage of House Bill No. 64, entitled "An Act Creating the City and County of Honolulu and Providing for the Government thereof."

The Legislature has already passed an Act providing for the incorporation and government of Cities within the Territory of Hawaii which is now in the hands of the Governor awaiting his approval or disapproval. It seems to me that if the Legislature of the Territory thought proper to incorporate the City and County of Honolulu, it should have done so by making the provisions necessary for that purpose in the Act already passed and referred to, and also to frame the Act providing for the organization and government of Counties in the Territory in such a manner so that the provisions of these two Acts would not be in conflict one with the other. The Territory is now on the eve of a change in its political life, caused by annexation and the conditions following that event, and I believe that all changes should be gradual and not made at once nor without any preparation for changes of a radical nature, especially in relation to our political affairs and existence.

The organization into County governments and the work proper and necessary to carry out the provisions necessary for that purpose, it seems to me, should first be thoroughly understood and properly carried out before we undertake the forming of a municipality, and the extending of a municipal government to the whole of the Island of Oahu.

The Act now in the hands of the Governor was drafted with that idea, and it is presumed the Legislature in passing it thought likewise, and I do not see how at this late day the

Legislature should enact a law commanding the doing of an Act when such Act can be done in a manner that is duly provided for and designated by law. There are many provisions of the Act under consideration that should be eliminated; the majority of the committee has made many recommendations and suggested the striking out of many Sections evidently not agreeing in toto with the Act as it now is. Should the Senate think proper to consider the Bill with a view to its passage, many amendments to the Bill should be recommended in addition to those of the majority, as well as amendments to the County Bill.

The above are but a few of the reasons that now suggest themselves to me and govern my action in recommending that House Bill No. 64 be indefinitely postponed.

Honolulu, April 20th, 1903.

Respectfully submitted, .

CECIL BROWN.

Very respectfully,

Senator C. Brown for the Joint Conference Committee on Senate Bill No. 66 reported as follows:

Honolulu, T. H., April 22, 1903.

To the HON. C. L. CRABBE,
President of the Senate.

Sir:—The Joint Conference Committee, to whom was referred Senate Bill No. 66, to consider the amendment made by the House of Representatives to that Bill report that they have had a conference and have agreed upon a settlement of the differences caused by such amendment. It appears that Section 10 was stricken out of that bill on a misunderstanding, the Act among other amendments sought to amend Section 668 of the Penal Laws, by inserting words that had been omitted originally, either in printing or copying the law, and did not seek to alter the law in any respect whatever.

We recommend that the House of Representatives recede from the amendment so made and pass the bill as transmitted from the Senate.

Respectfully submitted,

CECIL BROWN,
W. C. ACHI,

At 2:05 the following message from the Governor was received and read by the Clerk:

A MESSAGE

To the Legislature of the Territory of Hawaii.

I have approved the County Bill "providing for the organization and government of Counties and Districts, and the management and control of public works and public institutions therein."

There are however some features of the law which are in my opinion objectionable, and which should, for the sake of the clear understanding of such law by the public and its successful application to the objects intended, and for removing as far as possible all legal complications from the administration of public affairs under its provisions, be removed by amendment.

These objections are as follows:

Section 476 provides that "all property in the hands of any road authorities within the Territory on the fourth day of January, A. D. 1904, shall become the property of the County in which the same is located.

Section 477 provides, referring to the transfer of jail property to Counties, that "all property so transferred shall be the property of the County."

Section 268, division 13, provides that "all fees or costs . . . arising from the sale or lease of property by this or any law of the Territory placed under the control of such County," "shall be payable into the Treasury of the County and used for paying County Expenses."

As the greater part of the property which will be turned over by the Territorial Government to the Counties upon their organization, will be public property which was transferred by the Republic of Hawaii to the United States under the Joint Resolution of Annexation, and by the United States placed in charge of the Government of the Territory, to be cared for and maintained by it for its own use "until otherwise provided by Congress or taken for the uses and purposes of the United States"; (Section 91, Organic Act) the above provisions making such property the property of the Counties to be sold or leased by them, is an attempt to amend Section 91 of the Organic Act, and also Section 73, neither of which can be amended except by Congress.

The provisions referred to are unnecessary for the due administration of County Government, as Section 482 provides that it is "the intention of this Act that in all cases where by this Act, any County Officer or Board is charged with the

performance of any duties heretofore performed by Territorial officials, the use of all property heretofore used by such Territorial officials for the discharge of such duties, shall be transferred to such County officer or Board."

Chapter 69 relating to the transfer of Territorial Water Works to the Counties where such water works are situated, is of doubtful legality, as being inconsistent with Section 91 of the Organic Act above referred to, for the following reason: Although under the provision of the Organic Act (Section 56) authorizing the Legislature to create Counties and town and city municipalities . . . and provide for the government thereof, such public property belonging to the United States but held by the Territorial Government, which is obviously necessary for the internal administration of such subordinate governments, may be turned over to such governments for such purpose, the Legislature has no power to go further, and the Territorial Government may not, under the responsibility imposed upon it by Section 97 and Section 73, surrender such property as is not necessary for the internal administration of such subordinate governments.

It cannot be reasonably argued that the conduct of water works is essential to the administration of County or municipal governments. It is a common status in many cities on the mainland, that the water used by the inhabitants for domestic purposes, is furnished by private companies.

The same reasoning applies to the proposed transfer of the apparatus and equipment used by the Territorial Government in lighting streets and public buildings as provided in Chapter 70.

Section 171 provides that "the duties required by the provisions of Chapter 19 of the Civil Laws of 1897, to be performed by the Commissioner of Boundaries, shall be performed by the County Surveyor of the County in which the lands in question are situate."

Section 172 provides that the fees to be paid such Commissioner of Boundaries shall be paid into the County Treasury.

These Sections attempt to amend Section 73 of the Organic Act, which provides that the laws of Hawaii relating to the settlement of boundaries, except as changed by such Act, "shall continue in force until Congress shall otherwise provide."

Section 384 provides that the Territorial Board of Public Institutions shall provide for the care, maintenance and employment of all inmates confined in any penal "institutions in the Territory."

This provision conflicts with the 22nd division of Section 22, which gives County Boards of Supervisors jurisdiction and power to provide for the working of prisoners confined in County jails under conviction of misdemeanor; and also with

division 6 of Section 90, which provides that the County Sheriff shall "take charge of and keep the County jail and prisoners therein."

Section 483 provides that "immediately after the passage of this Act, it shall be the duty of the Territorial Board of Public Institutions by this Act provided for, to organize in the manner required herein.

As other provisions of the Act refer to the Fourth day of January, 1904, as the time when such Board shall begin to exercise its powers, the provision of Section 483 must contain a mistake as to the time for its organization, which should be January 4th, 1904.

There is some vagueness in the Act as to the status of the Superintendent of Public Works after the installation of County Governments. I would recommend definite legislation making him the executive officer of the Territorial Board of Public Institutions.

In view of the foregoing suggestions, I recommend immediate legislation amending the County Act in accordance therewith.

SANFORD B. DOLE,
Governor.

Any such hearing may be continued, postponed or adjourned to such time or times, place or places as the Governor may direct.

Provided, however, that nothing herein contained shall be held to in any way interfere or conflict with any vested rights under or arising out of any grant, grants, lease or leases, license or licenses, of or concerning any government land or water rights, or rights of way, heretofore made.

Nor shall anything herein contained be construed to change any rights in or concerning any water upon or flowing from or through any land set apart or surrendered as a forest reserve, or as depriving or limiting any Territorial officer from exercising any existing power or authority or any power which may hereafter be created to deal with said water or water rights, or rights of way.

(10). What Constitutes Importation. The landing of any articles as aforesaid, for the purpose of inspection or quarantine, shall not be nor be construed to be, an importation for the purpose of giving to the article or articles so landed any status, or the owner thereof any rights or privileges incident to articles which have been imported into the Territory; but in legal effect the articles so landed for purposes of inspection shall be construed to be still without the Territory, seeking entry into the Territory, and shall not, in whole or in part, be entitled to be imported into this Territory, until a permit so to do, as aforesaid, shall have been issued by the Board or Officer or Inspector thereof.

(11). Exceptions to Right to Import. Nothing in this Act contained shall permit the importation of any article or class

If any vessel comes to this Territory with soil, sand, rocks or stones having soil adhering thereto on board as ballast or in bulk, and it is desired to remove the same, it shall, except as aforesaid, be dumped at sea.

No soil or sand brought to this Territory in connection with or around the roots of plants, trees or other vegetation, or rocks or stones with soil or sand adhering to them, shall be allowed to be imported into this Territory until the same shall have been removed to a suitable place for inspection and quarantine, and there held for such length of time as in the discretion of the Board or its Officers or Agents shall be necessary to prove that it is not infected with insects, blight, scale or diseases injurious to trees, plants or other vegetation of value.

Senator C. Brown for the Judiciary Committee reported on the amendments made by the House of Representatives to Senate Bill No. 32, as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—The Judiciary Committee, to whom was referred Senate Bill No. 32, as amended by the House of Representatives, report that they have had the amendments made under consideration.

The amendments are, to Section 1, making one of the members of the Commission to be a native Hawaiian-American.

The amendment to Section 2 changes the phraseology without altering the meaning, and is an improvement.

The amendment to Section 13 is an increase of the pay to be received by the Commissioners to be appointed, and places it at \$6,000.00 instead of \$4,500.00, as passed by the Senate.

There was some question raised as to whether the amendment to Section 1 was class legislation. We do not believe so.

We recommend that the Senate concur to the amendments made by the House of Representatives.

Honolulu, April 23rd, 1903.

Respectfully submitted,

CECIL BROWN,
PALMER P. WOODS,
W. C. ACHI.

Senate Chamber,
Honolulu, T. H., April 23, 1903.

HON CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Public Lands, Internal Improvements, Agriculture, etc., having had under consideration House Bill No. 72, begs leave to report upon the same. We are in thorough accord with the sentiment of this bill, which provides that only citizens of the Territory may be employed upon public works within the Territory, and recommend that it do pass, amended as follows:

Add a new Section, to be numbered Section 5, and to read:

"Section 5. In case the official whose duty it is to employ such labor as mentioned in this Act, fails, after every reasonable effort to secure the citizen labor specified, he may, for the time being, employ such labor other than citizen labor as may be necessary to prosecute needed public work and without becoming subject to any of the prohibitions or penalties of this Act."

Renumber Section 6, Section 7.

We believe that the bill should be thus amended to avoid most serious delay and inconvenience with public labor at times and places where it might be practically impossible to secure the said citizen labor.

All of which is respectfully submitted,

L. L. McCANDLESS,
J. D. PARIS,
J. B. KAOHI,
Committee.

Senator Isenberg presented a report of the Special Committee appointed to investigate the Band, as follows:

Honolulu, H. T., April 23rd, 1903.

HONORABLE CLARENCE CRABBE,

President of the Senate.

Sir:—Your Special Committee, to whom was referred the resolution introduced by Senator Isenberg in regard to the Band, beg leave to report as follows:

They have looked carefully into the matter and find that there is a great deal of dissatisfaction existing amongst the members of the Band; that when the band boys are actually sick not only is their salary deducted but they are fined. The Band Master declares that no boy need be sick, which idea the committee thinks is ridiculous. When any of the band boys are actually sick, if only sick for a few days, we think that they should receive their full salary, and if they are sick say twenty days or more, half of their salary.

We also recommend that whenever the boys play steamers off that they only play half an hour, especially island steamers

as passengers very seldom get there before half an hour of the sailing of the steamer; and we, therefore, recommend the passing of the following Joint Resolution, which we attach to this report.

We further recommend that the amount of \$1,800 be put in the salary appropriation, to be called an "Emergency Fund" to allow the Band Master whenever it is necessary, in his discretion, to employ extra help, to pay this extra help out of this appropriation.

Yours very respectfully,

D. PAUL R. ISENBERG,
D. KALAUOKALANI,
C. H. DICKEY.

Be it further resolved, that if any of the boys are sick up to twenty days they shall receive their full salary, after twenty days, half pay, and

Be it further resolved that whenever the Band plays at Inter-Island steamers it shall not play for more than half an hour.

D. PAUL R. ISENBERG,
Senator 3rd District.

"Salary of 30 Bandsmen, \$7,710," passed as "Salary of 27 Bandsmen, \$6,689."

AFTERNOON SESSION.

The Senate re-convened at 2 o'clock.

A message from the Governor vetoing a bill entitled "An Act to provide for the acquisition by the Territory of Hawaii, of the Kaaikahi and Kahuawai Springs of Pauoa Valley and the waters thereof, and for a reservoir site for the storage of same", was read by the Clerk, as follows:

Executive Chamber,
Territory of Hawaii,
Honolulu, April 24th, 1903.

To the Legislature of the Territory of Hawaii:

I am unable to approve of a bill entitled "An Act to provide for the acquisition by the Territory of Hawaii, of the Kaaikahi and Kahuawai Springs of Pauoa Valley and the waters thereof, and for a reservoir site for the storage of same" received from the Legislature on April 16th, and return the same herewith, without my signature.

My objections to this bill are as follows:

The reports submitted to the Legislature in connection with the consideration of the subject of this bill are for the most part reports obtained by private parties interested in its enactment. No reports from Government officials were obtained, except that of Mr. Shorey, the government chemist, and those of Mr. Cooper, the Superintendent of Public Works and Mr. Brown, Superintendent of the Honolulu Water Works, —the two latter being in response to a resolution of the

Senate passed on the last day of March. Mr. Cooper's report favors the construction of a new large reservoir in Nuuanu Valley, and Mr. Brown's is opposed to the enactment of the Bill in question.

It is clear to any one reading all of the reports, who is at all acquainted with the situation in Pauoa, that the information furnished the Legislature upon this subject is most incomplete.

The definite evidence as to the amount of water flowing from the Springs in question is based upon measurements made near the middle of the rainy season. The result of this one measurement is of little value upon the question of the average amount of water flowing from such springs, or of the average amount flowing during the summer months, when the supply of water is likely to fall off. To furnish reliable information on this point, several measurements should be taken through the driest part of the year.

No information has been furnished as to the number of leases of the water, the length of the unexpired terms thereof, nor of the rents paid therefor. No information has been received in regard to the danger of contamination of the springs in question from dwellings located above them or from probable future occupation of the slopes above the upper springs by residences. Mr. Shorey's report recognizes the necessity of "proper protection" of these springs from contamination. Mr. Keen disposes of the question of contamination by the remark, "I found that this water has its source in a number of springs far up the valley, above all possibility of pollution."

As a matter of fact the lower springs are surrounded by dwellings, some of them close above them with adjacent cesspools and stables.

Under these circumstances, it is evident that the water from these lower springs is likely to be polluted at any time and therefore cannot be considered as a source of a drinking water supply.

As to the upper springs, the slopes above them are most inviting for sites of residences, and are likely to be so occupied at any time unless they should be segregated by the Government. As a part of these slopes are owned by private parties the cost of buying out such private interests, a necessary preliminary measure to the use of the water of such springs for drinking purposes, might and probably would amount to a large sum. At present the amount of such cost is an absolutely unknown quantity.

Mr. Brown says that in his estimation it will take \$250,000 to develop the springs, build reservoirs and furnish pipe. Add to this the cost of acquiring the land necessary to be segregated for the protection of the upper springs and we have a total outlay in prospect that is appalling, in view of

the small amount of water delivered by the upper springs in the middle of the rainy season, i. e., 859,920 gallons in 24 hours.

But this is not all; the bill so far as it can be understood, provides only for the purchase of the interests of the owners of the water in question by the outlay of \$150,000, leaving the Government to extinguish the interests of lessees as best it may,—another unknown quantity, which may, so far as the Legislature is informed, require another large sum, or under the provisions of the bill, require the Government to furnish the lessees the water to which they are entitled until their leases expire, which would, for a while at least, leave no water for the Government when it is most needed,—that is, in the summer months.

No appropriation is made by the bill for acquiring such lessee water rights by buying them out, and no provision for the expense of ascertaining who are the real owners in distinction from the lessees, of the water rights in question. To reach safe conclusions in this matter would require, first, an investigation into the titles of the lands having water rights and whether or not such lands are subject to mortgage, and whether or not any of them are owned by infant proprietors; second, investigation of the actual water rights belonging to such lands respectively,—no easy matter, as it appears by one of the exhibits before the Legislature, that the water interests of Pauoa uka (upper Pauoa) were adjusted by a representative of the Interior Department twenty-five years ago. Does upper Pauoa cover all the water rights in question? How many of the owners of water rights in 1878, have sold them or have lost them by non user, or through adverse use by others? Who are the heirs or devisees of such owners in 1878 who have since died?

It will be seen from these suggestions, that the matter of acquiring the water in question would probably be a most complicated and expensive one, that might well require an authorized commission and a considerable appropriation to assure its satisfactory accomplishment.

The scheme impresses me as a measure vigorously pressed by private parties for their own interests, upon which the Legislature has acted without sufficient information to enable it to protect the public interests, with the result that private interests have been advanced at the expense of the public.

It is a bill, under one construction, providing for the purchase of water without requiring the grantors to deliver the goods,—that is, a purchase of property encumbered to an unknown extent, leaving the Government to perfect the title and obtain possession as best it may. The provision of Section 4 that the warrants for the purchase of the water from the owners thereof shall be a first charge on the Treasury after the pay-

ment of current expenses, is against public policy as denoting bad faith toward bond holders, and tending to injure the credit of the Territory.

The bill is carelessly drafted and contains conflicting sentences which would tend to defeat its execution if it should become law.

Sections 1 and 2 require the Superintendent of Public Works to acquire the whole of the waters of springs and streams that furnish water to owners of water rights in Pauoa Valley, "of the owners thereof," which cannot be done, unless the owners extinguish the lessees' rights and are able to deliver possession; and cannot be done under other provisions of the bill particularly Section 3, which very evidently implies that the Government is not to acquire "the whole" of the said waters from the owners thereof, but only their interests, subject to the rights of lessees.

Section 3 introduces another element of confusion in providing that the water that may be furnished any tenant having water rights in lieu of condemnation of such rights, may be charged "against the owners of said land at regular Government water rates for the unexpired terms of their outstanding leases." This provision requires the owners after having received the \$150,000 to protect their tenants' rights at their own expense.

These conflicting features of the bill raise a strong doubt whether it would be a workable measure if it should become law.

The attorney of those pressing for this enactment urges that under the words of the first Section, "the Superintendent of Public Works is hereby authorized and directed to purchase or otherwise acquire for the water works department of Honolulu, the whole of Kaalkahi and Kahuawai Springs of Pauoa Valley, etc." the Superintendent has discretion either to purchase or to acquire by condemnation the owners' rights in such water. But there is nothing else in the bill that supports this contention. On the contrary, he is definitely required by Section one "to pay the several owners thereof, each a pro rata portion of the sum of money hereinafter appropriated, according to their several rights of user of the water of said springs and their interests in said lands." This precludes all discretion on the part of the Superintendent of Public Works, of taking proceedings for the condemnation of such water and adjusting the payments therefor to the awards obtained under such proceedings.

SANFORD B. DOLE,

Governor.

Senator Baldwin moved that action on the veto be postponed until Monday, the 27th. Seconded by Senator C. Brown and carried.

Senator McCandless offered a Joint Resolution requesting Congress to appropriate money for improving the harbors of Honolulu and Hilo, as follows:

JOINT RESOLUTION.

Be it Resolved by the Legislature of the Territory of Hawaii:

That, Whereas, the Harbors of Honolulu and Hilo, are the two principal harbors of the Territory of Hawaii, and the commerce of Hawaii, both local and in connection with through lines between the United States and Asia and Australia is rapidly increasing, and is being carried on in ships of much greater size than heretofore; and

Whereas, the depth of water on the Honolulu Harbor Bar and within the Harbor is only approximately 30 feet, and steamers drawing 30 feet are now running to Honolulu and others are about to be regularly placed in the Honolulu trade which draw 34 feet of water; and

Whereas, the Port of Hilo, Island of Hawaii, requires a break-water to make it a safe harbor in case of a northerly storm; and

Whereas, the deepening of said harbor of Honolulu and the building of said break-water at Hilo are undertakings too costly for the Territorial Treasury;

Resolved that the Legislature of the Territory of Hawaii do and it hereby does request the Congress of the United States to appropriate and expend such money as may be necessary to deepen the harbor of Honolulu to such a depth that it will accommodate all vessels arriving there, and to build a break-water at said Hilo, thereby rendering it a safe harbor at all times.

Senator Paris for the Committee on Public Lands, Internal Improvements, Agriculture, etc., reported on Senate Bill No. 185, as follows:

HON. C. L. CRABBE,
President of the Senate.

Sir:—Your Committee to which was referred Senate Bill 185, beg leave to report.

Your committee recommend in Section 1, line 5, after the word "of" insert "the island of Oahu," and strike out the balance of the Section, and make the same changes all through the bill.

This confines the franchise to the island of Oahu.

Your Committee feel that the service rendered by the existing Company has been for a long time unsatisfactory to the general public, and that it is time another Company had a chance in the field.

J. D. PARIS,
J. B. KAOHI.

Senator McCandless for the same committee reported on the same bill, as follows:

Senate Chamber,
Honolulu, T. H., April 23, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Public Lands, Internal Improvements, Agriculture, etc., to which was referred Senate Bill No. 185, begs leave to report back the same with the recommendation that it be laid on the table. A duplicate of this Act has been abandoned or put aside in the House and your committee does not believe that there is probability of consideration of such an Act in the other branch of the Legislature at this session. This Act is for a very broad and liberal and sweeping franchise covering for the proposed telephone Company the whole of the Territory, though we are given to understand that the right to establish a business in Honolulu

is the prime object sought. Even if this is the fact we cannot endorse what is so palpably a "blanket" franchise, the Act legislating for Counties and Cities yet to be created. Further, the question of whether or not it would be in the public interest for Honolulu to have a second telephone system is a grave one that should be carefully considered in all its aspects. The streets are at present dangerously burdened with poles and wires and another set of the same would increase the peril to life and limb from crossed wires, falling wires, etc., besides rendering all thoroughfares more unsightly and crowded. Your committee will state in conclusion that the present telephone Company of Honolulu has made a satisfactory showing that it is taking earnest measures for the repair and improvement of its plant. Lines are being rebuilt, new cables are being placed and further cable to replace defective cable is now on the way from the mainland. The present Company pledges itself that it will soon again have its system in first class condition in every respect.

Respectfully submitted,

L. L. McCANDLESS,

J. B. KAOHI,

Committee.

Senator C. Brown moved that the reports be laid on the table to be considered with the bill. Seconded by Senator Dickey and carried.

Senator Paris offered a concurrent Resolution relating to the Coffee Industry, as follows:

SENATE CONCURRENT RESOLUTION NO. —.

Be it Resolved by the Senate and House of Representatives of the Legislature of the Territory of Hawaii:

Whereas, the Coffee Industry of this Territory is now in a depressed condition and many of the plantations are threatened to be abandoned on account of the continued low price of the product and the large quantities of coffee imported into the United States from Mexico and from Central and South America countries free of duty, and

Whereas, there are within this Territory large areas of land suitable to the cultivation of coffee and there are large areas of coffee lands in the Philippine Islands and Porto Rico, new possessions of the United States, and

Whereas, large amounts of American capital are now invested in this industry in the Territory of Hawaii and in the new possessions of the United States, providing employment to many citizens unable to compete with the Peon labor of South and Central America, and

Whereas, it is meet and proper that this industry and the citizens engaged in it should be encouraged and protected for the benefit of the Territory of Hawaii and the whole of the United States and its possessions, and

Whereas, a distinguished commission of the Honorable Senate of the United States which lately visited the Territory of Hawaii and secured full information upon all conditions within Hawaii and reported the same to the Senate of the United States, recommended that a bounty of four cents per pound be paid out of the Treasury of the United States to the producers of coffee within this Territory for each pound produced, Therefore be it

Resolved, that we respectfully petition the Congress of the United States to impose a duty on all coffee imported from foreign countries into the United States, or in lieu thereof to provide a suitable bounty to be paid to the producers of coffee within the United States, to the end that a great internal agricultural industry may be created and the nation further become self-supporting.

Resolved, that the Governor of the Territory is hereby requested to transmit certified copies of this resolution to the President of the United States, to the President of the Senate of the United States, to the Speaker of the House of Representatives of the United States and to the Delegate of the Territory of Hawaii with the request that the resolution be properly placed before the Congress of the United States.

The first five lines of Section 4 stricken out and the following inserted: "Section 4. The Legislative power of said City and County is vested in and shall be exercised by a Council composed of twelve members, each of whom shall be an elector of the corporation at the time of his election, and shall have been a citizen of the Territory for at least five years next preceding such time. The members of the Council shall be elected as follows:

The words "wharves, landings and docks" stricken out of line 4 of sub-division 18 of Section 4.

A new sub-division added at the end of Section 4, as follows: "28. A message from the Governor vetoing a bill entitled "An Act to amend Section 1, Chapter 26, of the Session Laws of 1892" was read by the Clerk, as follows:

Executive Chamber,
Honolulu, April 25th, 1903.

To the Legislature of the Territory of Hawaii:

I am unable to approve of a bill entitled "An Act to amend Section 1, Chapter 26, of the Session Laws of 1892, relating to Lights" received from the Legislature on April 15th, and return the same herewith, without my signature.

My objections to this Bill are as follows:

The title of the Bill is as follows: "An Act to amend Section 1, Chapter 26, of the Session Laws of 1892 relating to Lights." Chapter 26 of the Session Laws of 1892 is "An Act to amend Chapter 19 of the Civil Code, relating to the time of commencing personal actions."

Chapter 28 of the Session Laws of 1892 is "An Act to require bicycles and similar vehicles to carry lights," which is probably the law which the Legislature intended to amend by the Bill under consideration.

The first paragraph of Section one of the said Bill is as follows:

"Section 1. Section 1, Chapter 26, of the Session Laws of 1892 be, and the same is hereby amended so as to read as follows: then follows the proposed amendment beginning with the word and figure "Section 1," which ostensibly amends both Sections 1 and 2 of the said Chapter 28 of the Session Laws of 1892.

The Bill as drafted would be impracticable and ineffective as a law.

SANFORD B. DOLE,
Governor.

Senator Woods offered the following Joint Resolution asking Congress for an appropriation for harbors and light houses:

JOINT RESOLUTION.

Whereas, An Act of the Fifty Sixth Congress of the United States of America, approved April 30, 1900, provided for the Government of the Territory of Hawaii, to take effect June 14, 1900; and

Whereas, by that Act the Federal Government has received the entire revenue from the Customs and tariffs collected at this port, paid largely by the people of this Territory; and

Whereas, no appropriation has yet been made by any Congress for the improvement of our harbors, nor for the care and maintenance of the light houses, which protect equally the commerce of all nations and safe-guard the lives of all those who cross the Pacific by this route; and

Whereas, since the 14th day of June, 1900, notwithstanding the depleted revenues, our people have expended to date for light houses the sum of Sixteen Thousand, Nine Hundred Ninety-two and 65-100 (\$16,992.65) Dollars; and

Whereas, during the same period the interests of our commerce have absolutely required the expenditure of Seventy-two Thousand, Four Hundred Sixty-one and 46-100 (\$72,461.46) Dollars for the improvement of harbors;

Now, Therefore, be it Resolved by the Legislature of the Territory of Hawaii, in second regular session assembled, that the Fifty-eighth Congress be requested, in the name of the people of this Territory and in the interests of the great and growing commerce of the Pacific, to maintain the light houses already built by the people of these islands, and to provide such new and modern lights as are by it deemed wise;

And, further, that in whatever appropriation is made by Congress, a sum be provided to reimburse the Territory for all of its expenditures for these purposes.

And be it Further Resolved, that certified copies of this Resolution be sent by the Governor of the Territory to the President of the United States, to the President of the Senate and Speaker of the House of Representatives of the United States, and to the Delegate of the Territory of Hawaii to Congress.

PALMER P. WOODS,

Senator 1st District.

Senator Nakapaahu moved that the Joint Resolution be adopted. Seconded by Senator J. T. Brown and carried.

At 3:30 o'clock a message from the Governor relating to a bill entitled "An Act providing for the drawing, summoning and empanelling of grand and trial jurors" was received and read by the Clerk, as follows:

A MESSAGE

to the Legislature of the Territory of Hawaii.

I have approved the bill entitled "An Act providing for the drawing, summoning and empanelling of grand and trial jurors."

There are, however, features of the bill which, in my opinion, are against public policy. I refer to the provisions for the selection of jury lists and drawing of juries. These in brief, place the appointment of the two Jury Commissioners for each Circuit in the discretion of the Circuit Judges or Judge for such Circuit. The duty of such Commissioners is to make a list of eligible persons in each Circuit who in their judgment are suitable for jury duty. A clerk of the Circuit Court at the direction and in the presence of the Circuit Judge is to draw from a box containing the names of such persons on separate slips of paper, the names of fifty persons which are to be deposited in another box to be called the Grand Jury Box, and the names of fifty persons which are to be deposited in a third box to be called the "Trial Jury Box." From these two boxes the clerk is to draw, at the direction and in the presence of the Judge, names of persons to serve as members of the Grand Jury and of the Trial Jury panel respectively.

It will be seen from this programme that in the other Circuits than the First, the whole matter of selecting the lists of persons to be called upon for jury duty, the matter of drawing the jury lists and finally the members of the Grand and trial juries, may be largely controlled by the Circuit Judge, should he wish to do so. That is, he appoints the clerk of his Court, he selects the Jury Commissioners, and he superintends the drawing of the jury lists and of the members of the Grand and trial juries, with no one present but the clerk,—his own appointee.

It is against public policy for such an opportunity to exist, as an unprincipled judge, should any of the outer Circuits ever be so unfortunate as to be under the jurisdiction of such an officer, would have thereby an opportunity to corrupt the administration of justice to the serious prejudice of the public.

I recommend that the provisions referred to be amended so that the Jury Commissioners shall be appointed by a majority of the Justices of the Supreme Court, and that in all drawings of jury lists and Grand and trial juries, the Sheriff of the County or other executive officer shall be required to be present.

SANFORD B. DOLE,

Governor.

Executive Chamber,

Territory of Hawaii,

April 25th, 1903.

At 3:40 o'clock Senator J. T. Brown moved to adjourn.
Seconded by Senator C. Brown and carried.

William S. S. S.

Clerk of the Senate.

Approved by the Senate:

Clarence L. Crabbe

President of the Senate.

FIFTY-NINTH DAY.

Monday, April 27th, 1903.

The Senate met, pursuant to adjournment, at 10 o'clock.

After prayer by the Chaplain, the roll was called showing Senators Achi and Dickey absent.

The Journal of the Fifty-Eighth Day was read and, upon motion of Senator Kalauokalani, seconded by Senator Naka-paahu, approved as read.

A message from the Governor vetoing a Bill entitled "An Act to grant certain powers to representatives of estates of deceased persons, to provide for a public administrator and for distribution on final settlement" was read by the Clerk, as follows:

Executive Chamber,
Territory of Hawaii,
Honolulu, April 27th, 1903.

To the Legislature of the Territory of Hawaii:

I am unable to approve of a Bill entitled "An Act to grant certain powers to representatives of estates of deceased persons, to provide for a Public Administrator and for distribution on final settlement," received from the Legislature on April 15th, at 2:45 o'clock p. m., and return the same herewith, without my signature.

My objections to the Bill are as follows:

Section 12 provides that Public Administrators shall take charge of the estates of persons dying in his District, in the following cases: estates for which no administrators are appointed and which in consequence "are being wasted, uncared for or lost"; "estates of decedents who have no known heirs"; "estates ordered into his hands by the Court"; and estates upon which letters of administration have been issued by him by the Court."

The two latter provisions give the Court undue power to take possession of estates and pass them into the hands of the Public Administrator, whether it is for the interest of the heirs to have such proceedings taken and the consequence expense incurred or not; and when it is considered that the Clerk of the Circuit Court,—the appointee of the Circuit Judge, is to be ex-officio the Public Administrator, and that he is not required to give any further bond than his official bond as clerk, except when real estate is to be sold, the danger of these provisions and the opportunity they afford to corrupt officials, may be in some measure understood.

In some parts of the mainland the powers given to public administrators by the laws afford them opportunities to fleece the estates in their charge, which are made the most of. Under cover of ostensible legal charges for commissions and fees, estates are robbed to an extent that has caused the services of public administrators to be regarded as a calamity to be avoided, rather than a benefit.

Under the present law the persons having the right to administer the estate of deceased persons are as follows, with priority in the order named; husband of a deceased wife; wife of a deceased husband; children of age; brothers and sisters; cousins germain; bona fide creditors. The Judge may disregard this order for good reasons.

This reasonable and just law would be to this extent changed by the Bill in question. A corrupt Judge under this Bill could in any case of a person dying in his County, whether testate or intestate, order his clerk to take immediate possession and issue letters to him as Public Administrator upon some reason easy to put forth, or for no reason at all. And then when letters testamentary or of administration should be regularly issued to the proper Executor or Administrator, a few weeks later, an ostensible basis would have been laid upon which such Public Administrator could make his charges for commissions and other fees, to be passed upon by the Judge, and the whole proceeding would have a very respectable appearance.

No laws with such easy opportunities for legal corruption, should be allowed on the statute books. Women and chil-

dren who are especially helpless in times of bereavement, should be protected from all possibility of financial injury by such loop-holes in the statutes.

The Bill is illegal in that it embraces two subjects, to-wit: 1st. The grant of certain powers to representatives of estates of deceased persons; 2nd. Provision for the creation of a Public Administrator, and both subjects are set forth in the title. (Section 45, Organic Act.)

SANFORD B. DOLE,

House of Representatives,
Honolulu, T. H., April 27, 1903.

To the Honorable President
and Members of the Senate,
Territory of Hawaii.

I have the honor to transmit herewith the following House Joint Resolutions which have been duly adopted by the House of Representatives on the 25th day of April, A. D. 1903, namely:

House Joint Resolution No. 7, Directing the President of the Board of Health to establish a Hospital for the Diagnosis and Treatment of Leprosy;

House Joint Resolution No. 8, relating to the appointment of a Committee of Three Members to go to the Leper Settlement to perform certain duties;

House Joint Resolution No. 9, relating to certain streets in Kewalo.

Respectfully submitted,

S. MEHEULA,
Clerk.

JOINT RESOLUTION NO. 7.

Directing the President of the Board of Health to Establish a Hospital for the Diagnosis and Treatment of Leprosy, and to Enter Into an Agreement with Dr. L. F. Alvarez as Medical Superintendent of the Same.

Whereas, the results obtained from our laws of segregation after a trial of thirty-six years are disappointing, and we have reasons to believe that they will continue to be so unless the methods used be changed so as to conform with the modern ideas concerning leprosy; and

Whereas, our Governor has repeatedly recommended the Legislature to provide for the housing and instruction of the numerous persons now classed as "suspects" who are denied the privilege of attending our schools; and

Whereas, nearly all the physicians in the employ of the Board of Health have recommended that the so-called suspects be not permitted to be at large, some of them perhaps spreading the disease; and

Whereas, the Committee of Examiners fails to make a diagnosis in a large percentage of cases, owing to the fact that leprosy in the beginning is very difficult to recognize; and

Whereas, it is essential that a diagnosis be made as early as possible before the patient has had time to spread the disease; and Whereas, such diagnosis can only be made when the patient is kept under observation in a hospital for a sufficient length of time; and

Whereas, such institution in order to produce good results, should be placed under the direction of an experienced leprologist who should not be permitted to engage in private practice, but who should devote all of his time to the diagnosis and treatment of all mild cases of leprosy; and

Whereas, it is absolutely necessary that supposed lepers be examined as soon as they arrive at Kalihi so that those who have no signs of leprosy be returned to their homes immediately; and those showing but few symptoms of the disease be kept under observation until a diagnosis is made and not permitted to live with advanced cases of leprosy; and

Whereas, the Kalihi Receiving Station is not suitable for hospital purposes, lacking sufficient grounds for the cultivation of fruits and vegetables and being too near the City of Honolulu; and

Whereas, there is a piece of Government land containing an area of 66.55 acres with a fish pond of eight acres adjoining it on the Koolau side of this Island the lease of which expires January 1st, 1904, said land being better adapted for this purpose; and

Whereas, we have full confidence in the high character, ability and experience of Dr. L. F. Alvarez in matters pertaining to leprosy; and

Whereas, he is well qualified for investigations pertaining to this disease, having had special training for this work at the Johns Hopkins University and over three years experience as the Superintendent of the Kalihi Hospital for the treatment of leprosy, having attended the Congress for Leprosy held in Berlin in 1897 and being able to understand the languages of nearly every country where leprosy prevails; now

Therefore be it

Resolved by the Senate and House of Representatives of the Territory of Hawaii in regular session assembled;

The Board of Health shall not require said Dr. L. F. Alvarez to devote his time to any other work except as herein specified.

5. Said agreement between the President of the Board of Health and said Dr. L. F. Alvarez will however become null and void if Dr. Alvarez should absent himself from the Territory without special permission of the Board of Health, or if through permanent disability he should cease to attend to his duties; permission to leave the Territory for a short time however can be granted by the Board of Health only on condition that Dr. Alvarez leave a proper substitute approved by the said Board. This agreement shall not be transferrable.

JOINT RESOLUTION NO. 8.

Whereas, there are many persons now at the Leper Settlement on the Island of Molokai, who have not been microscopically examined by the Territorial Bacteriologist and the bacilli lepra have not been demonstrated by such scientific process to exist in said persons, although listed as lepers; and

Whereas, that only the presence of such bacilli lepra in any alleged leprous person would justify such person being declared and classed a leper; and

Whereas, it is necessary to examine microscopically those alleged leprous persons at the said Leper Settlement under the charge and supervision of a Committee from the present Legislature, and find out whether such alleged leprous persons have the lepra bacilli in their system, or whether any of them had once had the disease of leprosy, but now, is not a person in a condition to spread the disease of leprosy which alone justifies segregation, therefore be it

Resolved that a Joint Committee, consisting of three members from each branch of the Territorial Legislature be appointed by the presiding officer of each House of the Territorial Legislature to go to the Leper Settlement to carry out the object and purposes of this Resolution; and

Resolved, that said Committee have full authority and power to select one or two medical experts on leprosy to accompany them to the said Leper Settlement, and with the assistance of the President of the Board of Health or any person appointed by him, to examine the said alleged leprosy persons at said Leper Settlement, and to discharge and release all persons who have not the bacilli lepra in their systems, or in a condition which will not spread the disease of leprosy by being at large; and be it further

Resolved, that the sum of Two Thousand Dollars be and is hereby appropriated to defray the expenses of the said Committee.

Senator Baldwin for the Ways and Means Committee, reported on the petition of the Hon. J. A. Cummins, as follows:

Honolulu, T. H., April 27, 1903.

HONORABLE C. L. CRABBE,
President of the Senate.

Sir:—Your Committee on Ways and Means, to whom was referred a Resolution to "Appropriate money to reimburse J. A. Cummins for a fine of \$5,000 for alleged crime of 'Misprison of Treason,'" begs leave to report that we have had the same under careful consideration.

The Resolution is as follows:

"RESOLUTION.

"Whereas, the Honorable John Adams Cummins, a Noble under the late Hawaiian Monarchy, and a descendant of one of the highest chief families of Hawaii, an Alii who had sustained intimate and cordial relations with the Kings of Hawaii, viz: Kamehameha III; Kamehameha IV; Kamehameha V; Lunaliilo; and her late Majesty Liliuokalani; and who was an elective Member of the Legislatures by which two sovereigns were successively elected to the throne of Hawaii; who for many years was a Member of the House of Nobles, and also of the King's Privy Council of State; and who held the high office of Minister of Foreign Affairs under and by appointment of His late Majesty Kalakaua; and

"Whereas, the said Honorable and aged John Adams Cummins, was arrested without warrant, on the 16th day of January, A. D. 1895; was confined in Oahu Prison and treated with great indignity; was arraigned before a Military Commission or Court Martial, which held its sessions at the Palace while the ordinary courts of the country were pursuing their wonted course of procedure in the Judiciary Building,

"and was charged with the crime of Misprison of Treason; "was convicted and sentenced to pay a fine of Five Thousand "Dollars; was confined in Oahu Prison for a period of thirty "days; did pay such fine of Five Thousand Dollars; and was "thereupon restored to liberty;

"Therefore, be it resolved, That the said sum of Five Thou- "sand Dollars together with interest thereon at the legal rate "from the date of the payment of said fine is hereby appropri- "ated out of any money in the Treasury of the Territory not "otherwise appropriated, and to be immediately available, for "the purpose of repaying to the said Honorable John Adams "Cummins the said sum and interest."

The resolution, as worded, is somewhat severe on the proceedings of the Republic of Hawaii after the uprising in 1895 when the country was under Martial Law, and to support the Resolution would be, in a way, a condemnation of the acts of the Government at that time.

Your Committee understand that the Resolution was introduced on the ground that J. A. Cummins was the only one out of a large number sentenced by the Court Martial, who paid the fine imposed, and for that reason, it is but right he should be refunded. We find on examining the records that there were 190 sentenced, of which 25 only were sentenced to both fines and imprisonment while J. A. Cummins was the sole person who was sentenced to only a fine, and who paid the same.

If it is right and just that J. A. Cummins should be reimbursed, then all who were imprisoned under sentence by the Court Martial have just claims for damages for having been imprisoned.

It is not necessary that we should go into the details of the trials by Court Martial in 1895. It is recent history, and all are familiar with the facts.

Your Committee do not favor the proposition of reimbursing those who were sentenced by said Court Martial. We would say to those in the Senate who might favor the proposition of reimbursing J. A. Cummins, that the Resolution is not in proper shape for appropriating money. It is a Resolution addressed only to the Senate, who have no power to appropriate money without the joint action of the House and Governor.

We recommend that the Resolution be laid on the Table.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS.

The report of the committee was adopted.

Senator Dickey for the Committee on Miscellaneous Petitions reported on House Bill No. 96 as follows:

Honolulu, T. H., April 23, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Committee on Miscellaneous Petitions to which was referred House Bill No. 96 begs leave to report:

The bill allows citizens of the Territory to gather ferns, evergreens, etc., on Government Lands.

Your committee does not consider this advisable as it is very important to keep the sources of water supply in the mountain as well covered with verdure as possible in order that rainfall may be retained so as to gradually percolate to the springs. If the mountain sides are denuded of verdure the rainfall will run off immediately as freshet water and our water supply fall.

Your Committee recommends that the Bill be laid on the table.

C. H. DICKEY, Chairman,
D. PAUL R. ISENBERG.

I do not concur.

Senator Paris for the Committee on Public Expenditures reported on House Joint Resolution No. 4, as follows:

Senate Chamber,
Honolulu, T. H., April 24, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Standing Committee on Public Expenditures, to which was referred House Joint Resolution No. 4, having most carefully considered the same, begs leave to report and to recommend that the Senate do not concur in the said House Joint Resolution No. 4. We made an adverse report upon this matter, as after the fullest investigation possible, we cannot report otherwise. We may say that we believe had the House Committee or the House as a body secured the information which has been gathered by the Senate Committee, that the resolution would not have been sent to this body.

We find that the question of the ownership or title or source of delivery or presentation of this plate has been considered by no less than two commissions and by a number of authorized persons and officials.

The question of whether this plate is or was state or private property is by no means a new one, but your committee trusts that the facts herein presented will appeal to all as being conclusive and that the matter will be permitted to rest as settled once and for all.

At the time of the death of his late Majesty Kalakaua I., the commission selected to pass upon the question here again involved, consisted of the late Dr. George Tr  sseau, representing Her Majesty the Queen Dowager, the late Hon. John A. Hassinger, representing the Government, and the Hon. James Robertson, representing Her Majesty Liliuokalani. The finding of this commission was that the plate in question had been presented by the French Government to the Hawaiian Government as an expression of the friendship following the settlement in a most satisfactory manner of a number of difficulties or differences which had existed between the two Governments for a number of years and which caused much friction and bad feeling on both sides. The finding was that the plate, together with other articles given at the same time, was state and not at all private property.

In the inquiry held in the year 1893, soon after the overthrow of the monarchy, when the question of the ownership of this plate and companion articles once more came up, the committee or commission consisted of Hon. Cecil Brown, representing Her Majesty Queen Dowager Kapiolani, Hon. James Robertson, representing Her Majesty Queen Liliuokalani and Hon. Wm. F. Allen, representing the Provisional Government. Full investigation was again made and the facts were once more found to be that all the plate and the articles generally coupled with it in inventories and schedules had been presented to the Hawaiian Government by the Government of France and was the property of the Hawaiian state and not of the monarch as an individual. In the year 1900 the "Executive Council" passed upon this identical question after a searching investigation and found as herewith. Attached to this report and made a part of it is an extract from the minutes or record of the "executive council," giving in detail the consideration and findings by that body upon this much canvassed question.

Your committee has interviewed Hon. James Robertson, formerly chamberlain in the Royal Household and learns from him that it was always his understanding that the plate in question was the gift of the French Government to the Hawaiian Government during the reign of His Majesty Kamehameha IV.

Col. Curtis Iaukea, of Waialua, this island, who was formerly a ward of the crown and an attache of the Royal Household, has knowledge of this subject from his boyhood. He makes

substantially the same statement as Hon. James Robertson and further supplies your committee with a letter bearing directly upon the matter, which letter is hereto attached and made a part of this report.

Hon. A. S. Cleghorn, whose knowledge of such a matter will doubtless be quite generally accepted as practically conclusive, was asked by your committee for his opinion and recollections concerning the plate. It is his expressed firm belief that this plate, together with other articles of a similar nature was presented to the Hawaiian Government by the French Government as an expression of thorough good feeling and satisfaction following the settlement of an irritating incident in the relations of the two countries. The presentation of this large amount of plate and the other articles was, in the judgment of Governor Cleghorn to a considerable degree in reparation of the Admiral Tromelin "reprisals" of the year 1849, when this French naval officer confiscated the yacht Kamehameha III., called the "King's Yacht," sailing the same away to Tahiti. It was on this occasion that the "Old Fort" was dismantled by Admiral Tromelin and it was never considered that there was full settlement of this affair till the presentation of this plate and other valuable ornaments several years after.

In the course of its researches on this subject your committee secured access to a file of the well known "Spectator" newspaper or periodical and presents as a part of this report extracts from the same, giving quite full details of the presentation of the plate and other articles to the Hawaiian Government by the French Government and showing that the event was strictly a political one. The account given by the "Spectator" can scarcely be questioned by anyone.

Your committee finds to be correct the claim that His Late Majesty Kalakaua at one time secured from the city of Boston, Mass., duplicates for certain lost pieces of the set of plate and further that expense of this replacement was borne by the Government and did not come out of the privy purse.

Your committee feels, then that legally as well as morally and in fact this plate is at this time the property of the Territory of Hawaii. Could we find otherwise it would be a pleasure to recommend that the resolution pass the Senate and that the plate be presented to the Young Princes. We are convinced, however, that it is Territory property and plainly of the nature that in other countries is carefully treasured for purely historical interest. In this instance the gift of the French Government to the Hawaiian Government represents the settlement of difficulties that at one time seriously threatened the Hawaiian monarchy. We would recommend therefore, that on account of its deep historical interest this plate be placed in safe keeping, together with a careful account of the same, where it may be viewed by the public and its true value understood. Than the Bishop Museum, endowed

by an Hawaiian Princess, we know of no better place of deposit and exhibit, the Territorial officials, however, securing a proper receipt for the property. It would thus always serve as a reminder to all the people of the Islands and to visitors from the Mainland and from foreign shores of a happening in which a monarch of Hawaii ne! upheld with kingly grace and ability the dignity then appertaining to Hawaii as a free and independent state amongst the nations of the earth.

All of which is respectfully submitted,

J. D. PARIS,
L. L. McCANDLESS,
L. NAKAPAAHU,
Committee.

A message from the Governor, vetoing a Bill entitled "An Act to provide for the Incorporation and Government of Cities within the Territory of Hawaii," was read by the clerk as follows:

Executive Chamber,
Territory of Hawaii.
Honolulu, April 27th, 1903.

To the Legislature of the Territory of Hawaii:

I am unable to approve of a Bill entitled "An Act to provide for the incorporation and government of cities within the Territory of Hawaii" received from the Legislature on April 15th at 1:45 o'clock p. m., and return the same herewith without my signature.

My objections to this bill are as follows:

Section 35 provides that "any police justice . . . shall have all the power and authority now exercised by District Magistrates."

Section 43 provides that "cases in the police court for violation of . . . Territorial laws shall be tried and determined by the police justice without the intervention of a jury."

It is further provided that fines and costs collected in such courts, arising from a breach of the laws of the Territory, shall be paid to the city Treasurer, and that persons sentenced to imprisonment for violation of territorial laws, or who may be committed for non payment of fines and costs for violation of such laws, shall be put to work for the benefit of the city.

It is not easy to forecast the confusion and conflict of authority that would be likely to arise from such legislation, with District Magistrates as County and Territorial officers, still exercising their authority and County police acting under the County law, the unseemly competition between the County and City officials that would inevitably arise, for arresting and trying offenders against Territorial laws and turning the fines and costs into the respective treasuries from which such officers are paid and for controlling the labor of prisoners, is something that is not pleasant to contemplate.

Moreover the provision of Section 43 that such cases shall be tried by police justices "without the intervention of a jury," affects, in certain classes of such cases the rights of parties to a trial by jury to the extent of depriving them of such right except upon appeal.

Section 57, division 12, gives cities the right of eminent domain under which it is provided that they may take private property for public use "within or without the city."

As this provision gives a city the power and right to enter the domain of any County or any other city in the Territory, and condemn and take possession of private property therein for any authorized public purpose, which would include water for drinking purposes and for the development of power, land for water works and for power houses as well as the objects mentioned in the Bill, the provision is against public policy as one that would lead to conflicts of the interests between separate cities and between cities and counties, and as tending to prejudice private interests; it being a self evident proposition that private interests would not receive the same consideration and protection from the authorities of an adjacent city as they would receive from their own county or city authorities.

One of the public purposes mentioned in the Bill for which private property may be condemned outside of the city limits is the establishing of cemeteries, for which object this extraordinary power would be perhaps more likely to be exercised than in the case of the other purposes mentioned in the Bill. Such an exercise of power has but to be suggested to raise doubts in the minds of thinking men, of its impropriety.

The extension of this power to property outside of city limits is in my opinion, dangerous, mischievous and unnecessary.

Section 86 requires that the Territorial Authorities transfer the control of such wharves and docks as may be in their possession within the limits of any city, to the authorities thereof.

This is contrary to the provisions of Section 89 of the Organic Act which provides that wharves and landings constructed or controlled by the Republic of Hawaii, "shall remain under the control of the Government of the Territory of Hawaii, which shall receive and enjoy all revenues derived therefrom."

Section 66 gives the city council power by a two-thirds vote to "order the mayor to borrow a sufficient sum to provide for the expense necessary to be incurred in making any repairs or restoration or improvements," the necessity of which has arisen after the last annual appropriation.

The provision of the Organic Act in relation to the borrowing powers of the several Territorial Governments is contained in Section 55 and is in part as follows: "nor shall any debt be authorized to be contracted by or on behalf of the Territory, or any political or municipal corporation or subdivision thereof, except to pay the interest upon the existing indebtedness, to suppress insurrection or to provide for the common defence, except that in addition to any indebtedness created for such purpose, the Legislature may authorize loans by the Territory or any subdivision thereof for the erection of" public improvements, subject to the limitation of one per cent. of the assessed value of taxable property in the Territory or subdivision thereof, for annual loans and the three per cent. limitation for the aggregate of indebtedness by such subdivision; and further subject to the approval of the President.

There seems to be no valid reason for construing this provision to mean that while the Territory is limited in its borrowing powers, the Legislature may authorize loans by a city without limit except as provided in the Organic Act.

Section 74 gives a city the power to lease and grant for any term of years to any person or persons, company or corporation, "the exclusive right to construct and maintain a system of water works to supply said city with water."

It is a serious matter to give a city the power to grant rights of this character without limit as to time, but when such rights are exclusive as well as unlimited as to time, the provision is most alarming.

Under this power the Supervisors might deliver their city to be bound hand and foot by a water monopoly which could be secured in its privileges by law, for a thousand years or more, were it not for the provision of the Organic Act, (Section 55) forbidding the grant of any "exclusive privilege, immunity, or franchise without the approval of Congress." Even the remote-

ness of the possibility that Congress might approve of such legislation does not remove its dangerous quality.

With these important defects, I do not see how the Bill in question can be of any value as a law, for the incorporation of cities, but fear that it would be a fruitful source of jurisdictional conflicts, litigation and unnecessary increase of the cost of living to citizens.

SANFORD B. DOLE,
Governor.

Senator C. Brown moved that action be deferred until tomorrow. Seconded by Senator Woods and carried.

Senator McCandless for the Committee on Public Lands, Internal Improvements, Agriculture, etc., reported as follows:

Senate Chamber,
Honolulu, T. H., April 27, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your Standing Committee on Public Lands, Internal Improvements, Agriculture, etc., having had under consideration a report from the Special Session of the Senate of this Legislature relative to the Territorial Land Bureau, begs leave now to communicate with this body upon the subject. Your committee finds and believes that the Land Laws of Hawaii are as a whole admirably adapted to conditions within the Territory and contain a number of features that show a distinct advance upon land legislation elsewhere. The provision in our law whereby communities or associations of settlers or small farmers are enabled to secure lands of the best agricultural character upon most reasonable terms is an excellent one and one calculated to steadily increase a population that will assist very materially in the development and up-building of the Territory. On account of the large amount or volume of the leasing feature of the administration of the land laws, and for other reasons, we believe that there should be added early to the force in the land office an expert accountant.

There was brought to the attention of your committee a number of complaints to the effect that there had been not a few cases of serious and vexatious delays in the delivery of patents to claimants who had complied with all required conditions. This is a matter which should be remedied at once. The explanation of the commissioner is that he has been hampered in his work by lack of sufficient office force. We believe that neither effort nor expense should be spared in providing claimants with proper titles and with every incentive to settle upon and improve lands.

We find that there are on record many cases of wrong descriptions of lands through errors in surveys. As a matter of fact in recent years many errors have been made in surveying and plotting lots and before patents can be issued it will be necessary to have resurveys. Some of the most glaring mistakes have been made in the Olaa district. We believe that some limit should be specified in the issuance of patents calling for so many acres of land "more or less," as we find in some instances this variation of "more or less" has been over 100 per cent.

Your committee felt that it was necessary to have a thorough examination made of the books, accounts, etc., of the land office at Honolulu and employed a competent expert of

the city for the work. The audit and examinations have been finished and the reports made with a considerable amount of detail, following up a large number of leases and showing fully a number of transactions about which there had been complaint or question.

We find that the land office has been administered honestly and industriously by the present incumbent, but that in the matter of keeping its records a thorough organization is imperatively demanded. The office force was reduced by the Legislature two years ago, and this in the face of the rapid increase of the business of the bureau, which is growing daily and which has quite outstripped the old system of accounts. We find that all the transactions of the office have been brought before the "Governor's Council" for consideration before consummation and that in all cases the conclusions of the "Governor's Council" have been followed. On the advice of your committee the head of the bureau caused to be settled up a number of outstanding lease accounts and secured a more thorough understanding of a number of agreements.

It is the opinion and recommendation of your committee, as intimated above, that this important office should be properly equipped in every way, and that without unnecessary delay. Not only should the clerical force be somewhat increased, but there should be installed a modern system of accounting, checking, etc., whereby it would be a simple, quick and easy thing at any time to learn any and all of the particulars relative to each lease and to all of the public lands of the Territory.

Respectfully submitted,

L. L. McCANDLESS,
J. D. PARIS,
J. B. KAOHI.

Committee.

Senator Dickey moved that the report of the committee be received and ordered spread on the Journal of the Senate. Seconded by Senator Baldwin and carried.

Senator Dickey for the Committee on Miscellaneous Petitions reported on the amendments made by the House of Representatives to Senate Bill No. 21 as follows:

Honolulu, April 27, 1903.

HON. CLARENCE L. CRABBE,
President of the Senate.

Sir:—Your committee on Miscellaneous Petitions to which was referred the House amendments to Senate Bill 21 relating to the sale of liquor make the following report:

1. The amendment to Section 5 merely corrects a clerical error.

2. Amendments to Section 9:

(a) raises the minimum amount of spirituous liquors which may be sold under a Dealer's license from "one full quart bottle" to one gallon.

(b) corrects a clerical error.

(c) in line 9 adds the words after the word "bottles," "or malt liquors only in quantities not less than one dozen quart or two dozen pint bottles." Why this is done is not known. The same words are already in the bill and this amendment merely repeats them. It is evidently an error on the part of the House or the typewriter and should be corrected before the bill goes to the Governor.

3. Section 13 is amended so as to allow only citizens of the United States of two years residence or partnerships or corporations whose members or the majority of whose stockholders are such citizens to have a license.

4. Section 16 is amended so as to reduce Dealers license to \$500, and Malt Liquor license to \$250.

5. Section 24 the fee for manufacturing spirits is reduced to \$250.

Section 6. In Section 32 the word "guest" is added after the word "boarders" so that a guest who is neither a boarder nor lodger can buy liquor on Sunday at a hotel. How a person can be a "guest" without either eating or rooming in the Hotel is a mystery to your committee and a fit subject for a conference committee.

7. In Section 45 the proviso is changed so as to bring malt liquor licenses under the provisions of this act as to applications, also as to the penalties for sale of beer to women and minors and to provide for the forfeiture of malt liquor licenses for breach of conditions of license. These amendments were evidently put in to meet the objections of the Governor to the malt liquor bill.

8. The amendment to Section 47 raises the amount of methylated spirits and alcohol which may be sold at one time to four gallons.

9. A new section is added providing for forfeiture of license in case of violation of the provisions of this act.

Your committee recommends that the Senate do not concur in the amendments of the House as a conference committee is necessary in any event to correct the error in repeating the 17 words in section 9, and some of the other amendments of doubtful expediency.

Respectfully submitted,

C. H. DICKEY, Chairman.
